

NEW LIABILITY LAW AFFECTS EMPLOYERS

New Statute, Operative in Two Weeks, Fixes Price for the Loss or Injury of Every Part of Body.

Two weeks from today every employer of labor in Nebraska except farmers and those employing domestics only, will have to carry liability insurance to cover all possibilities of injuries occurring to those employes.

The workmen's compensation and employers' liability law of Nebraska with its new amendments adopted at the last session of the legislature, will become effective July 24.

The former law made only those responsible who employed five or more persons in their business. Under the amendments all those employing one or more persons come under the law's provisions.

This will take in a much larger field than the old law, for the reason that under the old provision a large percentage of the small retailers in the country towns escaped on the grounds of not employing five persons.

Keep Employes Insured.

Under one of the amendments employers are now required to keep insured sufficiently to cover damages for personal injury or death to their employes; or to furnish to the compensation commissioner satisfactory proof of financial ability to pay direct the compensation in the amount and manner, and when due as provided for in the act.

Not only does the revised statute cover a larger field of employers than the old law, but it shortens the time elapsing between the accident and when the liability begins to run from two weeks to one.

The new law further increases the amount of liability from 50 per cent of the injured one's salary, to 66 2-3 per cent.

Price Fixed by Law.

Under the old law there was a schedule of liability fixed for the loss of a hand, a foot, a leg, or an eye.

Under the new law there is a long and detailed schedule of liability for dismemberment. Every joint of the finger is here listed with its price. Every finger of the hand is evaluated. Every toe and every joint of the toe is listed with its price. This is continued down through a long list.

This detailing of the schedule is considered to be an advantage in that it eliminates all possibility of dispute as to liability in minor injuries and makes law definite and certain.

FOUR NEBRASKA DEMOCRATS ARE OUT FOR SENATE

(Continued From Page One.)

own candidacy more seriously, though he has not yet openly avowed it.

Shallenberger on Fence.

Congressman A. C. Shallenberger is believed by his friends in Omaha and out in the state to be only lukewarm in the senatorial candidacy. Shallenberger had a hard time to get a seat in congress at all and some of his friends say that while he has his ear to the ground on the matter of running for the senate he is undecided whether to let well enough alone and try for another two years in the house or whether to throw the whole pot into the balance and take his chances in seeking a seat in the upper house.

Shallenberger made the race against Norris in 1912. The vote then stood 126,022 for Norris and 111,946 for Shallenberger. The congressman lost by 14,076, and Norris went into the senate. Shallenberger was governor of the state prior to the Aldrich administration.

Fell Out With Bryan.

Willis E. Reed tried to beat Senator Hitchcock in the primaries for 1910 for the nomination for senator, but failed.

J. H. Morehead rode into the gubernatorial chair in Nebraska on the wave of Wilsonism that swept the state when the republicans were so busy dividing their presidential votes between Taft and Roosevelt as not to notice what was happening in the ranks of such minor offices as governor.

Metcalfe was for many years a brave lancer in the ranks of the silver-tongued Bryan, and during the years that he was associate editor of the Commoner penned many beautiful eulogies of that peerless leader. There was a sudden falling out, however, when Metcalfe returned from the Panama Canal zone and since that time Metcalfe has sought the Hitchcock camp and been more closely allied with that wing of the Nebraska democracy.

Ninety-Six From Dakota In Second Officers' Reserve

Pierre, S. D., July 9.—(Special Telegram)—Governor Northeck has received information from Washington that up to date there have been but ninety-six applicants from South Dakota for entrance into the second officers' training camp at Fort Riley, while the state is entitled to 100 to 109 men in the list which would mean that many more are needed for the opening of the camp to allow for those who cannot make the final examinations.

Applications must be in by the fifteenth of this month. While no definite date is fixed for the mobilization of the South Dakota guards at their home stations, all captains and sergeants were ordered to go on duty today and are under orders to take up the detailed work of mobilization at any time.

Call Entente Conference Concerning Balkans

London, July 9.—The entente allies have decided to hold a conference in Paris for the consideration of questions of military and political interests in connection with the Balkans.

Drowns in James River. Yankton, S. D., July 9.—(Special Telegram)—Sunday night Frank Dralle, aged 13, son of Fred Dralle, was drowned in James river.

GEORGE GOULD MARRIES QUIETLY—George Gould, Jr., who is shown in the photograph with his bride, was married in Philadelphia. Young Gould and Miss Laura M. Carter, of Ardena, N. J., went to the Quaker City and were married by a Methodist minister. Kingdon Gould was married only a few days ago.

MR. & MRS. GEORGE J. GOULD, JR., OF INTERNATIONAL.

Indictments Against Miners Are Dismissed

Trinidad, Colo., July 9.—All indictments pending as a result of the coal miners' strike in the southern part of Colorado in 1913, were dismissed in the district court of the Las Animas county today.

The dismissals were at the request of Attorney General Hubbard. The most important case dropped was that of John R. Lawson, charged with murder on four counts. Four indictments against Louis Zanacelli, convicted of the murder of George W. Belcher and given a life sentence which was remanded by the supreme court also were dismissed.

Lawson, a prominent mine leader, was convicted of the murder of a mine guard as the result of the so-called battle of Ludlow. He was sentenced to life imprisonment. Upon appeal the

supreme court freed Lawson of the charge on which he was convicted, holding that the lower court had erred.

E. H. R. Green Receives Nine Thousand Proposals

Chicago, July 9.—E. H. R. Green, son of the late Hettie Green, holds the long distance proposal record for America, for, according to Mr. Green himself, he has received more than 9,000 offers of marriage in the last fifteen years.

Newspaper publicity is blamed by Mr. Green for most of these proposals.

It was rumored that Mr. Green's present visit to Chicago was for the purpose of being married tomorrow. He denied this, but refused to deny or affirm a statement that he was to wed a Chicago girl.

THREE BILLION BUSHELS OF CORN

This is the Answer of Farmers of U. S. to President Wilson's Call for More Food.

Washington, July 9.—A 3,000,000,000-bushel prospective crop of corn this year is the answer returned by farmers of the United States to President Wilson's call for food for America's allies in the war. Never before has such a crop been grown.

In its first forecast of corn production this year the Department of Agriculture announced that July 1 conditions forecast a crop of 3,124,000,000 bushels. Sixteen million more acres this year were planted to corn than last year and the acreage exceeds the former record area planted in 1909 by 13,000,000 acres.

The wheat crop, responding to better weather conditions during June, shows an increase of about 22,000,000 bushels in prospects with a total of 687,000,000 bushels or 38,000,000 larger than last year's crop. A record crop of white potatoes also is forecast with a production of 452,000,000 bushels. That would exceed the previous largest crop, grown in 1912, by 32,000,000 bushels. Prospects of the rye crop show a slight decrease from the June forecast, but the production with a total of 56,100,000 bushels.

Results of the campaign to stimulate agricultural production in the United States to aid in feeding the country's allies in the war were disclosed today in the Department of Agriculture's July crop report. Forecasts of the ultimate production of the various important food crops, based on the condition of the growing crops on July 1 were issued and the first announcement of the areas planted to corn, the greatest of all American agricultural crops, and potatoes was made. More definite idea of the final production of the winter and spring wheat crops was given and improvement was shown over the forecasts made a month ago.

Production in Bushels.

Production forecasts of the various crops made today, with comparative figures giving the forecast of each crop made last month and the final production figures of last year with the average production for the previous five years (expressed in millions of bushels, i. e., 000,000's omitted), follow:

Table with 3 columns: Crop, 1917, 1916, 10-yr. av. It lists various crops like Winter wheat, Spring wheat, All wheat, Corn, etc.

Wheat remaining on farms July 1 is estimated at about 15,720,000 bushels, as compared with 74,731,000 bushels on July 1 last year, and 30,934,000 bushels, the average stocks on July 1 for the five years, 1911-15.

Condition in Percentages.

Condition of the various crops on July 1, with comparative figures for the same date last year, the July 1 ten-

year average condition and the June 1 condition this year, follows:

Table with 3 columns: Crop, 1917, 1916, 10-yr. av. It lists crops like Winter wheat, Spring wheat, All wheat, etc.

Nebraska Corn Eighty-Six.

Condition of corn and spring wheat by important states:

Corn: Ohio, 85; Indiana, 80; Illinois, 81; Iowa, 80; Missouri, 87; Nebraska, 86; Kansas, 77.

Spring wheat: Minnesota, 87; North Dakota, 73; South Dakota, 89.

First announcement of areas planted (in thousands of acres) follows. Corn, 121,045; white potatoes, 4,384; sweet potatoes, 904; tobacco, 1,148; flax, 1,939; rice, 968.

Shortstop Berger Is Signed for Wichita

Rock Island, Ill., July 9.—President E. W. Dickerson of the Western league, acting for the Wichita club, today signed Joe Berger, Rock Island shortstop, as manager. Last year Berger was in the coast league.

Manager Berger this morning signed Pitchers Johnson and Marks of the Islanders and Outfielder Clyde McBride.

NAVY ASKS MONEY FOR AIRPLANES

Secretary Daniels Wishes Forty-Five Millions for Air Craft for Use as Naval Scouts.

Washington, July 9.—Congress was asked by Secretary Daniels today to appropriate \$45,000,000 for naval aeronautics in addition to the great \$625,000,000 military aircraft project of the defense council.

"The navy is making efforts to build up an air force of sufficient size to operate as scouts from naval vessels, to patrol the waters off the coast of the United States and our insular possessions and also to cooperate with naval forces abroad in anti-submarine warfare," Mr. Daniels said.

Brigadier General Squires, chief signal officer, and other army experts appeared today before an executive session of the house military committee to advocate immediate action on the bill providing for the war department's great aviation program.

General Squires explained that the 22,625 aircraft desired and engines for them would cost approximately \$363,000,000 and the rest of the \$270,000,000 would be necessary to man the air fleets and provide for ammunition and supplies.

James W. Gerard Resigns From Diplomatic Service

Washington, July 9.—James W. Gerard, former American ambassador to Germany, has resigned from the diplomatic service and returned to private life. His resignation was accepted some time ago, though the fact was not allowed to become known until today.

Be Want Ads Bring Best Results.

The Machinery of the Body

(By DR. L. W. SHORT.) The body is a highly organized machine of complicated parts in which the liver and the kidneys work for the common good. Damage to either one of these organs interferes with man as a motor mechanism.

The automobile expert knows how important it is that the carburetor does not get too much fuel, along with sufficient air to burn or explode the gas. Too much fuel in man's machine, such as eating too much meat, or alcohol or tea, and the liver cannot "turn over," nervous overwork and lack of exercise in outdoor air bring constipation and bad health. Eat less meat, plenty of vegetables, and with air and good exercise you need little else. If the liver needs rousing—and most of us need this once a week—take a safe vegetable extract of the leaves of aloë, May-apple, root of jalap made into a tiny sugar-coated pill, and sold by almost every druggist as Dr. Pierce's Pleasant Pellets—first put up nearly fifty years ago.

Most people die eventually of an over-acid condition. If the blood can be rendered more alkaline, the longer we live. With regular hours, plenty of water between meals, sensible coarse food and a chance to get the poisons out of the system, a man will live to be a hundred. But, unfortunately, our highly nervous way of living brings increased storage of uric acid in the body. This acts as a poison and we suffer from lumbago, aches or pains, rheumatism, gout.

Get rid of this uric acid poison by taking a harmless medicine called Anuric, which throws out the uric acid by stimulating the kidneys. Drink a pint of hot water before meals and take Anuric (double strength), three or four times a day. Anuric can be obtained at almost any drug store.—Advertisement.

I'm So "Doggone" Anxious That I Couldn't Sleep Last Night

For weeks past I have been flooding the town with placards of all descriptions bearing the inscription:

"DO YOU BELIEVE IN ME, H. M. THOMAS, Manager Strand"

This was the advance teaser on

Rex Beach's Barrier

which we present for a five-days' run commencing today, and now if you don't come out and see this picture, I will know you don't believe in me, and think how my feelings will be hurt.

Furthermore, I'll lose a wager. I bet a certain party that I could take this BARRIER picture—to my mind the best thing that has been filmed this season—and, with the proper publicity, put it over.

Instead of running ads along old-fashioned channels, I struck out on a new line, arousing your curiosity, and then announcing the name of the picture. Everything so far is satisfactory, but now then—IT'S UP TO YOU.

I tell you with every ounce of veracity that "THE BARRIER" IS THE BEST PICTURE OF THE SEASON, though instead of stars there are types in this production.

Now then, help me win the bet by coming down and seeing this picture, and if your views don't agree with mine, look me up and say: "Thomas, you are certainly a rotten judge of pictures."

I could go along with a lot of adjectives, secured out of a book costing me \$1.60, and which I am inclined to think Ye Ed Killowatt must refer to frequently, but what's the use—"THE BARRIER" IS A PEACH OF A PICTURE—laid up in the Alaskan country, where the snow will make you forget the heat of Omaha, and, besides, I want to win that bet.

Do I win or do I lose—It's up to you. Pictorially yours, DO-YOU-BELIEVE-IN-ME THOMAS.

HAVE YOU BEEN

— TO —

MANAWA PARK

It is delightful these summer days, with the lake breezes; music of the band and orchestras filling the air; crowds of gayly dressed, laughing people—all enjoying the great out-of-doors and seeking a delightful, healthful rest from the heat and work of the city.
