Range lambs made up almost the entire run this morning, natives and old sheep being too scarce to be of any consequence. The market was another draggy, long drawn out affair. Packers tried hard all morning to get lambs a quarter lower, while sellers worked equally hard to obtain yesterday's prices, and it was not until nearly noon that offerings finally started to move at figures that were, for the most part, 16 515c lower than yesterday. As was the case yesterday, everything changed hands within a few minutes after a trading basis was made.

Professional selling met with little resistance on the continued absecution of pub-lic interest. Peace reports and intimations that the arrangement between the government and the steel manufacturers was far from satisfactory, accelerated the decline, which was at its height in the last hour. The bears concentrated their attacks upon United States Steel and the numerous allied industrials, including equipments. Steel resistered an extreme loss of 3% points at 122%, its lowest quotation in many weeks, and gross declines of 2 to almost 7 points at 122%. CHICAGO GRAIN AND PROVISIONS.

Possible Peace Move Forces Corn Down After Prices Reach New High Record. Chicago, July 13.—Attention to possible peace moves turned the corn market downward today after prices had touched new high records. The close was nervous, 1½0 to 4½0 net lower, with September at \$1.58% and December at \$1.12%. Wheat finished unsettled, 1c off to 2c up, at \$2.03 for July and \$1.94% for September. Oats lost %c to %c and provisions 12c to 35c.

Until peace gozsip began to dominate a majority of traders corn was in active demand. The fact that rural offerings were scarce and that receipts here were meager seemed for an hour or more to stimulate easer buying, both of new crop months and of deliveries near at hand. On the upturn September touched \$1.61, the highest quotation yet for that option, and in the sample market No. 2 white commanded \$1.95, another new top record. At this stage rumors were circulated which led to discussion or the chances of an early peace. General liquidation then set in and was accompanied by short selling that carried the market downward during the greater part of the rest of the day.

panied by short selling that carried the market downward during the greater part of the rest of the day.

Absence of trading in wheat at the outset was so complete that no quotations whatever were posted for at least an hour, a circumstance said to he remarkable. Uncertainty over the outcome of food control legislation at Washington appeared to be chiefly responsible for the stoppage of husiness. Later a few transactions were witnessed and the market showed some firmness that was associated with need of rain in the spring crop territory.

Outs paralleled the action of corn, but kept within narrower limits. Provisions lacked any aggressive support. Peace talk seemed to have considerable bearish effect. Chicago Cash Prices—Wheat: Nos. 2 and 3 red and 2 and 3 hard, nominal. Corn: No. 2 yellow, \$1.9281.92½; No. 3 yellow, \$1.9261.92½; No. 4 yellow, nominal. Arrivals of corn continued very heavy, today's total receipts of corn continued very heavy, today's total receipts of corn being 146 carloadz which was thirty-seven carloads more than was received by Chicago, the nearest competitor. In aptic of the heavy receipts, however, the sollers had very little difficulty in disposing of their offerings, as the local cash demand was excellent for all grades and particularly for the better grades of white, which sold at a wide premium over both the yellow and mixed grades. The wheat market was dull and featureless, and while receipts were extremely light, the demand was very indifferent and only a fow sales were reported.
