Hogs—The supply of hogs, while alightly smaller than a week ago, was rather larger than usual for the opening day of the week. Arrivals were estimated at 117 cars, or 7,800 head. This is a few hundred smaller than last Menday, but is 2,700 larger than last Menday, but is 2,700 larger than two weeks ago and a gain of 2,000 over the corresponding day last year.

The market was another draggy, uneven deal, with the general tendency lower. Shipping orders were filled early at prices that ranged from fully steady right at the outset to a little easier later on, while packers also made some purchases on the earlier rounds at pretty close to steady figures. For the most part the hogs that sold in last week's notches were the good kinds, though early sales included scattering duy to the correspondence of plain sows that were very little any lower.
