DRAFT FIGURES TO BE REARRANGED

Nebraska Will Benefit Because of Overenlistments in the Hawaiian Islands; Reduce County Quotas.

(From a Staff Correspondent.)
Lincoln, July 17.—(Special.)—The fact that Hawaii has enlisted 1,990 more men for the army than the draft calls for has necessitated the reconstruction of the figures affecting Nebraska. Lee Metcalfe, secretary to the governor, has been busy today in an effort to rearrange the figures for Nebraska, which means that because of the over-enlistment in the islands, each county in this state will be benefited its proportionate share, not very much, but just enough so that Mr. Metcalfe has had to go over the entire state apportionment and make an appropriate reduction for each county.

It has also been discovered that one county in the state, Hamilton, enlisted more men than the quota assigned, 5.54 per cent. These figures had to be taken into consideration, with the end in view to making an appropriate reduction in all counties.

Authorities at Washington have notified Governor Neville that the quota of men to be raised by Nebraska this time is 13,900. Deducting the 5,691 men who have enlisted in this state in the National Guard, federal or some other service, leaves the number to be drawn from the draft 8,209. Deduct from the overenlistment in the islands the quota for Nebraska of 24, leaves the total to be drawn by the draft as 8,185 in the state. The 5.54 per cent of over-enlistments in Hamilton county will not affect the state total, but will lower each county's quota a very little.

To Overcome Redness, Tan, Freckles, Wrinkles

If your skin is unduly reddened, freckled or tanned, dab a little pure mercolized wax on the face and allow it to remain overnight. When you wash off the wax in the morning, fine flaky, almost invisible particles of cuticle come with it. Repeating this daily, the entire outer skin is absorbed, but so gradually, there's not the slightest hurt or inconvenience. Even the stubbornest freckles are affected. The underlying skin which forms the new complexion is so fresh and youthful-looking, you'll marvel at the transformation. It's the only thing known to actually discard an aged, faded, muddy or blotchy complexion. One ounce of mercolized wax, procurable at any drug store, is sufficient in most cases. If sun and wind make you squint and frown, you're bound to cultivate wrinkles and crow's feet. To overcome these quickly, bathe the face in a solution made by dissolving an ounce of powdered vasoline in a half pint witch hazel.—Advertisement.
