

# Which School?

**Wolcott School**  
The West's  
Leading School for Girls  
Offers eastern advantages in the west. Everything first class. Special departments in Music, Art, Expression, Physical Education, all manned by experts. Fully accredited. Location on Capitol Hill. In addition to all, Denver's climate. Your daughter should be there. Ask about it. Address  
**Dr. J. D. S. RIGGS, Principal.**  
1406 Marion St., Denver, Colo.

**Troops to Stay in Arizona Until Order Is Restored**  
Washington, July 22.—Federal troops will probably not be withdrawn from the Arizona localities where labor disorders have occurred recently until order is assured, it was said today at the War department. Determination of the proper time for withdrawing of the troops will be left entirely to Brigadier General Parker, commander of the Southern department at San Antonio, who has authority to act without reference to the War department.

## PROBLEM CONFRONTS BUSINESS WORLD

**Exodus of Young Men From Office Positions to Government Service Causes Great Help Shortage.**

A serious problem is confronting the business world just now with the general exodus of young men from office positions to government service. There is already a shortage which exceeds anything ever experienced in the city or state, and yet there is but a small proportion of the men who will eventually see service called out of their positions.

A shortage has existed for eight months, increasing in seriousness. For the last ninety days every clerical employment agency in the city of Omaha has reported itself unable to fill the majority of calls. In some instances not more than 10 per cent of the calls received were filled.

For the first time in Omaha history the summer calls upon placement bureaus, which are usually for vacation relief work only, show a heavy majority for permanent positions. Stenographers, bookkeepers, file clerks, billing clerks, adding machine operators and other classes of office workers are in demand far exceeding the supply.

The Van Sant school of business, which is but one of the fourteen clerical placement agencies in the city, reports that in the twenty-eight weeks since January 1, it has had calls for 320 permanent positions of which it has been able to fill only ninety-three. In short, if 227 more young men had entered that school last June and the first of the year, they would have been in permanent and well paid positions by this time.

## Raising Birds in School Rooms.

A course in the breeding of game birds in captivity has been added to the zoology work of the Gary public schools system in Gary, Ind. E. A. Spaulding, principal of the Emerson school of the Gary system, first suggested the idea to the American Game Protective association. An appeal was made to Wallace Evans of St. Charles, Ill., a well breeder of game birds, who agreed to supply the school with all the necessary stock to start breeding ring-neck pheasants, mallard ducks and gray call ducks.

Those interested in the problems of increasing the wild life in this country, game species particularly, have come to the conclusion that best results can be achieved principally in two ways. The first is through the intensive production of species under captive conditions and the second by the setting aside of areas, usually known as sanctuaries, where wild life will be undisturbed at all times, and where it will receive protection and food, when the stress of weather is such that it cannot be had otherwise.

It is intended that the work of the Gary schools will afford an opportunity for technical instruction along this branch of wild life conservation to boys and girls when their minds are in a particularly receptive condition to ideas of this sort. The experiment will be watched with interest by sportsmen and thousands of others who are interested in wild life conservation.—New York Post.

## Salaries for office workers range from \$40 to \$90, according to proficiency. Experienced women are paid more.

Omaha employers are contemplating some action and an advertising campaign, which will bring this shortage forcibly to the minds of young men and women of the city and state. With more than 8,000 young men in Nebraska going into service, employers look to women to fill vacancies.

## Nebraska School of Business.

Miss Mina Hubbell, commercial instructor in the Omaha High school, was renewing her appointment at the college recently.

Miss Emily Tibben, who has been in charge of the school's business department, is also renewing her appointment.

Miss Vera Pless has been selected to a commercial teaching position in the Des Moines high school.

Miss Mabel Alvestad has accepted a position with the Mayer Brothers company of this city.

Miss Gertrude Boer has returned from Darlington and Pieter, Wis., where she has called some weeks ago owing to the death of an aunt.

L. B. McCullough, who has been taking special work in banking has gone to Sterling, Colo., where he has a position in the First National bank.

Among N. S. B. students recently receiving high school commercial diplomas are Miss Mabel Murphy at Centerville, Ia., and Miss Lillian Stoll at Omaha.

Harry McCartney, who was a student in the college in 1915, was a recent caller. Mr. McCartney has taken a position as head of the Burlington freight office at Ashland, Neb.

A number of students in the normal training department have just completed the Gary shorthand teachers' examination. They are satisfied with the examination and will receive the same certificate as students attending the Gary shorthand school in Chicago.

Miss Vera McReynolds visited friends at the college recently. Miss McReynolds has been appointed as missionary to South Africa and will leave for the field early in September. The intervening weeks will be spent at the parental home in Fairfield, Neb.

## Martha Clark, 19, age at Woodstock, Mass., working in the laboratory is spending her vacation with her mother, Mrs. L. J. Cooper of Crete.

The college tennis courts and athletic grounds are used daily by the town people under the direction of the tennis club of Crete.

Chancellor and Mrs. Sammes were in Crete Wednesday. They took their nephews, Paul and Philip Taylor on an auto trip to Illinois.

G. A. Loveland, Mrs. Loveland and son, David, and Mrs. C. E. Hovey of Lincoln, noted to Crete Sunday. They went through the college grounds, attended church and spent the afternoon at the Wood Lodge where Miss Grace Loveland was camping.

Prof. J. W. Cooper, 31, of Whitman college, Walla Walla, Wash., is spending his vacation with his mother, Mrs. L. J. Cooper of Crete.

M. C. Harrison, a member of one of the leading law firms of Cleveland, O., who has been spending his vacation in Nebraska, spent Friday and Saturday visiting his sister, Mrs. P. C. Swift and family.

Requests for rooms in Gaylord hall, the dormitory for women, come in daily. The rooms are almost all taken. Prospects for students are brighter than at this time last year.

## Y. M. C. A. Night School.

The Young Men's Christian association is preparing for the largest enrollment in its history. The enrollment to date is far ahead of the number at this time last year. The courses that will be pushed hardest are those that will fit young men for special positions for the government. Shorthand, typewriting, bookkeeping, French, Spanish and English and a special course in first aid to the injured taught by Dr. Irving S. Cator of the State Medical college. A total of over twenty-five subjects will be taught. Mr. Edwin Puls of Bellevue college will teach the public speaking again this year. This class was a large success last year and will prove most satisfactory this year. The faculty will be as follows: C. K. Camblin, Edwin Puls, Charles L. McDonald, V. V. Dunn, Dr. Irving S. Cator, J. E. Rogers, Arthur L. Brown, Charles L. McDonald, L. A. Deering, Charles L. Sykes, E. L. Cooper, W. J. Stone, Lee G. Kratz and others not yet selected. The school will be conducted along the same lines as previous years, a special canvas will be made during August and September. Young men should prepare for the many positions left vacant by those going to the front.

## United States Civil Service Commission

Washington, D. C.  
July 12, 17.

To the Principal:  
The United States Government needs and needs badly, great numbers of stenographers and typewriters, both men and women, for service in the departments at Washington, D. C., and the situation in Federal offices outside of Washington is scarcely less urgent. The supply of qualified persons on the Commission's lists for this class of work is not equal to the demand, and the Commission urges, as A PATRIOTIC DUTY, that citizens with this special knowledge apply for examination for the Government service. At present all who pass the examination for the Departmental Service are certified for appointment. Examination papers are rated without delay.

Examinations for the Departmental Service in Washington, D. C., for both men and women, are held every Tuesday in 400 of the principal cities. Examinations for the Field Service (positions outside of Washington, D. C.), are held frequently. The usual entrance salary ranges from \$90 to \$1,200 a year. Advancement of capable employes is reasonably rapid. Applicants must have reached their eighteenth birthday on the date of the examination. The typewriter part of the examination has been changed by the omission of the copying and spacing test and the addition of the subject of Spelling.

The Commission will appreciate your assistance in bringing this need of the Government to the attention of possible applicants. Students just starting a course of study may be informed that there is now practically no limit to the number of stenographers and typewriters the Government needs and, that while, of course, no absolute assurance as to the future can be given, there is no present prospect that the demand will be materially less at an early date; in other words, the Commission believes that the study of stenography and typewriting by a great number of persons with the view of entering the government service will be justified.

By direction of the Commission.  
Yours Respectfully,  
(Signed) John A. McElhenny, Pres.

The above is a copy of a letter just received by me. Information concerning Omaha examinations can be had by applying to the Department of Civil Service, Federal Building, 16th and Dodge Sts., Omaha. Please assist the Government by spreading the foregoing information among stenographers and those qualified to fit themselves for Government Service.

**EDUCATIONAL CLASSES AT THE YOUNG WOMEN'S CHRISTIAN ASSOCIATION FOR THE FALL, 1917.**  
The educational work at the Young Women's Christian association for the coming year will be along very practical lines.  
The following courses will be offered:  
English for new Americans, beginning and advanced classes.  
The United States Government is laying special stress on this part of educational work, and has asked the Young Women's Christian associations all over the United States to co-operate with them.  
Courses will be offered in practical English and business English.  
Current events class. This class was very popular during the last year.  
This is a study of world events as they occur. To keep up with the rapid trend of events a class of this kind should be very popular.  
Telegraphy—The Western Union Telegraph company has offered to install an equipment in our building for the teaching of telegraphy to women and girls. This is a preparatory measure, looking forward to the time when so many men telegraphers will be called into military service, thus leaving the positions open to women. In short, it is a study of world events as they occur. To keep up with the rapid trend of events a class of this kind should be very popular.  
Courses will also be offered in first aid to the injured, home nursing and dietetics. French for business purposes has been taught at the Young Women's Christian association. To meet the growing demand this department will have more classes during the coming year.

**SYNOCDICAL COLLEGE, FULTON, MO.**  
This college was founded in 1871 by the Protestant Episcopal church and is located at the city of Fulton with the central idea of providing a school of the most carefully guarded ideals from within and the most select influences from without. The city of Fulton is ideal for a college of this character, being centrally located and easily accessible to all parts of the state through Jefferson City from the south and Mexico from the north, having all the conveniences and none of the inconveniences and disturbances of the great railroad distributing centers. The community is composed very largely of old and aristocratic families, conservative in their policies and ideals and yet imbued with the spirit of progress. It is a clean little city of 7,000 inhabitants, the home of three colleges and two large state institutions.  
Synodical is a Junior college, fully accredited with the State University, and member of the North Central Association of Colleges and Secondary Schools. Faculty is composed of university trained women with special training and aptness in their particular lines.  
Unusual advantages are offered in both vocal and instrumental music, expressed in the modern conservatory and equipment. Dormitory new and un surpassed in convenience and desirable arrangement. Our student body is carefully selected and limited to seventy-five in the boarding department. A scholarship of free literary tuition is offered to first-honor graduate of every accredited high school in Missouri.

**CHADRON STATE NORMAL SCHOOL.**  
Miss Laura Harris of Lincoln is visiting Miss Mabel Harris.  
The chapel exercises last week were unusually interesting and helpful. Superintendent Anderson of Alameda county was here all week and gave good talks at all the sessions, on what a superintendent expects of his teachers. He also addressed two classes in rural school management, where he met with a great deal of enthusiasm.  
Friday the class in German conversation enjoyed the realistic presentation of typical "Kaffeeklatch" by Miss Elizabeth Kroenbeck and Miss Nettie Koenig.  
There will be an exhibit of manual training articles at the school next Thursday. The public is invited to come and see the progress the young people are making.  
The girls of the cookery III class had a sale of sandwiches, coffee, ice tea and lemonade Monday.  
The Chadron normal attendance has increased over that of last summer, and from all indications the percentage of increase is larger than that of any of the other normals. The students have organized themselves according to counties. Each section has elected officers and have prepared songs and yells. Brown, Cherry, Sheridan, Box, Butler, Scottsbluff, Dawes, North Platte and Valley are well represented.

**MARY WOOD WILL OPEN STUDIO.**  
Miss Mary Wood, who will open her studio of voice culture about the first of September, has had unusual opportunities for musical study under the best of European artists.  
It was at the persuasion of Theodore Thomas, the concert master that Miss Wood first went abroad to take up her career. She has had unusual opportunities for musical study under the best of European artists.  
After his death her talent admitted her as one of the pupils of Madame Marchesi, under who she received instruction for three years.  
Later Miss Wood studied under the famous tenor, Jean de Reske, and Eitelka Gerster, one of the most noted exponents of Wagnerian opera.  
After thirteen years abroad, Miss Wood

**OMAHA MANUFACTURERS GIVE PICNIC THURSDAY**  
The annual outing, dinner and dance of the Omaha Manufacturers' association is scheduled for afternoon and evening, July 26, at the Field club. The golf game will begin at 2:30 and will include an eight-hole medal handicap, eighteen-hole play against blind bogey, prizes for the three lowest gross scores, highest score and some special contests following the big handicap contest. Arrangements have also been made to divide the contestants into teams in a match for the benefit of the Red Cross fund. During the afternoon there are to be field contests for the cardists and for the women and men and these contests will be continued after dinner at 7:00 on the main dance floor. The list of firms contributing prizes is not yet complete, but shows an unusually large list of "Omaha made" goods to be given out as prizes. This list includes the following firms: Acme Box company, Baker Brothers Engineering company, Burgess Chemical Manufacturing company, Standard Furnace company, Swift & Co. Trade Exhibit, True Worth Garment company, Urdike Milling company, Voegel & Dinning company and Willow Springs Brewing company.
