Erratic and Conflicting Currents Again Apparent on Market and Slight Advances

Are Wiped Out. New York, July 23 -The erratic and conflicting currents that have appeared in the stock market in recent weeks, were again manifest in today's circumscribed market. Prices receded from last Saturday's slight advances for more or less specific reasons, although speculative issues yielded mainly from sheer inertia, public interest being at

lowest ebb.

The more favorable bank statement, with its strengthening of reserves, and the easier money market as seen in the renewal of call loans at 3 per cent, were more than counterbalanced by fresh concern respecting the Russian situation and the timeworn question of war profits and taxes.

Stamphing shares which furthered for Steamship shares, which furnished far more than their usual quota to the day's moderate operations, were almost the only strong features of the first half of the assistantial sion, rising 115 to 2 points on signs of a settlement of the shipbuilding controversy. These gains were more than surrendered later as a result of Washington advices to the effect that the administration is to act with this country's allies in effecting a ma-terial reduction of prevailing marine freight rates. Movements in other stocks includ-ing the important industrials and war descriptions were attended by almost steady attrition, gross declines ranging from 2 to 4 points in rails, metals, motors and the more volatile specialties. United States steel reacted from its top price of 12% to 121, closing at a net loss of 1% points, the Bethleham steels, new and

old, fell 2% and 3 respectively, and others of the asme group an average of 2 points. General motors and Chandler were heaviest of the automobile issues, failing 2% and 1%. Utah, Anaconda and American Smelting leading the 2 to I points declines in metals. Oils yielded 1 to 314 and sugars 1 to 2. The four point recession in Canadian Pacific lacked explanation and other high grade rails made no response to Southern Pacific's statement of June earnings, which showed a net gain of \$1,35x.000. Total sales of stocks amounted to \$10,000 shares. Ronda were irregular, with free selling of Anglo-French 5's at a slight decline, the Liberty issues varying from 23.45 to 29.45. Total sales (par value) aggregated 2,827,-
