As has been the case for some time, the trade was very uneven, and the amount of the advance could only be approximated, as it was nothing uncommon for buyers to differ 10@15c in appraising the same load of stuff. 10@15c in appraising the same load of stuff.
Some of the plain packing kinds were bought early at the prevailing advance, but taken as a class this stuff showed the usual dragginess, and a good many of the less desirable bunches of heavy sows and mixed hogs were left for the finish. By this time the edge was off the demand, buyers having filled thir more urgent orders and the result was the customary slow close, with the early advance all lost. Eventually everything was cleaned up, but

slow close, with the early advance all lost. Eventually everything was cleaned up, but sellers had to take prices that they did not consider even fully steady in order to dispose of some bunches.

Packers bought a good share of their hogs upwards from \$14.50 to \$14.80 or \$14.85. There was a sprinkling of some of the plainest stuff under \$14.50, while the heat how sold on un to even money and the best hogs sold on up to even money and above, the top reaching \$15,50, which is as high as anything has sold since the carly days of the month. Shortfed and Grass Steers Sell today in a session that dragged through the entire morning. Sellers fought hard to keep packers from carrying out their bearish program, and the first sale of westerns that was made was right close to steady, while a few natives looked steady to, if anything, a little stronger, but when most of the western offerings finally changed hands it was at prices that were generally lower, sales being as much as 15 #25c below varieties.

of the western offerings finally changed hands it was at prices that were generally lower, sales being as much as 15 #25c below yesterday.

Early in the day as high as 315.60 was paid for a deck or so of natives, but the best price paid for any rangers was \$15.50 and bulk of the sales made up to noon he landed around \$15.25. Several cars of fat stuff had not been cashed at lunch time. The run of fat sheep was moderate, though larger than most recent days, and packers, who have been unable to get much old nutton of late, took what was here rapidly at figures that looked, if anything, a little stronger. Native ewes sold as high as \$10.00 \$2.5 a couple of cars of rangers reached \$3.20, the highest price in that has been paid in some little time. A small package of yearlings of very light, weights went at \$11.00.
