

Nebraska DEFENSE COUNCIL EXPLAINS TO CHURCH

Statement Not Aimed at Lutheran Body, but at Few Disloyal Leaders Who Misrepresent It.

Lincoln, Neb., July 25.—The Nebraska State Council of Defense, after its regular meeting yesterday afternoon, authorized the following statement, unanimously approved by all members of the council:

A committee, representing the synods of the different bodies of the Lutheran church in this state, appeared before the State Council of Defense, representing that the statement issued by the state council has been understood to censure the Lutheran church in this state because of disloyalty. This committee declared the never-questioned loyalty of the general body of the membership and expressed severe disapproval of the un-American utterances of those who are responsible for the condition of affairs complained of.

Aimed Only at Disloyal.
The state council disavows any purpose to reflect upon the Lutheran church itself and gladly accepts these expressions and reiterates its original statement that it depends upon the American patriotism of the men and women who comprise the Lutheran church membership and the loyal pastors.

The council repeats that its charges are not addressed against the entire Lutheran church body, but only against those who "have publicly and privately discouraged the American cause and have shown marked partiality for the cause of America's enemy."

It is a pleasure to give publicity to the avowed loyalty and patriotism of the members of the Lutheran bodies represented by the delegation appearing before the council, and it is felt that the example of these faithful citizens will have the effect so earnestly urged in the original statement of the council.

"The Morning After"

(By DR. L. W. BOWER.)

One of the characteristic headaches due to uric acid in the system, which acts as a poison when it accumulates, is due to alcohol taken the night before. The kidneys do not succeed in throwing off this poisonous accumulation, the stomach is nauseated, or the blood congests in the head, causing throbbing pain, called headache—the heart is depressed, circulation of blood poor to the extremities, the muscles feel tired, or twinges of pain here and there are felt, and when this uric acid is deposited in the tissues or joints it causes rheumatism or gout. I always advise the drinking of hot water, a half pint in the morning, and a little Anuric. Sometimes the "blues," or a sort of rash, or a pimply face, gives warning of an "uric acid storm." At such times always take Anuric (double strength), which can be obtained at almost any drug store, and which you will find dissolves the uric acid almost as hot water does sugar.

Avoid too much meat, tea and alcohol. Drink an abundance of water, both hot and cold. Take Anuric three times a day until the bad symptoms all subside. This is the best way to avoid rheumatism and many of the pains and aches due to a uric acid condition. If you drink any alcoholic beverage you should keep the kidneys and liver active with Anuric, so as to throw off the poisons which accumulate. If your tongue is coated—a dark brown taste, breath foul, followed sometimes by colds, indigestion, biliousness, constipation or sour acid stomach, you should take some vegetable laxative. Such a one is made in sugar-coated form from the May-apple, leaves of aloe and root of jalap, and commonly sold by almost all druggists as Dr. Pierce's Pleasant Pellets. They are standard and have been in ready-to-use form for nearly fifty years.—Advertisement.

PETAINE BEATS BACK GERMAN ASSAULTS

Furious Attempts Made by Teutons to Retake Lost Positions on the Aisne Front Fail.

(By Associated Press.)

The inherent strength of the allied position in the west has just received a fresh illustration on the Aisne front. Here the French have just emerged victors in a long drawn out struggle with the Germans for possession of the important high ground in the Craonne region.

Yesterday's brilliant attack gave General Petain's troops renewed possession in almost complete measure of the slight area gained by the crown prince in his costly series of attacks. The French even pushed beyond their old line at some points. This morning came the test of the German reaction. It was directed against the positions recaptured by the French on the Aisne plateau. Although delivered after a violent bombardment, it was entirely futile.
