Dispatches Make No Effort to Minimize Demoralized and Broken Condition of Russian Center-Ends Are Holding and Wholesale Execution of Traitors May Turn Tide.

Such details of the Russian retreat in eastern Galicia at are now coming to hand do not tend to minimize the seriousness of the situation. Special dispatches report that the losses in heavy artillery will be tremendous and express doubt as to the ability of the infantry of the Russian Eighth army to make good its retreat.

There is still an absence of assurances that the Russian command- Changes Name Because ers of the armies taking part in the backward movement have succeeded in getting their refractory troops in

Russian Ends Hold.

What may prove to be a saving feature of the situation is the firm-less of the Russian armies both to the north and the south of the field retreat. There has been no suggestion of any yielding tendencies of the Russian forces in Volhynia, just to the north of the affected sector, while to the south the Russian troops are not only standing fast so far as they are able, but are co-operating with the Roumanians in a successful offensive movement on the Moldavian
