In Letter to Representative Dyer President Reiterates Confidence in Loyalty of Naturalized Germans.

Washington, Aug. J .- President Wilson, in a letter to Representative Dyer of Missouri, today reiterated his confidence in the loyalty of the great body of American citizens of German blood

Representative Dyer complained that federal officials had discharged, without hearing and simply on statements or affidavits, citizens of Germon blood in St. Louis whose loyalty had been questioned.

'Your letters have struck a reponsive chord in my mind," the president wrote. "I have been made aware from various sources of the unfortunate position in which a very large number of our loyal fellow citizens are placed because of their German origin or affiliations.

I am sure that they need no further assurance from me of my confidence in the entire integrity and emption. loyalty of the great body of our cit-izens of German blood. You know that not once, but many times in my public addresses I have expressed this confidence. I do not like to make another occasion to express it simply because it would seem to indicate on my part a doubt as to whether the country had believed my previous assurances to be sincere. May I not very respectively suggest that it would be easy to make use of the passages I have referred to from my former addresses to do something, I hope not a little, to offset the evil influences that are at work?"

Prices Now Soaring. Deming says it is not responsible

for the rapid rise in prices. Business men say they intend to keep down the prices of commodities but adventurous business men coming have taken matters beyond their control. Many fireproof buildings are going up. At least ten new stores are under construction and the little city is growing in every direction. Little, if Permitted Butte, Mont., Aug. 3.—The funeral of Frank H. Little, national executive board member of the Industrial Workers of the World, who was lynched early Wednesday morning, will be made the occasion for a big demon-stration Sunday if the local authorities will permit the striking miners to march, according to plans announced today by Tom Campbell, head of the Metal Mine Workers' union. Move to Oust City Commissioners In Body Reported at the City Hall

City hall rumor scents a movement to dispossess city commissioners in bad repute, not by recalling one at a time, but by discontinuing the commission plan of government.

It is said resort will be had to the provision of the law which requires a special election to vote on a proposition to abandon the commission plan and go back to the mayor and council system on demand of a prescribed percentage of the voters signing a petition to that effect.

According to this information, the petition already has been drawn at the instance of a group of dissatisfied taxpayers and is supposed to be in the hands of George E. Yager to be put into circulation within a week or ten days.

Sixth Holds Record.

The sixth district is examining men much faster than the other five districts. One hundred and nine men in the outlying district had been ex-amined up to Friday noon.

One man examined in this district was an ex-cavalryman and the call to arms made a strong appeal to him. HOWARD WOULD NOT MAKE ANY PROMISE

Neville Could Not Appoint Himself and Lieutenant Governor Will Not Say that He Would.

Governor Keith Neville could not depend upon Lieutenant Governor Edgar Howard to give him a commission in one of the Nebraska regiments, when he was all feverish to get into the army.

This, at least, is the way one local democrat, close to the state administration, has the matter doped out. Of course, this democrat admits that Senator Hitchcock did a lot to talk Governor Neville out of the thought of going to the war, but he says that a difficulty earlier than that con-fronted the governor. Lieutenant Governor Edgar Howard did not want to be governor.

"I shudder at the thought," said the lieutenant governor, when The Bee first printed the story of the governor's contemplated resignation to join the army.

It is said that the governor and lieutenant governor had a number of conferences on the subject, and that Lieutenant Governor Howard would not at any time promise. Neville that
