O.Day 21 Other buyers 336 Prices were a shade stronger for both corn-fed and grass beeves, and the general mar-ket for killing stock is around 10@20c beter than it was last week. Choice kinds ere comparatively scarce, and the improve nent was mostly on the medium to pretty good grades.

Cows and helfers showed even more im provement than beef steers, and bulk of the butcher and canner stock is selling 20@30c better than last week. Demand from both local packers and outside buyers is active and competition from feeder buyers has in-creased the activity of late. Veal caives, bulls, stags, etc., were in good request at somewhat firmer figures, and the general trade showed more activity than for some

time past.

In stockers and feeders the demand was actually greater than the supply for the first time in several weeks. All grades were in good request and prices ranged from were in good request and prices ranged from 50c to \$1.50 better than at the extreme_low time a week ago today.

MANY CHANGES IN ENGLISH SEA RULE

Numerous Shifts Are Expected to Result in More Direct Administration of Britain's Great Fleet.

London, Monday, Aug. 6 .- (Delaved.)-Official announcement was made at the admiralty tonight that Admiral Sir Cecil Burney, second sea lord, had been replaced by Vice Admiral Sir Roselyn Wemyss, Alan Garrett Anderson, hitherto vice chairman of the wheat commission, succeeds Sir Erich Campbell Geddes, the new first lord of the admiralty, as controller of naval construction.

The changes in the British admiralty are attracting much attention and Sir Eric Campbell Geddes, first lord of the admiralty, was appointed to

carry out. In quarters where the existing admiralty methods are regarded as unsatisfactory, the present step is denounced as a "procrastinatory half measure" and it is declared the change ought to have been so complete as to "give the country a resolute and energetic admiralty permeated by an of-

fensive spirit." Duties to Be Rearranged.

An official statement contains the announcement that an opportunity is

The mother of Mrs. de Saulles cabled from Valparaiso, Chile, that she will leave there Wednesday for New York with another daughter, Miss Amalie Errazuriz-Vergara, and her son, William Errazuriz. The message also said the mother would give every aid possible to her daughter, indicating that the wealth and influence of the family would be used, not only to defend the daughter, but to obtain the permanent custody of the 41/2-year-old son for the mother.

CHICAGO GRAIN AND PROVISIONS.

Corn Opens Lower Because of Rains, But Rises on Scanty Offerings.

Rises on Scanty Offerings.

Chicago, Aug. 7.—Although generous rains that promised to enlarge the yield of corn had a bearish influence for a while today on prices of that cereal, the fact that rural offerings were not large and that no big movement soon was expected led afterward to a reaction. The market closed steady \$4.9% c net higher with December at \$1.16% and May at \$1.13%. Wheat gained %c and closed steady at \$2.25%. Oats finished unchanged to %c lower and provisions down 7c to 30c.

At first the corn market showed a decided downward tendency, owning to the emphasis which denching rains throughout the west had given to the optimistic outlook for this

had given to the optimistic outlook for this season's crop. Gossip was sure that as a result of favorable conditions which have prevailed of late, the 1917 yield would be fully 190,000,000 bushels in excess of any previous record. The fact soon became evident, however, that offerings were not as large as most traders had expected from such circumstances. Then too, talk grew somewhat general that no big movement from rursl holders could be looked for until the safety of the new crop had been more thoroughly assured. A material bulge in prices followed, but on the upturn an inhad given to the optimistic outlook for this prices followed, but on the upturn an in-crease of selling was noticeable, and in the end a small portion only of the gains were

Complaints of dry weather damage in Canada tended to lift wheat values. Previously the market had been on the downgrade, owing to increased arrivals of new wheat from the domestic winter crop region.
