CUBS BUNCH HITS ON RUBE MARQUARD

Brooklyn Players Find Jim Vaughn Invincible and Only One Man Reaches Second Base.

Chicago, Aug. 8.—Jim Vaughn pitched almost invincibly back against the league champions, while Chicago hit Marquard opportunely and shut out the visitors 2 to 0.

The visitors made only two hits off Vaughn, a double by Johnston in the second inning, and a single by Olson in the seventh. Johnston was the only man to reach second. Vaughn issued only one pass, a walk to Hickman in the ninth inning.

Chicago scored its first run in the second inning with a walk to Deal and singles by Kiduff and Elliott. The other run was the outcome of singles by Flack and Doyle and a fielder's choice on Merkle's grounder in the sixth. The game was played in one hour and twenty-three minutes.

HAL CONNOR WINS RACE AT MALVERN

Tom Dennison's Fast Brown Pacer Takes Three Out of Four Heats on Iowa Race Track.

Malvern, Ia., Aug. 8.—(Special Telegram.)—Ten thousand persons attended the big fair and race meet at Malvern today and there is every promise of another record-breaking crowd tomorrow. The sensational fights of Ruth Law, the aviatrix, were big features of the afternoon.

The race track was in splendid condition and three very fast races were put on. Tom Dennison of Omaha was here with his fast brown pacer, Hal Connor, and took the 2 1/2 mile pace in the fastest time made.

Tomorrow closes the races with the best program yet. Three fast harness races, two aeroplane flights with a five-mile race between an aeroplane and auto, and two ball games.

In the ball games, today Malvern won over Emerson and Percival won over company 1. Summaries:

Marin Plestina's Draft Number Well Down in the List

Marin Plestina, Omaha's heavy-weight champion wrestler who has been matched to clash with Joe Stecher, the Dodge phenom, at the Omaha Auditorium Labor day, was not summoned to the colors on the draft, as was first reported from San Francisco where Plestina registered.

Plestina is married and has three children. All are dependent upon his support. But if Marin makes enough at the wrestling game to provide for his family during his absence, he probably will not ask exemption in case he is called on the second draft.

THE PERFEX CORE

No Radiator Is Stronger Than Its Core and No Core Is Stronger Than Its Joints.

As shown above, the core of the Perflex consists of a service of corrosion-resisting copper sheets, corrugated and so arranged in pairs as to form alternate water channels and air passages, sealed at the ends by a process making the joint the strongest part of the radiator.

Water channels entirely unobstructed. As the water flows downward it is cooled by a rush of air through the air passages.

Note the slit in the passage. This is what allows for expansion and contraction in the water channels. This is what permits the core to freeze without slightest injury.

These patented features are found ONLY in the Perflex.

All Traces of Scrofula Eradicated from the System

By the greatest of all purifiers. A common mistake in the treatment of scrofula has been the use of mercury and other mineral mixtures, the effect of which is to bottle up the impurities in the blood and hide them from the surface.

The impurities and dangers are only added to in this way. For more than fifty years S. S. S. has been the one recognized reliable blood remedy that has been used with

highly satisfactory results for Scrofula. Being made of the roots and herbs of the forest, it is guaranteed purely vegetable, and absolutely free from all mineral ingredients.

You can obtain S. S. S. from any drug store. Our chief medical adviser is an expert on all blood disorders and will cheerfully give you full advice as to the treatment of your own case. Address Swift Specific Co., Dept. P-150, Atlanta, Ga.

More Perflex Radiators are found on tractors now in use than all other makes of radiators combined.

Throughout the entire construction of the Perflex there is one dominating standard. It is ruggedness of construction.

No weather is too hot for the Perflex equipped tractor. With thermometer 100 degrees in the shade, the perflex cools adequately—no boiling—no evaporation. And the engine never overheats.

Nor does cold weather harm the Perflex! Forget to withdraw the water—let the Perflex freeze—once, twice, any number of times. It won't burst or crack—no harm done!

Note These Special Features

- Highest Cooling Efficiency. Large Water Channels. Greater Water Capacity. Heavy Bonded Connection. Leak-Proof Construction. Pure Copper Channel Plates. Remarkable Flexibility. Matchless Appearance.

You can get a PERFEX EQUIPPED TRACTOR—any size—any price. A list of tractor manufacturers who have regularly adopted Perflex Radiators gladly mailed on request, together with our book of Engine Cooling Service.
