

NEW YORK LABOR TROUBLE IS OVER

Threatened Carpenters' Strike Called Off When Contractors Agree to Union Hours and Scale of Wages.

New York, Aug. 10.—The threatened strike of carpenters employed in government work in this district on cantonments, navy yard construction and aviation fields was called off today.

An agreement was reached after a conference between government officials and labor union leaders, under which it was agreed that union hours and wages will hereafter prevail on the work contracted for by the government.

The contractors had objected to the demands of the Carpenters' union that no nonunion labor be employed.

The agreement provides, it was announced, that only union labor will be employed.

Although only 2,500 men were directly affected by the strike, the Order of the Brotherhood of Carpenters has a membership of almost 400,000, all of whom, it is said, might be drawn into a general walkout.

At today's conferences the government is being represented by Rear Admiral A. F. Harris, chief of yards and docks, and John Moffitt of the Department of Labor.

The government representatives, it is said, are seeking to adjust the differences between the firm of Henry Steers, incorporated, and the Brotherhood of Carpenters, over the employment by the firm of 150 nonunion carpenters on the construction of the marine cantonment at Pelham Bay park.

Nonunion Men Cause.

The union asserts that inasmuch as the government awarded the contract to the Steers firm, that it is responsible for the employment of the nonunion men. Unless the contractor consents to employ only union men, or the government cancels the contract, the union threatens to enforce its strike order not only at Pelham Bay park, but at City park, Brooklyn, Hempstead Plains, Long Island and at Yaphank, Long Island, where marine and army cantonments are under construction by contractors employing only union men.

To enforce their demand that only union labor be employed it was said today that the carpenters were prepared to call out all their members working on government contracts within a radius of 400 miles of New York and, as a last step to bring their entire organization into the fight.

Troops to France Be Delayed.

A strike by the carpenters in the New York district alone would not only delay construction on the camps where New York's quota in the new national army is to be quartered, but also would seriously affect the transportation of troops to Europe.

The result of today's conferences was expected to hinge upon the attitude of the high officials of the Brotherhood of Carpenters in their reply to Samuel Gompers, president of the American Federation of Labor, who yesterday protested that the proposed strike would be a violation of an agreement entered into between himself and Secretary Baker providing for a conciliation committee to settle all labor disputes on contracts for the war department.

Exemption of Married Men To Be Made More Difficult

Washington, Aug. 10.—Provost Marshal General Crowder laid additional stress today on his statement to local boards that it might be necessary to narrow the exemptions of married men or others with dependent relatives.

The draft law did not exclude any such from military service, but merely authorized the president to grant such discharges where circumstances made it appear advisable.

The effect of General Crowder's caution to the local boards is to make possible a reopening of every case where a registered man has already been held discharged by reason of those dependent on him.

RUSS EDUCATORS AT STATE UNIVERSITY

Three Members of Mission Visit School of Agriculture and Note Dairy and Packing Methods.

Lincoln, Neb., Aug. 10.—We are here to study your methods of agriculture, your dairy industry and your packing houses so that we may go back to Russia and teach our people. We will take back with us some of your experts to teach the young men of our country and we will take back, also, young Russians who have been studying these things since the arrival of the Russian mission in the United States," asserted Nicolas A. Borodin, member of the Russian mission to the United States here today.

Mr. Borodin, with M. P. Kochetkoff and M. I. Wolkoff, members of the mission here who are touring the country, are in Lincoln to study methods of instruction and agriculture extension of the Nebraska University College of Agriculture.

"What can I say about Russia when I get all the news from your own papers?" Mr. Borodin asked when asked what dependence the allies would place upon Russia in the war against Germany. "Mr. Root brings back a very encouraging report. More than that I cannot say."

Frank to tell of the purpose of their visit to the United States, the Russian delegates were reticent about conditions in their own country. It was evident, however, that they were not worried over the security of the government in Russia and have perfect confidence in Kerensky, the young Russian premier.

The Russians came to Lincoln from Fremont, Neb., where they attended the National Tractor show and made arrangements for the purchase and shipment of many tractors to Russia.

Santa Fe Line Employees to Receive 15 Per Cent Increase

Chicago, Aug. 10.—An increase of from 11 to 15 per cent in wages of 18,000 employees of the Atchison, Topeka & Santa Fe railroad shops was announced here today. The advance goes into effect September 1.

300 PIES DOWNED BY SOLDIER BOYS

Women's League Gives Pastry Feast to 600 of Uncle Sam's Fighting Men Stationed at the Auditorium.

"Ripping," "Bully," "Better than mother ever dreamed of," are some of the compliments bestowed upon the 300 pies which 600 pie-hungry soldier boys at the Auditorium gobbled down yesterday afternoon, at the rate of half a pie to the man.

The commissariat department of the National League for Women's Service, headed by Mrs. L. J. Healey, is responsible for the big pie feed which gladdened the hearts of homesick boys of the "Dandy Sixth," who are awaiting removal to the Fort Deming training camp.

Captain Metcalfe of the machine gun company was detailed as chief guardian of the pie tables and was on guard all morning to shoo away anxious members who were afraid they wouldn't get their share if they waited till afternoon.

Lieutenants Paul Coad of the machine gun company, Ted Metcalfe of Company C and Duff of Company B made up a self-appointed committee of pie-tasters. Lieutenants Coad specializes on apple and cherry, while Lieutenant Metcalfe likes the "gooey" ones, especially favoring custard.

Lieutenant Duffy was chief taster and tried them all. There was a wild rumor this morning that four pies were missing and accusing fingers were pointed to Lieutenant Coad, who was looking unusually well fed, but he "stoutly" maintained his innocence.

Besides Mrs. L. J. Healey, Mesdames E. M. Syfert, Clara Fowler, Charles Lotz, Robert Hollister, Willis Crosby, Edward Pielan, Peter Elvad Sanborne, Conant and J. J. McMullen assisted in handing out half pies to the delighted men.

Every possible variety of pie figured on the menu—lilies pies, juicy pies, pies with white, foamy meringue, cream pies, pies that oozed the sweetest of fruit juices, pies with crisp-crust stripes of dough laid on top and—just pie.
