### Muse Secures Triangle and Keystone Comedies

The Muse theater has contracted for the Triangle pictures and the famous Keystone comedies. Manager Shirley announces that they will make their initial debut at his theater August 26 with Wilfred Lucas in "The Food Gamblers." This is a production that is very timely, dealing as it does with a question of national importance at this time, and shows how some men do not care what happens to this country or the food supply, just so they make money.

Speaking of the Triangle program, Mr. Shirley says: "There is no question but that the productions of this concern are of the highest standard and represent the last word in the silent drama. The Triangle company has made more really big stars than the average company and no doubt will make many more as time progresses. One big thing that has been noticed as a predominating feature in this company's product is the humaneness of the stories and the faultless direction and photography, making a production that at once appeals and convinces.

"The name 'Keystone' has stood for years as the very last word in comedies. It is a noticeable fact that many comedies are just one slapstick after another, but one of the reasons that 'Keystone's' succeeded is that they take a regular story, choosing it as if for a regular feature and then making comedy situations out of same. They will be a regular feature at this house."

Other announcements will be forthcoming in the matter of a few weeks which Manager Shirley says will be a great surprise.

### Girl at Empress Garden Wins \$500 on a Dare

Winning \$500 on a "dare" is not an every day occurrence. Miss Nan Bell of the Bell Sisters who are playing at the Empress Gardens, was the lucky one to get \$500 for thirty minutes work from W. B. Greenwald, campaign manager of the "Electric Maid" washing machine. Mr. Greenwald has advertised all week for a woman to dress as the Electric Maid but did not get any answers to his advertisements and, having promised his firm that he could get someone to do the job was about to give up, when he was talking to his advertising man, while having something to eat at the Empress gardens.

He said he couldn't even dare somebody to dress like the picture. The conversation was overheard by Miss Bell whereupon she said that no one could "dare" her whereupon Mr. Greenwald offered her \$500 if she would take up his dare. She did the job well as the crowds that gathered to see her blocked the streets down town to see the Electric Maid.

### Y. M. C. A. PREPARES TO AMUSE SOLDIERS

#### Organization Already Has Commenced Task of Preparing Recreation for Expeditionary Forces.

(Correspondence of The Associated Press.)

Paris, Aug. 11.—The gigantic task of supplying American soldiers in the training camps and at the front with recreation has been undertaken by the army and navy Young Men's Christian association. Organized early in May, its French branch already has leased and opened a large clubhouse and headquarters in this city and has established centers at the permanent American base twenty-five miles behind the lines of the western front and at several ports where the American sailors, soldiers, ambulance drivers, aviators and others engaged in war work disembark.

Under a comprehensive plan outlined by directors of the local branch, working in conjunction with military authorities and American Young Men's Christian association officials, representatives of the association will follow the troops wherever they go, into the training camps in America, on the largest troop ships crossing the ocean, at ports of debarkation, into the French training camps and advance bases and even into the dugouts near the front trenches.

Five Young Men's Christian association secretaries, trained in special branches of the association's work, will accompany each brigade of approximately 5,000 men into the training camp in America and continue with the unit until it reaches the front. Each Young Men's Christian association unit will be equipped with a barracks or a hut which will serve as a recreation center and an attempt will be made to provide the soldier with all the comforts, conveniences and privileges that his family would like to provide for him. These barracks and huts will be equipped with reading, writing and game rooms, shower baths and other facilities for indoor and outdoor recreation.

#### May Open Clubs.

Later, if the demand warrants, the association plans to open attractive clubs for officers in the naval and military service. These will be located at ports of debarkation, advance bases and in the urban centers where officers are likely to congregate. They will be operated independently of those provided for the men.

Much already has been accomplished by the Young Men's Christian association in Paris. The idea of establishing a Paris branch was conceived early in April by D. A. Davis, a trained American Young Men's Christian association secretary.

The first meeting was held May 9, when an organization was perfected and the subjects of the association outlined to a group of interested American residents in this city. No time was lost in preparing for the venture of the great American army and arrangements were soon completed to have Young Men's Christian association meet all incoming troops and to travel with them to their stations. Consequently when the first expeditionary unit arrived, Young Men's Christian association men were on the ground waiting for it and they accompanied the troops from the temporary camp to the advance base.

Late in June a handsome private mansion at 31 Avenue Montaigne, just off the central point of the Avenue des Champs-Elysees, was leased for the duration of the war and a

period of three months after its conclusion. It was immediately converted into an administrative headquarters of the association and a clubhouse for Americans engaged in war work of all kinds, including Americans with the British and Canadian forces, of whom there are approximately 40,000. Reading and writing rooms were opened, pool and billiard tables installed and shower baths provided. French classes have been started for officers and men and a large number have enrolled. Tennis courts have been made available to men in the service and early in July a baseball league was formed among the ambulance, aviation and other units in the city.

#### To Provide Sleeping Quarters.

Arrangements are being made to provide sleeping quarters for 300 men for the benefit of those who may come to the city on leave or are quarantined here, preparatory to joining their units. A canteen will be opened at the Paris headquarters to provide the "Sammys" with candies and American cigarettes and tobacco, which are difficult to obtain in France. ### TODAY'S AID TO BEAUTY

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthrox (which you can get at any druggists) in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After a canthrox shampoo, arranging the hair is a pleasure.—Adv.
