Food Conservation And Patriotism

Mrs. Peter Pennypacker of Austin, Tex., formerly president of the American Federation of Women's Clubs, in an address she delivered at the Speakers' Training Camp for Education in Patriotic Service, Chautauqua, N. Y., to aid in the war by conserving food, said in part:

"If we do our duty by our allies and the neutral countries over the seas, there will be this fall a serious lack of meat, potatoes and white flour. In this dilemma the government makes a direct appeal to women."

"First, it asks that we help the men to produce more. Second, that we eliminate waste. Third, the government asks that women substitute the cheaper foods for those that have grown costly. Fourth, we are asked to conserve all fruits and vegetables that are produced this summer, for we shall not feel the full brunt of war prices until cold weather comes."

"There is a concrete contribution that each of us can make, beginning today, toward the elimination of waste. A war portion should be our watchword at each meal. This does not mean hunger; it means taking on the plate only what we will consume, wasting nothing."

"It becomes the solemn duty of every woman to keep before her the fact that this food campaign is not one of short duration. As long as the war lasts, we must stand by our guns; we must remember that for

every man who goes to the front five people at home are needed to sustain him. Above all things, we must let it be known that no woman has the right to buy in large quantities and hoard food for her family. Some one has well said that 'such a woman is at heart a traitor.'

What Women Are Doing

The English village of Ensworth has a girl fire-fighter who drives the local steam fire engine with as much skill as any veteran in the service. Women are the rulers of the Island of Tiburon in the Gulf of California and the men are made to do all the work and act as servants to the fair sex.

A Rutgers college summer session "diet squad" of girls has determined that 27 cents a day is the irreducible minimum of the average American's food cost in these war times.
