American Soldiers and Marines in France Receiving Practical Lessons in Trench Warfare.

(By Associated Press.) American Training Camp in France, Aug. 21.—Training in some of the American battalions has progressed out with a degree akin to actual war-

upon the trenches.

The marines are having some especially lively engagements this week chasseurs, acting as the enemy, have been making attacks upon the mar- Gothenburg, Neb. mes' trench system, with Dewey, Farragut, Porter and Sampson trenches as the battle objectives. The French also have been attempting to block and hold communication for Traver Brothers, builders, has gone trenches known as Ohio, Mississippi Delaware and Potomac.

The marines have been making stout resistance, and wherever the is already expert in the work required "enemy" penetrated their lines they organized a counter attack, which quickly ejected the intruders. The real object of these prelimi-

nary attacks is to get the officers and men acquainted with what are known at the front as operation orders. It is the first step toward learning the rudiments of a highly organized part of modern warfare, where every step and every detail is worked out in advance on a prearranged plan and must be strictly adhered to.
