**MUSTER IN CO. E OF
"LUCKY SEVENTH"**

**First Company of the Nebraska
National Reserve Guard
Takes Oath Given by
the State.**

The Omaha battalion of the
"Lucky" Seventh regiment, Nebraska
National Reserve Guard, is formally
under way.

Company E, the first of four com-
panies to be recruited here, was must-
ered into the service last night with
seventy-eight men present or ac-
counted for. This company having
been technically completed, the re-
cruiting of Companies F, G and H
will proceed as rapidly as possible.

Under the command of F. W. Hig-
ginson the company was mustered
into the service by Captain J. M.
Leidy of the adjutant general's de-
partment.

It was a splendid body of men who
gathered at company headquarters,
1612 Farnam street, to take the oath
that made them soldiers of the state
and of the nation, pledged to answer
the call of president or governor in
the behalf of their country. Most of
them were young men, many whose
dependent wives or other relatives
prevented their enlisting for im-
mediate overseas service, others mere
boys hardly out of high school. But
here and there was to be seen a man
well over the draft age who had en-
listed in the company, eager to "do
his bit," by replacing the guardsmen
who have been called into federal
service.

Not a man of the seventy-eight but
was anxious for the sterner service
in France—not a man but who, had
circumstances permitted, would have
been more than willing to risk his
life with the men who are to see for-
eign service.

"Maybe they will need us yet," one
private wistfully sighed. "And if
they do," he added, "I guess that I
can find a way to care for my wife
while I am gone."

And not one of the guardsmen who
heard the remark but voted an em-
phatic "Aye."
Company E is already assuming
the resemblance to a real military
organization. Its quad formations
have been completed, non-commissioned
officers named and a company
quartet formed. During rest periods
last night the songs of the four joyous
youths made the drill room ring
and set feet to moving and shuffling
to swaying.

Men of the company will meet at
headquarters at 7:30 o'clock Tues-
day and Friday evenings for ninety
minutes of drill. The men in charge
are certain that it will be but a few
weeks until the "rough places" are
worn away and that an efficient and
well drilled company of men will be
ready to take the place of one of the
organizations that is to help fight the
real battles of the nation.

Portland Man Arrested
Accused of Killing Child
Clark Cochran, aged 55, arrested by
Detectives Jolly and Dolan today
for wife desertion, will undoubtedly
be tried for murder upon his return
to Portland, Ore., according to Con-
stable Mark Peterson, who has ar-
rived in Omaha.

Cochran, who has been employed
as a porter in the Woodmen of the
World building, was arrested on ad-
vice of Portland officers. He was in-
dicted recently by a grand jury for
the murder of his infant child, which
his wife alleges he burned to death in
the kitchen stove.

According to newspaper reports
brought to Omaha by Peterson, Coch-
ran has a criminal record both in
Oregon and Montana. They tell of
his mania for killing and state that
he carried a bottle of strychnine which
he spread on bread and tossed to ani-
mals.

His wife secured a divorce last Jan-
uary and the custody of their six
small children in Oregon courts.

**MICHAELIS TELLS
WHAT ALLIES WANT**

**Chancellor Recites What He
Declares to Have Been Peace
Demands of Kaiser's Foes
Early in Game.**

(By Associated Press.)
London, Aug. 24.—What is purport-
ed to be a verbatim report of the
speech of the imperial German chan-
cellor, Dr. Michaelis, received by the
British admiralty per Wireless Press
and through Reuter's Hague corre-
spondent, in part follows:

"As regards our enemies, their num-
ber has increased since the adjourn-
ment of the Reichstag by three, name-
ly, Siam, Liberia and China. These
countries have no convincing reason
for enmity against us. They acted
solely under pressure of the entente
and the United States, the latter hav-
ing great influence over Liberia and
China. We have made it clear to
these countries that we shall bring
them to account for the damage done
under international law to German in-
terests."

After referring to the solidity of
Germany and its allies, the chancellor
read a telegram from Field Marshal
von Hindenburg, declaring that the
military situation was more favorable
for Germany than ever. The chan-
cellor added:

Successes on Land.
"Our successes on land correspond
with our successes on the sea. In the
month of July, according to the latest
reports received, 118,000 tons of ship-
ping were sunk. When we take into
consideration our results on the one
hand and the failure of our enemies
on the other, it appears to be incom-
prehensible that our enemies show no
disposition to prepare the way for
consideration of terms of peace, not
to mention peace which includes re-
nunciation."

It was able recently to show by in-
formation regarding a Franco-Russian
secret treaty what far-reaching war
aims France had and how England
supported French desires for German
land. Only recently a member of the
British cabinet declared that there
would be no peace until the German
armies had been thrown across the
Rhine. I now am able to show that
further arrangements were made by
the enemy regarding their war aims,
some of the details of which were al-
ready made known to the committee
on an earlier occasion. I proceed in
chronological order:

Peace Demands Made.
"On September 7, 1914, the enemy
coalition decided only to conclude a
joint peace. On March 4, 1915, Russia
made the following peace demands,
of which England approved by note on
March 12, and France by note of the
same date, namely: Russia to receive
Constantinople, with the European
shore of the straits; the southern part
of Thrace as far as the Enos-Midia
line; the islands in the Sea of Mar-
moras, the islands of Imbros and Ten-
dos and on the Asia Minor side the
peninsula between the Black Sea, the
Bosphorus and the Gulf of Ismailia as
far as the River Sakarieh, in the east.
This basis was laid down and the ne-
gotiations continued their course in
1915-16. In the course of them Russia
obtained the promise of the Armenian
villages of Trebizond and Kurdistan
and Messina and the hinterland ex-
tending northward as far as Sivas and
Kharput.

England's Share.
"England's share was to be Mesop-
otamia and the rest of Turkey in
Asia was to be divided into English
and French spheres of interest.
Palestine was to be internationalized
and the other districts inhabited by
the Turks and Arabs, including
Arabia proper and the holy places of
Islam, were to be formed into a spe-
cial federation of states under British
suzerainty."
"When Italy entered the war she
demanded her share of the booty.
Fresh negotiations were opened,
which in no wise pointed at renuncia-
tions. I think we shall have further
details about them which will be pub-
lished later."
"With such far reaching enemy war
aims it is understood why Mr.
Balfour lately stated that he did not
consider it advisable to make a de-
tailed statement on the war policy of
the government. Those are the bot-
tom facts as they appear to us at the
present moment, when we envisage
the possibility of concluding peace."

**Germany Makes Overtures
For Argentine Friendship**
Zurich, Aug. 24.—(British Admir-
alty, per Wireless Press.)—Germany
has replied to the Argentine note
which demanded compensation for the
torpedoed Argentine ship and a pledge
from Germany that it would abstain
from torpedoing Argentine vessels in
the future. It is officially announced
from Berlin that Germany has not
conceded these demands, but the pos-
sibility of an amicable settlement is
not excluded.

**Tribal Indians Exempt
On Same Ground as Aliens**
Washington, Aug. 24.—Tribal In-
dians are not subject to army draft
before they are citizens and may
claim exemption on the same ground
as aliens. The War department for-
mally ruled on the question today at
the request of counsel for some of
the tribesmen. Nearly all Indians
maintain tribal connections, it is said,
and the number who will be exempt
under the ruling is estimated at more
than 20,000.

What's New in Millinery? Our Display Saturday Is the Answer

"WHAT'S new in millinery?" That's the question
of the home, and such an important one, that
mere description of the en-

ever else may be said of the new Fall
