

### REICHSTAG DEBATE ON U-BOAT PILLAGE

#### Main Committee Divided Regarding Success of Unrestricted Submarine Warfare.

Copenhagen, Aug. 26.—The submarine controversy again has been raised in the Reichstag main committee in the government's efforts to convince the members that the unrestricted U-boat campaign is a great success. Press dispatches, both for foreign and home consumption, have been printed, giving in great detail the arguments and statements from Dr. Karl Helfferich, secretary of the interior, and Vice Chancellor and Vice Admiral Eduardo von Capelle, secretary of the imperial admiralty. These dispatches, however, carefully refrained from mentioning the skeptical attitude of Matthias Erzberger, chief member of the Reichstag, Phillip Scheidemann, Reichstag member, and Conrad Haussman, Bavarian radical. Herr Scheidemann took issue with Dr. Helfferich, questioning his account of the workings of the unrestricted campaign and warned the government that it must not deceive itself regarding the effect of the sinkings on England. Herr Scheidemann said that nothing had been brought forward to change his party's attitude on the submarine question.

Herr Erzberger said that Admiral von Capelle figures were based on an antiquated assumption and in no wise were they convincing and he was very optimistic in regard to these calculations. Herr Haussman declared that the situation had in certain quarters been exaggerated as good, and that too powerful expectations had been raised.

#### Japs Inspect Annapolis;

#### Delighted With Plebes

Washington, Aug. 26.—A little "wray" but looking forward eagerly to further sightseeing on historic American sites, the Japanese mission returned last night from Annapolis, where they spent the day inspecting the naval academy.

Scenes in historic Annapolis much delighted the visitors and aroused in them the keenest desire to visit West Point later. Plans contemplated their going there soon.

The day was a happy one for the members of the mission and they expressed the greatest admiration for the institution.

A company of marines, standing at attention, greeted the mission as they stepped through the main gate and they found more than 700 plebes awaiting review. The academy band began playing, "Kimigayo," the Japanese national air. Broad, appreciative smiles played across the faces of the visitors as the thrilling air swept across the field. The plebes then executed a few evolutions and withdrew, amid applause.

#### Continue Shooting Case

#### For Absent Witnesses

The preliminary hearing of Jesse Howard, charged with shooting Joseph Mobley with intent to kill, was held in police court Saturday morning.

Floyd Gater, 2020 Charles street, colored, employed at the Creighton garage, where the shooting occurred, testified that Mobley and Howard were on the best of terms when they entered the garage. He said he was standing within ten feet of the two men, looking out into the street, when he heard the report of a gun. When he turned, Howard said, "Go, get a doctor; I've shot him. It was an accident." Gater sent a boy after a doctor and returned to Howard, who was supporting Mobley in his arms. Gater heard the wounded man say, "Jesse, I know it was an accident. I know you didn't mean to do it."

Due to the absence of an important witness the case was continued to September 7 and Howard was released on \$2,000 bonds.

#### Real Estate News

The Pittsburgh Real Estate board has recently revised its commission scale. As a comparison with Omaha it may be noted that the charges are different when within the city limits or for suburban or outlying property. The minimum in either case is \$50 on unimproved property and \$100 on improved property. The minimum charge in Omaha is \$25 up to \$500 and \$50 from \$500 to \$1,000. As in Omaha, in case of exchange, both parties are charged a commission. The charge on real estate loans is 3 per cent on the total amount of the loans.

The Kansas City Real Estate board is backing a movement a year or more after the Omaha board has adopted it, of describing transfers of real estate in newspapers by street numbers or distances from the corner. They seem to think it would be quite an advantage to the owner of the property, the agent and the public.

Southern cities seem to be getting at least their share of the great government projects. Birmingham, Ala., which now claims to have 212,000 population, with Atlanta having 206,000, making Birmingham the second city of the south, has been made the first choice for the government proposed \$20,000 nitrate plant. This will be located on the Warrior river, near the city.

Detroit reports building activities as slack for the first six months of the year, but that the real estate dealers declare reported business improving as the first result of the public mind becoming settled to a state of war.

The American Contractor, in discussing the building operations throughout the United States, reaches this conclusion: "On the whole, the prospective situation in the building industry can be summarized as distinctly optimistic. Even though we disregard as problematical the impetus which may come from the requirement for government cantonments and camps, there still remain enough purely commercial factors to warrant some confidence in the future of building during the period of the war."

Omaha and other cities in this part of the country do not realize the tremendous building projects required by the industrial operations in eastern cities, for instance, the nitrate plant referred to above. One of the Pittsburgh Steel companies has planned a mammoth building project, including a new plant and a new town costing \$3,000,000. Last year several farms were purchased in Washington county, opposite Fayette City, a long distance from the center of Pittsburgh. This includes a large water works system, a new railroad and 200 homes to be built at once.

Among Chicago building notes is found the statement that our Edward A. Cudahy will build two costly homes in the residence district just north of Lincoln park, one for himself and the other for his daughter. To give an idea of the high cost of residence land in the town by the lake, it is noted that the sites for these two fine homes include 70x140 feet and 50x140 feet at around \$550 per front foot.

The city of Chicago has recently bought 100,000 square feet on the Chi-

They opened the front door and saw two colored persons, the "gal" and the runaway husband, who sat quietly together waiting all on-ter pump 'em full of 'led, an' dey'll say 'it'll be hot too,' yelled a voice over the phone to the desk sergeant.

"An dat black gal in dere dun phoned to mah own husban' ter come an' see her. An' de lazy, good-fer-nuthin' rascal tuk mah hat fer dat gal, an' de las tree dollahs. Ah hed to spend on her, an' dun let me. Now officer, ef yo' all don't do nothing ter git me mah man an mah hat, yo'll suah be pickin' up his pieces befo' A. M."

The old Brevoort hotel, a famous landmark, with thirteen stories, 50x178, has just been sold for around \$1,000,000 and a mortgage placed on it for \$300,000 at 6 per cent.

#### Saturday a Heavy Day

#### On the Grain Exchange

Saturday was a busy day with the members of the Omaha Grain exchange and while the session was a short one, the volume of business transacted was enormous.

Although cash wheat was 2 to 5 cents off, people holding it were anxious to sell and the buyers apparently were just as anxious to get hold of it. It sold all the way from \$2.30 up to \$2.41 1/2 a bushel. The holdover from Friday going along with the eleven carloads, the receipts of the day. There was a goodly quantity of spring wheat on the market, it selling around \$2.40 a bushel. Most of it came from Polk county and was reported to have yielded twenty-five bushels to the acre.

Corn was 1 to 2 cents up and sold at \$1.78 to 1.86 a bushel. The receipts were forty-six carloads.

Oats sold 1 cent to 1 1/2 cents higher than Friday and at 54 to 55 cents a bushel. Receipts were eighty-one carloads.

#### Muny Water Carnival

#### To Be Staged Saturday

Some unique water feats are promised Omahans at the annual water carnival to be staged by the Recreation board at Municipal beach, Carter Lake, next Saturday.

Gilroy Wenell, coach of the Young Men's Christian association seals, is preparing some novel water games and performances never before seen in Omaha. The firemen and policemen are going to stage the first tug-of-war ever staged in the water. The two teams will be in bathing suits and will pull in shallow water.

Prizes will be given the winners in the following contests: Twenty-five-yard swim, girls under 16 years; twenty-five-yard swim, boys under 16 years; fifty-yard swim for men; open diving off high board for men; under-water swim for distance.

Entries will be received this week by Recreation Director Isaacson at the city hall, or Dr. W. J. Leary, at Muny beach.

#### Fractured Spine Caused

#### Death of Richard Morris

At a post mortem conducted Saturday afternoon by Drs. McClenehan, Newell, Lord, Wearne and Bliss, it was decided that the death of Richard Morris, 2520 South Thirty-second street, in the Young Men's Christian association swimming pool Friday night, was caused by a fracture of the vertebrae of the spine. It is presumed that the accident occurred when young Morris dived off the spring board into the pool.

Richard Morris lived at home with his parents and was an apprentice bricklayer. His father, Frank Morris, is traffic manager at Burgess-Nash.

The funeral will take place at the house at 8:30 Monday morning to St. Peter's church at 9 o'clock.

### START CAMPAIGN FOR JEWISH RELIEF

#### Teams and Captains Named to Begin Work Today to Raise Omaha's Allotment.

With thirty-eight men already subscribing \$20,000, an unusual start has been made toward the \$75,000 goal set by the Omaha Jewish relief committee for sufferers in the war. The highest subscription is that of one man whose name has not been made public, but who has subscribed \$5,000. Equally important is the donation outright of \$3,000 by Morris Levy of the Nebraska Clothing company, with an additional promise of 10 per cent of the sum total raised in Nebraska. Eight or ten subscriptions of \$1,000 each have already been raised, others of \$500 each.

The active campaign begins this morning, when the fourteen teams will begin to call on some 300 or 400 Jewish citizens and give them the privilege of making equally liberal donations. Every night during the week of the campaign, which is to close on Labor day, members of teams and their captains will meet in the Lyric building to compare daily results and to receive impetus for a fresh start.

At the last meeting of the campaign Jacob Billikopf, executive director of the national campaign for \$10,000,000, of which the local effort is but a part, will be here to receive reports.

Following are the various members of the teams and their captains: Team No. 1—Harry B. Zimman, captain; Team No. 2—William Holzman, captain; Team No. 3—Leo Rosenthal, captain; Team No. 4—Moses Miller, captain; Team No. 5—Morris Goldenberg, captain; Team No. 6—Morris Goldenberg, captain; Team No. 7—Morris Goldenberg, captain; Team No. 8—Morris Goldenberg, captain; Team No. 9—Morris Goldenberg, captain; Team No. 10—Morris Goldenberg, captain; Team No. 11—Morris Goldenberg, captain; Team No. 12—Morris Goldenberg, captain; Team No. 13—Morris Goldenberg, captain; Team No. 14—Morris Goldenberg, captain; Team No. 15—Morris Goldenberg, captain; Team No. 16—Morris Goldenberg, captain; Team No. 17—Morris Goldenberg, captain; Team No. 18—Morris Goldenberg, captain; Team No. 19—Morris Goldenberg, captain; Team No. 20—Morris Goldenberg, captain; Team No. 21—Morris Goldenberg, captain; Team No. 22—Morris Goldenberg, captain; Team No. 23—Morris Goldenberg, captain; Team No. 24—Morris Goldenberg, captain; Team No. 25—Morris Goldenberg, captain; Team No. 26—Morris Goldenberg, captain; Team No. 27—Morris Goldenberg, captain; Team No. 28—Morris Goldenberg, captain; Team No. 29—Morris Goldenberg, captain; Team No. 30—Morris Goldenberg, captain; Team No. 31—Morris Goldenberg, captain; Team No. 32—Morris Goldenberg, captain; Team No. 33—Morris Goldenberg, captain; Team No. 34—Morris Goldenberg, captain; Team No. 35—Morris Goldenberg, captain; Team No. 36—Morris Goldenberg, captain; Team No. 37—Morris Goldenberg, captain; Team No. 38—Morris Goldenberg, captain.

# Bevo

## A BEVERAGE

### Watch!!!

For some years, various and sundry concerns have been making beverages which are grouped under the general description of "near-beer."

Then came Bevo—a cereal beverage, not a "near-beer," but offered purely for what it is—a delightful, wholesome and nutritious drink. Bevo met with instant and complete success. A whirlwind success.

Owing to Bevo's popularity, some beverages are now being offered in a way to make the appearance of the package look as much like the Bevo bottle as possible. The intention is obvious. But you don't taste the shape of a bottle—it's the flavor of the contents of the bottle that you must depend upon for enjoyment.

Then beware of impersonators—don't be satisfied to try to identify Bevo by the shape of the bottle alone—

### Look!!!

There are these certain identification marks that are your protection against imitations. Not just imitations of the product, remember—but those more insinuating imitations which try to deceive you by putting an old failure into a bottle similar to a new success. So look for these unmistakable marks of the genuine Bevo—demand that the bottle be opened in front of you, then—

### Look for the Seal

See that it is unbroken covering the Crown Top. Look at the Crown Top, and see that it bears the Fox. Be sure the Bottle bears this Label.

### Listen!

Bevo is a pure drink. This means more than that it contains pure ingredients—it means that though you might often well be afraid of possible germs in milk or water, Bevo, being a pasteurized product in sterilized bottles, is absolutely free from bacteria.

Bevo is a nutritive beverage—the fine cereals from which it is made give it this quality.

Bevo is a delightful and refreshing soft drink—unlike any you have ever tasted—indeed a Triumph in Soft Drinks.

You can't get these good qualities in anything but Bevo—demand the genuine.

You will find Bevo at inns, cafeterias, restaurants, groceries, department and drug stores, soda fountains, dining cars, steamships, canteens, soldiers' homes, navy, and other places where refreshing beverages are sold. Your grocer will supply you by the case. Bevo is sold in bottles only—and is bottled exclusively by
