SEND REGISTRATION BLANKS TO WOMEN

More Than Three Hundred Thousand of Them Are Being Distributed From Lincoln to State Residents

(From a Staff Correspondent.)

Lincoln, Aug. 30.—(Special.)—Distribution of registration cards for woman's registration day, September 12, are being sent out today under the direction of Mrs. A. E. Sheldon and a corps of assistants. The cards are being sent to the chairman of the woman's council in each county and by them will be in turn distributed to the different precinct chairmen.

More than 300,000 cards are being sent out, it being estimated that there are approximately 400,000 women of proper age, in the state, which is from 16 years up, though it is not expected that all will register.

The registration for service will not impose additional duties upon women who are already in some service along war lines. For instance, those in Red Cross work can register and the registration will show that they are in that work, consequently no additional duties will be required of them unless they so designate.

The object of the registration is to give the government an index as to how many women are ready for some service which will be of assistance to the cause. There are 154 items which will give an opportunity for those who register to give the line of work they are engaged in and also as to whether they desire training in any other line.

When the registrations are completed the precinct board will report to the county board, the county board will report to the state chairman and each state chairman will report to the national board. In this way the government will at all times know where to call for service.

Railroads of Nebraska

Would Raise Coal Rates

(From a Staff Correspondent.)

Lincoln, Aug. 30.—(Special.)—Railroads of the state have made an application to the State Railway commission for permission to raise rates on coal and coke 15 cents per ton. In justification of the application they show that when the Interstate Commerce commission granted a raise of 15 per cent at its recent meeting in Washington that raise did not affect western states, except as to coal. They say that the raise was the only concession western roads received and that it practically amounts to discrimination.

An application to the Minnesota commission by the roads of that state has recently been received and granted.

Pro-German Minister Freely Admits Enmity; Goes to Riley

Lincoln, Aug. 30.—(Special Telegram.)—Admitting that his sympathies are all with Germany and that he came to the United States with no idea of becoming a citizen, Rev. William G. Krauleidis, the German Lutheran preacher arrested at Riverdale, and who will be taken to Fort Riley as an interned alien, is not backward in admitting most of the charges against him of hostility to the president and this country. He admits trying to return to Germany after war was declared as he belongs to a German society which binds its members to return in case of war, but could not secure safe passage.

Krauleidis is 26 years old and unmarried. He has been in this country about four years. He will remain in the Lancaster county jail until taken to Fort Riley.
