SLAVIC PEOPLE TO MEET IN THE PARK

Affair Is to Be Patriotic and Is to Be Preceded by Parade Headed by the Police.

A patriotic meeting of Slavic people will be held in Spring Lake park Sunday evening. Czechs, Poles, Croats, Serbs, Slovenians, and the Lithuanians, will take part. The purpose of the meeting is to unite in behalf of the small countries, which they represent, and to lay stress upon the fact that they want their freedom and independence in Europe to be made a part of America's war aims. They are anxious that no treaty of peace be signed with Germany, which does not insure the national freedom of the small countries of Europe. These peoples are all intensely patriotic and have been doing much to help the United States in the war.

A parade will form at Twenty-fourth and O streets and headed by the platoon of police and by the city commissioners, go to the park. Godfrey Horacek, president of the committee in charge, will deliver the opening address. Charles Pegler, Bohemian attorney of New York City, and Rev. Father Kalamaja of the Polish Catholic church of Immaculate Conception, will be the principal speakers. The choir of the Immaculate Conception church will sing and Ad Pechar's band will play. At the close of the meeting, people of many nations will sing America.

In the evening there will be a program in Bohemian National hall, where patriotic speeches will be delivered in the native tongues of those present.

Davenport to Be Guest of Honor at the Dinner

Members of the South Omaha Live Stock exchange will give an informal dinner next Friday for A. C. Davenport, formerly business manager of the Journal-Stockman. The dinner will be given in the exchange dining room at the stock yards. Mr. Davenport is now secretary and manager of the Daily Drover's Journal at the Chicago stock yards. Members of the Live Stock exchange wish to express their appreciation of Mr. Davenport's work here. He left for Chicago so hurriedly that the exchange was unable to entertain him at that time, so this dinner is a sort of belated farewell banquet.

Lanks Fails to Appear on Liquor Charge; Forfeits Bond

Detective Franci appeared in police court Friday with a quart measure of whiskey. He wanted to use it in testifying against Joe Lanks, Twentieth and N streets, at whose soft drink parlor he had grabbed the liquor just in time to prevent Lanks from dumping it down the sink. Franci set the quart of liquor on the bench before the judge. It remained there while police court was in session and the smell of it filled the courtroom. "The evidence is almost strong enough to speak for itself," said Prosecutor Anheuser. Lanks did not appear when his name was called. He, forfeited his \$125 bond.

Freight Cars Soon to Wear "Service Stripes"

Chicago, Sept. 1.—President Ripley of the Santa Fe system announced today that "service stripes" will be placed on every freight car operated by the road during the period of the war in furtherance of the plan to facilitate traffic. The "service stripes" will be printed on red, white and blue cardboard, 12x8 inches in size, and will bear this patriotic appeal to shippers: "Load me quickly, load me to capacity, unload me promptly, and help win the war."

Contracts Let for Three Government Shipyards

Washington, Sept. 1.—Contracts for construction of three government-owned ship yards for building fabricated steel merchant vessels were awarded tonight by the Shipping board's emergency fleet corporation. They went to the Submarine Boat Corporation for a plant at Newark, N. J.; the American International Corporation for one at Hog Island, Pa., and the Merchants' Ship Building company for one at Chester, Pa. The yards will cost \$15,000,000 and the government is given an option to purchase the lands on which they are located. The builders of the yards are given contracts for building in them 200 ships. The prospects are that contracts for many more vessels will be let when these are completed and more money is available. The Submarine corporation will lay out for building twenty-eight ships simultaneously and will have facilities and equipment to turn out one 5,000-ton ship every two days after the first vessel is completed.

Soldiers at Deming Busy Fixing Up Camp

Deming, N. M., Sept. 1.—(Special Telegram.)—Minnesota's Third infantry, Colonel H. Evans, commanding, detained at Camp Cody this afternoon, after an uneventful trip begun Monday morning from Duluth and St. Paul.

Iowa and Nebraska being represented by a regiment each, expectations point toward the Dakotas to furnish the next contingent of troops for training. Drilling of the units in camp probably will start Monday, but there is plenty of police duty to perform to get the respective regimental grounds in condition from a state of raw, mesquite covered plains. Sheriff W. E. Simpson said today there had not been a drunken man on the streets here or anyone jailed since the saloons closed.

An investigation is in progress relative to alleged overcharge by certain merchants on goods to soldiers. Mayor Nordhau said such methods will not be tolerated.

CHILD LABOR LAW IS SET ASIDE BY BOYD

Decision by Federal Judge Declares Keating-Owen Bill Unconstitutional and Enjoins Its Enforcement.

Greensboro, N. C., Sept. 1.—Federal Judge Boyd of the western district of North Carolina today held the Keating-Owen child labor law unconstitutional and enjoined the United States district attorney, William C. Hammer and his "successors, assistants, deputies and agents" from enforcing in the district the provisions of the act of congress which becomes effective tomorrow. The decision of Judge Boyd came at the conclusion of three days of argument on the constitutionality of the act. The case came before the court on an injunction proceedings brought in the name of Roland H. Dagenhart and his minor sons, Reuben and John, of Charlotte, who sought to restrain a Charlotte cotton mill company from discharging the two boys.

In announcing his decision Judge Boyd said he was gratified by the conduct of Professor Thomas I. Parkinson of Columbia university, representing the Department of Justice, who asserted that congress had used its powers over interstate commerce for the object of regulation of local conditions within the state and the discouragement of child labor. This admission, said the judge, left the issue clear and brought forward the question: "Can congress do by indirect action that which it undoubtedly cannot do directly?" "Congress," he said, "can regulate trade among the states, but not the internal conditions of labor." Judge Boyd expressed his approval of laws tending to elevate the condition and moral state of all the people and made it clear that his judgment on the act was based upon his interpretation of the constitutional limitations of congressional power.

FORM ARMY TO GIVE CARE TO KING CORN

State Council of Defense Calls for Volunteers to Join Brigade to Bring Home Home Harvest.

The State Council of Defense has just issued the following call, signed by Vicechairman George Coupland: "The organizing of sufficient help to assist the farmers in harvesting the corn crop of Nebraska is one of the very urgent labor demands the State Council of Defense is endeavoring to provide for. The acreage of corn this year, on account of the failure of the winter wheat crop, is nearly 2,000,000 acres greater than last year and the outlook now is that the yield will be up to normal. To move this valuable crop is a patriotic duty of great importance and also an economic necessity. "To help out in this great task every available boy and man who is able to husk corn is called upon by the United States government to do their part and duty in helping harvest and move the corn crop of Nebraska this fall. "Recruiting agencies for this purpose will be opened in all the counties and towns of Nebraska. The county councils of defense will assist the special recruiting agents, Paul H. McKee of Omaha has been appointed by the government state director of this special work, and the name of the organization will be "The United States Boys' Working Reserve." Blank applications and oath of service, also a bronze badge furnished by the government for those joining the Working Reserve are all ready for distribution. "State Superintendent of Public In-

struction W. L. Clemmons, to assist this work, has authorized the State Defense Council to make public the following:

Makes Earnest Appeal. "Students who join the United States Boys' Working Reserve will be given scholastic credits for the time they are engaged in husking corn upon the presentation of a certificate from their teacher that they were excused for that purpose, and also a signed statement from the person for whom they have worked to the effect that they have done faithful and efficient service during the time they were engaged upon the farm."

"The State Council of Defense makes a very earnest appeal to the boys of Nebraska to rally to the call of their country by joining this army of cornhuskers and agricultural workers, for by so doing they will be giving effective assistance to their government in the great emergency which now exists. The foodstuffs which the farms of Nebraska raise must be saved. Very good wages can be earned by those who join the Working Reserve. "Boys of Nebraska, we ask you to loyally respond to this call."

Company E, "Lucky Seventh," Makes Temporary Organization

Company E of the "Lucky Seventh" Nebraska prefect a temporary organization last night when the men met for regular drill. F. W. Higginson was named captain, Harold Bell, first lieutenant, and Edward Zippel, second lieutenant. The three officers were elected by acclamation. The company is rapidly rounding into shape and is beginning to assume the appearance of a genuine military organization. Uniforms, rifles and other equipment have been ordered and soon will arrive. Upon the departure of the machine gun company, the Omaha battalion will take over the army at Twenty-fifth and Farnam streets, now occupied by the "suicide squad."

Wattles Conferring With Food and Coal Officials

(From a Staff Correspondent.) Washington, Sept. 1.—(Special Telegram.)—Gordon W. Wattles, food commissioner for Nebraska, who arrived in Washington last evening, had his first conference with Messrs. Garfield, Strauss, son of ex-Secretary Strauss, Hallowsell and Pinchot, incidentally paying his respects to Mr. Hoover, the national food commissioner. Mr. Wattles said the interviews were in the nature of suggestions relating to organization which was essentially necessary before any real effective work could be accomplished along the lines laid down by Mr. Hoover. Mr. Wattles said he would continue the conferences tomorrow and might remain in Washington until Monday. He is a guest at the New Willard.

Hudson Prices Stand 51 Cars Advance

The materials for this year's production of the Hudson Super-Six were bought last year when most items cost less than half the present prices.

Other makers were not so fortunate. They have exhausted their supply of materials bought in the lower material market. Since January 1st 51 makers have advanced their prices. Some have made two advances. Advances have ranged from \$100 to \$700. On cars that formerly sold at \$1200 to \$1400, the increase has been \$200 to \$300. That has made them cost now as much as a Hudson Super-Six.

There are almost 40,000 owners of Hudson Super-Sixes. Now that cars which sold from \$1200 to \$1400 cost as much as a Hudson Super-Six, preference for it is greater than ever. When materials bought last year are exhausted, then the Super-Six must cost more. Judged by the advances made on former cheaper cars, the Super-Six should cost above \$2000. See the advantage of buying one now at \$1650.

PAINLESS WITHERS DENTIST

I doubt if there is a name associated with Dentistry—so cordially liked—and so bitterly hated.

I am a son of Nebraska. I was raised but a short distance from where my present offices are located. To many people this will come as a surprise—but to those who knew my father (and all who did know him) will recall the fact that I left Omaha some years ago fresh from Dental College—possessed of ideals and an ambition to make the name WITHERS known and respected in dentistry.

I knew from my early associations with the old-time dentists—and from the practices then in vogue in dental colleges—that Dentistry was far from an exact science—and that there was entirely too much pain inflicted in dental operations of all kinds.

I determined, if possible, to perfect an anesthetic—that possessed the three essentials necessary to practical success, viz:
—freedom from danger.
—certainty of action.
—inexpensive to use.

There were many anesthetics in general use—some possessing "certainty of action" which could not be used because of the danger following their use.

I found some free from danger, but very uncertain, and unsatisfactory in results.

I found one reasonably safe, reasonably satisfactory, but entirely too expensive for general use—and by continual experimenting (and a measure of good fortune) I finally perfected a local anesthetic possessing ALL the requisites I desired.

With my new, but as yet not thoroughly proven discovery, I went west—opened a dental office and advertised my ability to extract teeth without pain.

My success was almost instantaneous—and the news spread—that at last dentistry had been robbed of its terrors and the name, "Painless Withers," which a grateful patient bestowed on me in the exuberance of his gratitude, became a part of my official professional life—and I incorporated "THE PAINLESS WITHERS' DENTAL COMPANY," now one of the largest dental offices in the west.

There never was a successful man who did not gain a few enemies while making many friends and I am no exception.

I had enemies there—and I expect them here—envy and jealousy are the same everywhere.

People who have put up with mediocre dentistry, paid unreasonable prices, and suffered needless pain at the hands of incompetent dentists, are having their eyes opened, and as my reception rooms fill up, other reception rooms are empty.
