No Storage Available For City Motor Trucks
The city commissioners are in a quandary relative to what they are going to do with the city motor trucks during the coming winter. There is no city building in which to house them and to erect one sufficiently large would cost some \$2,000, a sum that is not available at this time.

To house the city motor trucks in a private garage from the time cold weather sets in until spring would mean a rental or nearly as much as the cost of the erection of a building.

Tomatoes
The tomato was an unknown vegetable not so many generations ago; and at one time it was feared as poisonous under the name of the "love apple." Notwithstanding these facts, probably no vegetable except peas is as great a favorite on the American table at the present time. We like tomatoes raw, we like them cooked, we like them canned, we use them in sauces, soups and relishes, and we combine them with meats and other vegetables. At this time of the year especially, when our own gardens lavish tomatoes upon us, and when the market provides them at very low cost, we are searching for new ways of using the vegetable. There was a time when sliced tomatoes and stewed tomatoes seemed the last word in tomato cookery—but that time is fortunately past.

Salads.
The possibilities of tomatoes in salad are too familiar to need repetition. Now is the time particularly to revel in stuffed tomato salad. To prepare the tomatoes, plunge in boiling water for two minutes, then into cold water, and remove the skins. Cut a slice off the top and scoop out the interior with a teaspoon. Invert on a plate and chill thoroughly in a refrigerator. Fill with any desired salad mixture.

Tomato and Bacon.
Arrange a bed of lettuce on a plate, place two slices of tomato on the lettuce and place slices of hot broiled bacon on the tomato.

Tomato Canapes.
Six rounds of buttered bread or square crackers, six slices of tomato one-quarter inch thick, cream cheese or grated American cheese, salt, pepper and onion juice.

Tomatoes
One convenient difference between running a household and conducting a household column is that the former must go on regardless of heat or other inconveniences, while the latter may stop while the person at the helm takes a vacation. I am illustrating that difference at the present time, for with this issue I conclude my work for the summer. The call of the Wisconsin lakes and old friends combined has proved too strong. I hope all of the busy housewives who have given their time to the reading of this column may get a rest and vacation that they so richly deserve and that we may meet again in September with fresh energy and zeal.

Wash the apples, remove the stem and blossom ends and cut into quarters, leaving in the cores and peels. Put the apples into a preserving kettle, cover with cold water and cook until soft. Drain through a coarse sieve. Then let drip through a cheese-cloth bag. If the jelly is desired extremely clear, strain it again through a bag of flannelite. Measure the juice. For each cupful of juice allow three-fourths of a cupful of granulated sugar. Boil the juice briskly for twenty minutes, add the sugar, stir until dissolved and boil until it thickens. Remove all scum as soon as it appears. The jelly is done when it drips in lumps from the spoon. Add a heaping tablespoonful of vanilla and one of rosewater before pouring into sterilized tumblers. Seal when cold with boiling paraffin, cover each glass with paper and tie.

This Week Best Time to Do Canning, Grocers Say

In the opinion of retail grocers, housewives can find no better time than the present to do their canning. There is no indication of fruit being lower and disquieting rumors are floating down from the northern states. Some apprehension is felt since a heavy frost has been reported along the lakes.

There is little likelihood, grocers believe, that the price of sugar will be any lower. One grocer gave as his opinion that notwithstanding the offer of one refiner to put his industry under government control the price would remain firm around eleven pounds for \$1.

California fruits are practically entirely off of the local market. In their place, now coming on, are the Colorado, Oregon, Washington, Idaho and Utah fruits. The recent warm weather delayed fruits in this section at least two weeks and some damage was done. Bartlett pears from this section, however, are plentiful and of good quality. They are selling for \$2.65 a box or \$1.35 for a half box.

California peaches are entirely off of the market and Colorado peaches are not expected before Monday. Peaches have been selling for \$1.15

a box and no change in prices is looked for. The Colorado market apparently is strong and peaches are expected to be plentiful next week.

Idaho blue plums are plentiful and are selling for \$1.35 a box. Concord grapes, although plentiful, are high for this season of the year. Four-pound baskets are now selling for 25 cents. Crab apples are still selling for 35 cents per market basket, but the supply is about exhausted and they will soon be off the market.

Tomatoes for canning are plentiful, a market basket full selling for from 25 to 30 cents. They are of good quality for this purpose. Sweet corn is selling for 15 cents per dozen ears. Wax and string beans are cheaper this week, selling for 5 cents per pound. Pickles are hard to get and high, selling for from 65 cents to \$1.25 for a market basket full, varying with the size.

Flour made the most noticeable change on the grocery market. It is now selling for \$2.98 a sack, a drop of 25 cents. This is largely due to the government taking over the wheat supply. Since the government price has been decided upon no further reduction in flour prices is looked for.

Alleges Husband Married For Her Money and Blew It

The alleged story of a "man who married for his wife's money" is told in the divorce petition filed in district court by attorneys for Amanda Cecilia Walters, suing John Richard Walters.

Mrs. Walters says when she was married to him at Papillion, September 12, 1916, she had \$2,400 cash and considerable property. "Believing in and placing confidence in her husband, she allowed him to use the money," she declares.

The money, according to Mrs. Walters, was spent in "carousing and riotous living." She says she spent most of it on other women, and alleges after it was gone he sold their household goods and an automobile to get funds to "step" some more.

Mrs. Walters says she has been destitute for several months, depending on the charity of relatives for her food and lodging. Allegations of cruelty are also made. She says he blackened one of her eyes August 25 of this year.

She was only 18 years old when she was married to Walters.

Funeral of C. M. Harpster Is to Be Held Saturday

Funeral services for Charles M. Harpster, veteran Grand Army of the Republic member and long time resident of Omaha, will be held at the residence, 723 North Twenty-second street, Saturday at 2:30 p. m. Rev. Mr. Baltzy will conduct the services. The Grand Army of the Republic will conduct the services at the cemetery.

Mr. Harpster, who was 71 years old, came to Omaha in 1866 and for some time engaged in the occupation of stationery engineer. He was a member of the Nebraska Territorial Pioneers' association, the Douglas County Pioneers' association and was also a comrade in the Custer post of the Grand Army of the Republic.

Mr. Harpster is survived by two sons, David and George of Omaha; two daughters, Mrs. Blanche Young of Maryland and Mrs. James Sunk of Omaha; one brother, John S. Harpster of Omaha, and a sister living in Pennsylvania.

Mr. Harpster was ill only ten days, death being caused by a combination of heart trouble and Bright's disease.

Magee Mission Will Use Gospel Mission Quarters

Arrangements have been made between the Magee Christian Endeavor mission and the Union Gospel mission whereby the Christian Endeavor mission will temporarily occupy the present quarters of the latter while they perform an organization looking to the combining of forces of all the protestant young people organizations in the city in a larger young people's mission. The work of the two missions will be conducted jointly at this place, which is located at 1306 Douglas street.

The work of organizing the Magee Christian Endeavor mission is progressing very favorably. Actual work has been started by Miss Magee last Thursday when the first mothers' meeting under the new mission was held.

Anyone desiring to communicate with the mission can do so by calling Douglas 3855 or by calling the Endeavor Union headquarters, Red 1487. All communications for the mission should be addressed to 602 Bee building.

"CARRY IT HOME" Compare All Prices "CARRY IT HOME"

Not just a few. Some housewives who think they're following economic lines are buying in haste and counting at leisure and everything's in a puzzling muddle. Unfair Designation Removed from Schools
The Building Trades league has decided to lift the designation "unfair" from the contracting jobs on school buildings in the city now under construction so that the work may proceed.

Chairman R. B. Donakon of the resolution passed by the organization: Whereas, construction work on various school buildings has been and is being delayed by reason of certain work being unfair to union labor, the Building Trades league desires to announce that for patriotic and civic reasons and to the end that the school children shall not be the innocent sufferers that all unfair designations against school buildings be lifted during present conditions so that all work thereon may be resumed.

Persistent Advertising Is the Road to Success.

For Theft of Jewelry
—Charles P. Leyendecker, 35 years old, pleading guilty to a charge of grand larceny, was sentenced to one year in the penitentiary by Judge Estelle, sitting in criminal court. The county attorney's office recommended a light sentence.

Leyendecker confessed that he stole a diamond ring valued at \$175, a diamond stick pin valued at \$150 and \$95 in cash from a rooming house operated by William Yousem and John F. Niblock. The robbery occurred April 30.

According to the county attorney's office, Leyendecker watched the clerk at the rooming house copy the combination of the safe on a card and then, at an opportune time, obtained the figure, opened the strong box and stole the valuables. He fled and was arrested in the west.

Drops Loot from Meyers' As He Robs Smith House
When C. Louis Meyer, 104 South Thirty-fourth street, president of the Concrete Engineering company, returned from a lengthy vacation last Saturday, he found his house ransacked. Luckily he had all articles of value locked in a safe, and so the burglar did not gain a very rich haul. Among the few pieces of jewelry which the burglar did find was a fraternity pin. The same man evidently broke into the residence of Dr. C. E. Smith, 3565 Howard street, for this fraternity pin was found in his home after it was looted on July 17. The thief made a richer haul at Dr. Smith's home, taking away some jewelry, silver and clothing. Police now have a man in jail whom they think is guilty of both the burglaries. They are collecting evidence against him.
