

SEVEN CANTONMENTS ARE NOW COMPLETED

Vast Amount of Materials Used and Great Industrial Army Employed to Make Quarters for Fighting Men.

Washington, Sept. 6.—A building erected and completed every four minutes. This is the record that the government has achieved in the construction of the army cantonment, which began today to receive the first contingents of the national army of 687,000 men.

In order to accomplish this work, an army of 150,000 men has been employed. 50,000 carloads of material have been delivered by the railroads, who have given preference to all this material, and who have handled it without a hitch in addition to all the other extra burdens of the transportation lines.

At each of the cantonments there have been erected 1,500 buildings requiring 30,000,000 feet of lumber, a total of 24,000 buildings for the sixteen cantonments, requiring a total of 450,000,000 feet of lumber.

Huge Amount of Supplies.

In the construction of cantonment buildings a carload of roofing tacks alone was required to nail down the 6,000,000 square feet of paper roofing, 93,000 kegs of nails have been driven, 140,000 doors hung, 166,000 window sashes set, more than 3,000,000 square feet of screen, 139,000 rolls of sheathing paper, and 29,250,000 square feet of wall boarding.

To light each of the army cities, 250 street lamps and 20,000 inside lamps have been used at each site.

Up to September 1, each cantonment has seen a new building erected and completed per hour, which makes the almost magical record of a building every four minutes, taking the work as a whole.

Of these army cities seven were ready to receive their entire quota of officers and enlisted men. These seven included Camp Taylor at Louisville, Ky.; Camp Travis at Fort Sam Houston, Tex.; Camp Lee at Petersburg, Va.; Camp Lewis at American Lake, Wash.; Camp Sherman at Chillicothe, O.; Camp Devens at Ayer, Mass., and Camp Grant at Rockford, Illinois.

Seven other cantonments were ready this morning to receive all the officers and two-thirds or more of their entire quota of enlisted men. These comprise Camp Dodge at Des Moines, Ia.; Camp Funston at Fort Riley, Kan.; Camp Custer at Battle Creek, Mich.; Camp Pike at Little Rock, Ark.; Camp Dix at Wrightstown, N. J.; Camp Hackson at Columbia, S. C.; Camp Gordon at Atlanta, Ga. The two remaining national army cantonments, Camp Upton at Yaphank, L. I., and Camp Meade at Admiral, Md., have already received and are taking care of more than their full quota of officers and are ready to receive the number of enlisted men originally ordered there on September 5.

There are certain units in connection with each of the cantonments which were added after the original scheme was under way and which are in some cases not completed. These are general hospitals, regimental hospitals and remount stations, to take care of some 12,000 horses each. Each cantonment requires a complete system of water supply and sewage disposal, the piping alone for which amounts to more than fifty miles at each cantonment. Ten general warehouses with necessary trackage have also been provided at each site where the facilities are not available in nearby cities. Complete refrigerating and laundry plants have been built at each cantonment.

Hungarian Papers Agree With Wilson's Peace Note

Amsterdam, Sept. 7.—Two Hungarian newspapers, the Az Est and the Magyar Orszag, fully agree with the views expressed in President Wilson's reply to Pope Benedict's peace proposals, to the great disgust of the Vossische Zeitung of Berlin, which asserts they take a view which is almost incomprehensible. The Az Est says: "President Wilson's reply is so clear that every true friend of peace, every patriot, can endorse it. America adheres, in this note, without reserve, to the policy of peace without annexations, which is most important for Hungary."

The Magyar Orszag, which is the organ of the independence party, says: "All real patriots must be grateful to Mr. Wilson. He who, from the standpoint of peace, condemns Mr. Wilson's note, has sold his soul to the war devil and does not wish peace. From the Hungarian viewpoint therefore he is the enemy of peace."

With Care for American Nerves, Cut-Outs Abolished

New York, Sept. 7.—Because cut-outs on automobiles have no mechanical value and add merely another unnecessary noise to American life, the National Automobile Chamber of Commerce has recommended their elimination from all cars built in this country after January 1, 1918. It was announced here tonight. Nearly half of the 110 automobile makers in the chamber do not fit muffler cutouts on their present cars.

Farmers Arrested on Eve of Blowing Up Red River Bridge

Chickasha, Okl., Sept. 7.—Twenty farmers, alleged members of the Working Class union, were lodged in jail here today, charged with conspiring to blow up the Rock Island bridge over Red river south of Terral. The men, according to information in possession of federal authorities, had formed a pact to do everything in their power to prevent enlistments and mobilization of the army.

Prevent Censorship Of Public Pamphlets

Copenhagen, Sept. 7.—Apparently to add point to the ultimatum of the Reichstag majority to Chancellor Michaelis that steps must be taken, before the Reichstag assembles this month, toward abolishing the political censorship, the military commander for the seventh army corps district at Hanover, has just issued an order instituting a preventive censorship on all brochures, pamphlets, leaflets, etc., touching upon matters of public interest. The order applies to mimeographed and typewritten matter, and those documents intended only for private circulation. Violators of the order may be imprisoned for a year.

LITTLE MISS LAURA BIDDLE, daughter of Craig Biddle of Philadelphia, as she appeared as "America" at an entertainment given by the children of the Summer colony at Newport, R. I., for the benefit of destitute families and blinded soldiers of the allies.

"AMERICA"

Only Small Potatoes to Starch Madame's Ruffles Paris, Wednesday, Sept. 7.—The ministry of provisions has issued a decree restricting the grades of potatoes which starch manufacturers may use to small or diseased potatoes.

It is pointed out that if unlimited liberty of use were allowed the starch manufacturers, scarcity might be caused, giving speculators an opportunity to inflate prices. All sound potatoes beyond the restricted size found in the starch makers' works will be rejected.

Buenos Aires Uses Destroyer To Combat Railroad Strike

Buenos Aires, Sept. 7.—Buenos Aires continued to be supplied with light and power last night only because the authorities, combating the strike situation, ordered the torpedo boat destroyer Corrientes out to reinforce the naval patrol on the river front, thus preventing the strikers from attacking the naval stokers in the power house.

To the thousands of workmen already out in the general railroad strike, those of five railroads whose employees have presented demands may be added. The government today was endeavoring to prevent a walkout on these roads.

The situation is aggravated by police unrest because the men have not been paid and by a strike of the carriage drivers crippling the ambulance service.

Remont School Board Cuts Out German; Installs War Drill

Fremont, Neb., Sept. 7.—(Special Telegram.)—The German language has been eliminated from the Fremont school. No longer will it be taught. This was the action taken by the Board of Education at its regular meeting. The vote to oust the language of the Kaiser was unanimous. The board acted in compliance with

OVERALLS FOR FIRST QUOTA AT FUNSTON

Men at Kansas Camp Get First Taste of Army Life; Sleep and Eat Well After Day of Traveling.

Camp Funston, Kan., Sept. 7.—(Special Telegram.)—The first quota will be trained temporarily in blue denim overalls and jumpers.

The War department had refused to accept Major General Leonard Wood's proposal to equip the entire national army with overalls to be used as working clothes. But an emergency arose, so General Wood ordered that the men be fitted out in blue denim.

Plenty of underwear, hats, shoes, socks and mess kits are available, but no breeches, shirts or blouses have arrived. The quartermaster's department worked all night getting clothing ready to issue. Today boxes of clothing were sent to each company and there distributed to the men.

Not a second of time was lost by the first contingent of men after they arrived here. The time is all too short to train the first contingent to act as non-commissioned officers and instructors for the second contingent, and so early today little knots of four men scattered around through camp were being taught the rudiments of moving their feet in unison, and walking erect, with their chins in and chests out.

Good Eats in Morning.

All the men had plenty of room in the light, airy sleeping quarters last night, and although they were not accustomed to the canvas cots, and the blue army blankets, they slept very well. This morning they were ready for a hearty breakfast of bacon and eggs, bread, butter, coffee and cottage fried potatoes. After that, it was work.

Thursday 221 men arrived from the various states.

As far as possible the men will be assigned to regiments representing almost entirely the localities from which they come. This will be carried out still further and certain localities will be assigned to certain battalions.

Some regimental commanders may even try to get the assignments down so close as to form their companies from certain localities.

OMAHA'S NEW STORE

THIS STORE OFFERS BRAND NEW FASHIONS

There's nothing old here—every bit of merchandise is new, the building has been made new and the fashions are the very newest. Surely such a combination is worth your consideration. Another fact which pleases in that our prices are moderate, indeed. Careful buying is the secret.

Sammies Adopt Jiu Jitsu As Part of War Training

San Francisco, Sept. 7.—Jiu jitsu, a Japanese method of self-defense, is to be taught the American soldiers as part of their athletic training, according to an announcement made here today by Allan S. Smith, who has received his commission from the government as an instructor in the art. Smith has just returned from Tokio, where he won the "black belt," corresponding to championship honors, for his prowess. A demonstration before American military attaches at Tokio led to his commission, he said.

Rhodes Scholarships Suspended During War

Chicago, Sept. 7.—Dr. G. R. Parker of London, England, organizing secretary of the Rhodes scholarship trust, today announced that all elections to the scholarships in the United States and Canada, have been indefinitely postponed because of the war. He states that the conscription law in Canada and the selective draft in the United States, which claim all eligible candidates, have made this decision necessary.

MINERS POSTPONE WAGE CONFERENCE

Later Session With Garfield Scheduled for September 11; Adjourned at Coal Administrator's Request.

(By Associated Press.)

Indianapolis, Sept. 7.—In deference to the request of Dr. H. A. Garfield, national coal director, the joint conference of coal mine operators of the central competitive field and officials of the United Mine Workers of America to discuss a wage increase for coal miners was postponed late today. The informal conference was adjourned subject to the call of President John P. White of the mine workers.

Senator Works Backs Out Of Pacifist Movement

New York, Sept. 7.—Former Senator John D. Works of California has withdrawn from the People's Council of America for Democracy and Peace, it was announced here today.
