VICKSBURG VETS MAY NOT ALL GO

Appropriation to Send Nebraskans South Not Sufficient to Carry Everyone Who Desires to Make Trip.

(From a Staff Correspondent.) Lincoln, Sept. 10.—(Special).—Many veterans will not be able to attend the celebration of the battle of Vicksburg next month for the reason that the appropriation will not be sufficient to pay the railroad fare of each one, basing the belief on the registrations in.

More than 850 have registered for the trip. Some of these will not be able to go. But from the second registrations it is evident more than 500 and possibly 600 who would go if they were assured that they would receive full fare allowance. It is believed that the fare, for instance, from Omaha will be approximately \$40 for the round trip. The appropriation of \$20,000 with \$500 left out of it for the payment of expenses of preparing for the trip by the committee will be insufficient to pay the way of all.

It has been suggested to the committee that an arrangement be made whereby those who participated in the battle and capture of Vicksburg be given first consideration and that those who are really able to pay their own fare do so and thus give the old veterans who are not able a chance to go. Of course, this would have to come voluntarily from those financially able to pay their own way, but it is the only way that a trip for all can be assured.

The books close for final registration September 15 and no applications will be considered after that date.

Strike Case Is Revived; Will Be Heard Sept. 5

Omaha strike litigation in district court between the state of Nebraska and the unions and the Business Men's association was revived for three hours yesterday and then set over until September 25, when the injunction case will be heard on its merits. Attorneys representing the labor organizations and the employers argued a motion to strike certain parts of the unions' answer to the business men's cross petition. Judge Redick, who heard the motion, announced he would hand down a decision Wednesday morning. When Judge Leslie, Judge Sears and Judge Redick, sitting in equity court, granted a temporary injunction several weeks ago against the unions and the employers, the case was set for September 10, for a hearing on its merits. It was decided it was impossible to go into the case at this time because of the fact Judge Leslie, who granted the original restraining order last spring when Attorney General Reed stepped in in an effort to end Omaha strike troubles, is still confined to his home as a result of an accident.

How to Banish Wrinkles Quickly

If your face is disfigured with wrinkles, no matter what the cause, you can quickly dispel every fine, even most obstinate, by using a simple, home-made wash lotion. Merely dissolve an ounce of powdered salicylic acid in a half pint witch hazel—inexpensive remedy. Use at night. In any case, bathe the face in this, and— presto!—you scarcely believe your own eyes when you look into your mirror and behold the marvelous transformation! The remarkable astringent action of the salicylic acid tightens the skin, wrinkles are literally pressed out. Best of all, this result is not purely temporary, for the lotion also has a healthful tonic action, which aids to strengthen and tone up the weakened tissue, and added benefit may be expected with continued use. Use this once a day for awhile; it cannot injure the most delicate skin. The treatment itself leaves no trace—no one guesses the secret of your increasing youthful appearance.—Adv.
