### Masque at Seymour Lake.

Seymour Lake Country club members and friends enjoyed the annual costume party Friday. Charming ladies and pirates bold whirled away in the dreamy waltz, while Indian braves looked on with seeming disgust at the old colored mammy crooned a lullaby to her honey child.  
 Mrs. John Urion and young daughter, Miss Marguerite Urion, appeared in the ballroom costumed as Japanese ladies. Intimate friends were puzzled to know which was mother and which was daughter, though they were no masks.  
 A costume party is never quite complete without its colonial characters. Mesdames T. L. Combs, O. H. Perry and C. L. Wollmer interpreted this period in a graceful manner.  
 Mrs. George Mickel and Mrs. Henry Cox, as gymnasium kiddies, were followed by admiring eyes.  
 Mr. and Mrs. George Francis entertained at dinner Friday evening, complimentary to Mrs. Emory Stanley of Coronado, Cal. Mrs. Stanley is on her way east to join her husband, an officer on the United States ship Pueblo, which is one of the fleet of four vessels sent to South America recently on official business. Mr.

Stanley hopes to land on the east coast in the near future.  
 Spanish dancing girls were portrayed by Mrs. W. R. Overmire and Mrs. Ben Roth. Mrs. William Berry, prominent clubwoman, made a substantial looking southern colored mammy and a large doll served the purpose of a well-behaved child. Mrs. Julius Lyon was the little school girl with skipping rope and slate.  
 The character of the kaiser was most conspicuous by his absence. In former years German military officers, etc., added to the variety of costumes, but the nearest approach to anything of the kind this year was a couple of little Holland girls with laced bodices and wooden shoes.  
 Among those entertaining parties were Mr. and Mrs. T. L. Combs, who

 Miss Mary Wood, who was visiting Mr. and Mrs. W. R. Wood, has returned to her home in Chicago.  
 Miss Nell Haynes of Springfield, Mo., is visiting her sister, Mrs. A. M. Longwell.  
 Mr. and Mrs. W. H. McCord five their niece, Miss Mary McCord of Denver, with them. Her brother,

## WOMEN SHAVE UNKNOWINGLY

The razor would solve the superfluous hair problem if merely removing hair quickly were all that were required of a depilatory. Whether you use a razor or questionable depilatories the result is the same; you only remove hair from the surface of the skin, which causes it to grow out again coarser and stiffer.  
 The only common-sense way to remove hair is to attack it under the skin. DeMiracle, the original sanitary liquid, operates on this principle. It alone contains certain ingredients which give it the power to rob hair of its vitality. It does this by absorption.  
 DeMiracle works equally well for removing hair from face, neck, arms, under arms or limbs to prevent it from showing through stockings.  
 DeMiracle is the only depilatory that has a money-back guarantee in each package. In 60c, \$1 and \$2 bottles at all toilet counters or direct from us in plain wrapper on receipt of price.  
 FREE booklets mailed in plain sealed envelope on request. Write for it today and read it before you make another application of any depilatory. DeMiracle Chemical Co., Dept. G, Park Ave. and 15th St., New York.

**SCIENTIFIC AMERICAN**  
**Automobile**  
 The Opportunity of the Electrically Driven Vehicle.—The increasing shortage in petroleum fuel, which threatens to become acute, offers a great opportunity for the wider introduction of electrically driven vehicles, which depend for their supplies on power developed by other means of fuel, or water power. The electric vehicle is by no means an experiment, for it has performed most satisfactorily for a number of years, for both pleasure and commercial purposes, and has proved itself eminently practical. This the public does not appear to be generally aware of, as the more spectacular or sensational features of the gasoline car have monopolized attention; but impending conditions will undoubtedly force a wider recognition of the undoubted merits of the electric vehicle.  
 Selecting a Driver.—An English automobile publication, in discussing the qualifications of a driver, for either pleasure cars or trucks, quotes the experience of a large employer who said that, other things being equal he always gave the preference to the man who had owned a motorcycle. Among his reasons for this was that a motorcycle owner understood something about the need for economy in gasoline and tires. Moreover, he had experience in driving an engine that requires more careful operation than the water-cooled auto engine, and consequently was more sensitive to any bad running of the engine; besides having a good idea of adjustments and repairs.
