Immediate Results In Hair Growth

There's a Sure and Easy Way of Having Beautiful Hair, Says Valeska Suratt, the Movie Beauty-Favorite.

BY VALESKA SURATT. MEASURE the length of your hair today. Then use the formula I give you here, and then measure your hair again in 30 days.

The difference will startle you, I feel sure. You are an exception if you have not at some time used something for your hair.

In trying this you will realize the reason for my urging you so strongly to try it. If you have never used a hair-grower it will also pay you to use it. Go to your druggist and get one ounce of beta-quinol and mix it at home with a pint of bay rum or a half pint of alcohol and half pint of water if preferred.

It contains no oil and is a delight to use. It should be applied every day to get results. Bald spots will fill out quickly, and the hair will take on a new, beautiful lustre. This mixture gives intense stimulation to hair growth. The formula given makes a very economical hair-grower, more effective and much less in price than hair treatments sold in ready prepared form.

MRS. M. N. A.—You use an egg shampoo is excellent. More should use it instead of soap. Even better than eggs is eggol. Dissolve a teaspoonful of eggol in half a cup of water and apply as a lead-wash. Enough eggol can be secured from your druggist for twenty-five cents to last for over a dozen head-washes.

WAITING—I have never been able to find words to express the beautifying action of this formula on the skin. You should try it by all means; only then can you realize how you have wasted time, money and an opportunity by using other things. Make your own mixture at home of one ounce of salicylic acid and two tablespoonfuls of glycerine in a pint of water. This makes over a pint, a large quantity for a comparatively small price. Your skin will blossom out like a rose, all spots will disappear very quickly and your dream of a beautiful complexion will cost fifty cents at the drug store.

MISS DOUBLE B.—Any authority will tell you that bust development can never be artificially assured. But there is nothing more effective than a mixture of two ounces of rectified and a half a cup of sugar in a pint of water. This is absolutely safe. Two teaspoonfuls of this should be taken after meals and before retiring.

DISGUSTED—You are no different from other women. You want to be sure to get rid of wrinkles and you want to do it quickly. That it can be done will be proven to you in an astounding way in a short time if you will make up the following cream at home by mixing two ounces of epsom and two tablespoonfuls of glycerine in a half pint of water. Fifty cents at the drug store will get enough epsom to make over a pint of this remarkable wrinkle remover. Here is your chance to make your friends "take it all back."

RETRIVING—Just moisten those hairs with some sulfo solution, and in a few moments on bathing the skin with water you will be startled to see that every trace of hair will be gone. This preparation is delightful because it is safe and leaves the skin soft and smooth. It is all ready to use, and there is nothing to get ready. It never fails, even on the heaviest growth, and delicate skins may be treated with it with perfect safety. A hair-free skin is always a delight. The sulfo solution will cost one dollar at any drug store.

MRS. H. C. E.—If it should occur again that you can not get the beta-quinol for the hair and the epsol for wrinkles, send fifty cents, which is the price of either, to my secretary, addressing "Secretary to Valeska Suratt, Thompson Bldg., Chicago," and you will be at once supplied by mail.

GETRUDE F.—I know your difficulty in getting face powder free from chalkiness. I want you to try the new powder made after my own formula, and now sold in drug stores as "Valeska Suratt Face Powder," at fifty cents, in flesh, white or brunette tints. It is finer than any imported powder, invisible, and gives the complexion an incomparable charm.—Advertisement.
