on board. These bombs resemble ordinary lumps of coal and I am planning to have them concealed in the coal to be loaded on steamers of the allies.

Casement Got Money.

Money apparently went from German sources in the United States, through embassy channels, to Sir Roger Casement, the Irishman executed in London.

"Several lines of communication between the German diplomatic service and the Irish revolutionary movement are indicated in the captured documents." The statement continues: "John Devoy of New York, now editor of the Gaelic American, a violently anti-British paper, was one of the active agents of this connection. Significant entries appear here and there; references to messages from the German embassy at Washington and the German consulate at New York; mention of a secret code to be employed in communicating with him and of a 'cipher device' also a notation, the details of which remain undiscovered, concerning 'communication re manufacture hand grenades'."

"Very Secret."

The following reference to Supreme Court Justice Daniel F. Cohalan of New York is contained in the committee states in a letter found in the Von Igel papers in cipher, with interlinear translations, dated New York, April 17, 1916, numbered 335-16 and inscribed at the top, "very secret."

"Judge Cohalan requests the transmission of the following remarks:

"The revolution in Ireland can only be successful if supported from Germany; otherwise England will be able to suppress it, even though it be only after hard struggles. Therefore, help is necessary. This should consist primarily of aerial attack in England and a diversion of the fleet simultaneously with Irish revolution. Then, if possible, a landing of troops, arms and ammunition in Ireland and possibly some officers from Zeppelins. This would enable the Irish ports to be closed against England and the establishment of stations for submarines on the Irish coast and the cutting off of the supply of food for England. The services of the revolution may therefore decide the war."

"He asks that a telegram to this effect be sent to Berlin."

"This letter was signed '5132 8167 0230' and was addressed to Count von Bernstorff, Imperial ambassador, Washington, D. C."

Not So Harmless as Appears.

A code message sent to Berlin was given as follows:

"National Germania Insurance contract certainly promised. Executor is evidently satisfied with proposition. Necessary steps have been taken."

"Henry Neuman."

Of this message the committee has this to say:

"Not so innocent and harmless as it looks, for what the message really means is this:

"Irish agree to proposition. The necessary steps have been taken."

"Information carefully and extensively set forth in the secret documents of the German officialdom," the committee continues, "was sometimes wide of the facts. For example, a lengthy memorandum of March 1, 1916, transmitted by the secret agent, Captain Boehm, dealing with the Mexican crisis appears to have been largely the work of some fervid and projective imagination."

Too Loose of Tongue.

"It predicts that the presidents will attribute Mexico's anti-American action to the president."

My! What Relief!

Doctor Tells How To Strengthen

Eyesight 50 per cent in One

Week's Time in Many Instances

A Free Prescription You Can Have Filled

Philadelphia. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says after using it "I was almost blind; could not see to read at all. Now I can read everything without glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read the print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Expressions of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eye two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and are widely prescribed by them. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist and is one of the very best preparations I feel should be kept on hand for regular use in almost every family." It is sold in this city by Sherman & McCann, 1111 Broadway, and others.

that the country is in it, I hope that she will come out of it with honor—the sooner the better."

U. S. Places Orders for Thousands of Tons Munitions

New York, Sept. 22.—The United States government is again placing large steel orders for munitions and prospective purchases of shell forgings are heavy. The War department has placed orders for ordnance requiring an aggregate of nearly 50,000 tons and the navy has awarded contracts requiring about 30,000 tons.

The War department also has distributed orders for 13,000 tons of fabricated shapes for thirty-two ordnance stores in France divided among ten shops. Word also comes from Washington that the United States Steel corporation has been awarded a contract for 1,400 tons of fabricated steel for arsenal extensions.

Thus far the government has ordered about 25,000 tons of steel tubing and distributed orders for about 18,000 tons of black and galvanized sheets.

Export inquiries for various steel products have increased recently and it is now estimated that contracts are pending for between 75,000 and 100,000 tons for foreign shipment.

Drastic Punishment for Drunkenness in France

Paris, Sept. 22.—The chamber of deputies has adopted a bill against drunkenness in public places, which having already passed the senate now becomes a law. The measure provides punishment by fines and imprisonment.

Persons incurring four convictions within three years may be deprived of the right to vote or to be elected to office, to carry arms, to serve as jurors and may also be deprived of parental rights over children.

Persistent Advertising Is the Road to Success.

George W. Boyd, Railroad Official, Dies at Cape May

Cape May, N. J., Sept. 22.—George W. Boyd, passenger traffic manager of the Pennsylvania Railroad company, who had been ill since early in June, died in his cottage here today.

ROUND OAK Combination Ranges

100% Efficient the Year Round

Come and taste the good things that are so easily cooked on the Round Oak

We invite the opportunity of showing:

1. How the Round Oak Three-Fuel Combination Range may be successfully operated with coal, gas or wood.
2. How it keeps the home warm and cozy in the bleak, cold winter.
3. How it assures a cool, comfortable kitchen in the stifling hot summer.
4. How it saves room in the kitchen—and eliminates the job of blacking.
5. How its one large oven bakes perfectly with all fuels—now with coal—then with gas—or both together.
6. How a full-sized coal range and full-sized gas range are embodied—all in one.
7. How simple this combination really is—how quickly its operation is understood.
8. How the inventors have guarded against possible
