

Nebraska NEARLY HALF OF DRAFT MEN GO Forty-five Per Cent of Ne- braska's Share in National Army Depart for Camp Funston.

(From a Staff Correspondent.)
Lincoln, Sept. 24.—(Special.)—Forty-five per cent of Nebraska's new national army is now in camp. The last train load left Lincoln last night late, after the soldiers had been given a reception they long will remember. The boys came in on three sections, the first arriving about 7 o'clock, the second a half hour later, and the third soon after.

The Commercial club had the situation well in hand, but the handling of the 1,500 hungry men at the Lindell hotel, which fed them without a single hitch in the whole evening, brought out admiration on every hand.

As each detachment marched out of the hotel it was taken to the Auditorium across the street, and the committee gave them an up-to-date welcome with music and speeches. The entire lower floor of the Auditorium was reserved for the drafted men and when the entertainment was over they marched up and gave room for the next section.

The second section was composed largely of South Dakota men, among them being a large number of Indians, while two negroes and two Japanese marched with them. Two men after marching to the Lindell, refused to allow the girls to pin flowers on them or to accept gifts. When marched into the dining room they refused to eat and were allowed to go back to the station. They came on with them in conversation with them it was gathered that they were from a Mennonite colony in South Dakota. They said they were sick, but when the girls attempted to pin flowers on them they rudely brushed them one side and hurried out of the hotel.

Large Crowd Bids Farewell To Cuming County Draft Men

West Point, Neb., Sept. 24.—(Special.)—The second Cuming county contingent, consisting of fifty-six young men, departed for Fort Riley this afternoon. This body of soldiers represents 40 per cent of this county's quota of 140 men. An immense crowd gathered at the depot to bid the boys farewell and many pathetic scenes were witnessed at the final parting. The selected men made a fine showing, being the flower of the young manhood of the county. The procession to the depot was headed by veterans of 1865, members of the Grand Army corps of the city and county and was accompanied by the famous cadet band. The occasion was one long to be remembered.

NO MORE PEDDLING FROM BOX CARS

Fruit Men Lose Right to Dispose of Produce in This Manner on Appeal of High Commission.

(From a Staff Correspondent.)
Lincoln, Neb., Sept. 24.—(Special.)—Peddling will not be permitted from cars, according to official notice received today by the State Railway commission from two Nebraska roads, the Burlington and Union Pacific.

A controversy has existed two years over the right of parties who shipped apples and other fruit in cars to a town to retail the same from the car.

Two years ago parties who had been in the habit of using freight cars for retailing purposes desired to extend their activities into other states, and against the advice of the State Railway commission, carried the matter up to the Interstate Commerce commission.

The railroads in this state had been objecting to the custom, alleging that holding cars was delaying shipments for want of cars and that the constant passage of people over the tracks was a menace to public safety. The state commission held, however, that as the practice had been carried on for many years it would not be best to discontinue it.

Not satisfied with the holding of the commission that it would be unwise to take the matter to the Interstate Commerce commission, the retailers did so, and the result has been they have been ruled against not only in the shipping of interstate freight with peddling privileges, but also in the intrastate business.

The result has been that in an effort to extend their privileges into other states, the apple men have lost the privilege of selling from cars in their own state.

Teuton Soldiers Add Torture With Flaming Bullets

(By Associate Press.)
British Front in France and Belgium, Sept. 23.—British battalions that captured Shrewsbury forest and Bulgar wood, to the east of the former place, in Thursday's drive, experienced a new kind of German frightfulness.

The advancing troops are said to have been fired on with "flaming bullets." These bullets set the men's clothing afire. In several instances, according to the account received, here, wounded men had to be rolled in the mud by their comrades to extinguish the flames.

The battle of Menin road has furnished further evidence of that deterioration in the fighting qualities which has been going on in the German lines for some time. It must not be assumed from this statement that the Germans are in a demoralized state. During the last few days they have fought with great determination, and skillfully, but they are not so good as they were.

Camps and Cantonnements Will Have Big Libraries

Washington, Sept. 24.—The big drive of the Library War council to raise \$1,000,000 to provide libraries for American soldiers and sailors began today. Every city and town in the United States has been organized to raise the money with the minimum contribution asked from each community based on 5 per cent of its population.

President Wilson made a substantial cash donation last Friday and at the same time autographed a number of book plates to be placed in the books purchased with his contribution.

After the \$1,000,000 has been subscribed work will start on the library building as soon as is practical. Every camp and cantonnement will be provided with a library 40 by 120 feet.

STATE SELECTED MEN LEAVE FOR FT. RILEY

Men from Nebraska and Nearby States Assemble at Lincoln and Start on Their Way to Cantonment.

(From a Staff Correspondent.)
Lincoln, Neb., Sept. 23.—(Special.)—For the fourth time the city has been the scene where soldiers off for duty have assembled and, escorted by bands and citizens, have marched to the railway stations, where they have received the good-byes of their friends and the "God bless you" of everybody.

Detachments which have passed through Lincoln before have been as a general thing Nebraska men, but today among the visitors who were given the hospitality of the city were more than 500 men from North Dakota. These were given the same hospitable treatment as the Nebraska boys and were sent on their way loaded with gifts of fruit.

In all 1,300 men left in three sections from the Burlington station over the Union Pacific road about 9 o'clock this evening after they had been given supper at the Lindell hotel and attended a program given in their honor at the city auditorium.

The University Cadet band, the Lincoln Colonial Drum corps, choirs from several of the churches and the combined orchestras of the Orpheum, Oliver and Lyric theaters furnished music for the occasion. H. H. Wilson delivered the principal address, which was one of welcome to the city and good luck in the future.

Government Exports Ban On Gold Exports to Spain

Washington, Sept. 24.—Treasury officials, carrying out the government's policy governing the conservation of gold, have virtually decided upon a policy prohibiting the export of gold to Spain. No gold has been licensed for export to Spain since the president's proclamation became effective, except several small shipments already loaded aboard steamers.

Exports of gold to Spain had been growing steadily up to the time of the president's proclamation. Between January 1 and September 1 of this year the volume approximated \$88,000,000, the largest recorded in any similar period of time. It was adverse to the trade balance, which was in favor of the United States September 1 to the extent of \$50,000,000.

The Greater Third Floor Departments

Are Offering Splendid Service To All Shoppers

IT is exceedingly complimentary to see such quick response to our efforts.

VERY recently, because of the vastly increased business which this store enjoys, it became necessary to move to the Third Floor, the following departments:

- Corsets
- Babywear
- Silk Lingerie
- Muslin Underwear
- Kimonos
- House Dresses
- Knit Underwear

IN order to familiarize our patrons with these new locations and satisfy them that the Third Floor held fully as much of interest for them in the way of economy and complete displays, we ended the week just past with remarkable offerings in Corsets, Underwear and Silk Lingerie—and the extraordinary response to our efforts was more than gratifying.

TO further popularize these departments, we announce, in the last column of this advertisement, more extremely unusual offerings.

THIS store is growing—growing not only in size and volume of business, but growing better each day in the service it renders to its vast clientele.

OTHER very important changes have been completed, which make this Third Floor one of the most attractive in the store—

THE Drapery Department, which entirely outgrew its old quarters in the center of the floor has now been located at the north side, running clear back to the end of the building—and the additional space given in this new arrangement has enabled this department to make a most comprehensive display of everything pertaining to Draperies and allied merchandise.

THE Art Embroidery Department, which has spread out to occupy the entire central portion of the floor, is now showing the most fascinatingly decorative and useful things in the most appropriate manner.

RUGS and Floor Coverings have also been granted more space, so that the selection of designs and colorings in floor coverings is more easily accomplished by the purchaser.

IN a word—SERVICE—a better service, was the inspiration for this change in location and the spreading-out of these various departments—prompted by the very generous patronage which has enabled this store to make such phenomenal strides in little more than a quarter of a century.

THE additional service of three new and beautiful elevators on the southeast side of the building, make this Third Floor extremely easy of access.
