

McADOO PREDICTS OVERSUBSCRIPTION

Says Resources of the United States Are Ample if All Co-Operate With the United States.

Atlantic City, N. J., Sept. 28.—Vast oversubscription of the three-billion-dollar second Liberty loan was confidently predicted by Secretary McAdoo in an address here today before the American Bankers' association, calling on the bankers to give the same patriotic support to the new bond issue that they gave to the first.

Emphasizing the tremendous financial task ahead of the nation, Mr. McAdoo pointed out that it would be necessary to raise between \$13,000,000,000 and \$14,000,000,000 by additional bond issues before June 30, 1918. This will not be easy, he said, but it can be done by everybody—banker, business man and men and women in every walk of life joining hands to see it through.

"Fortunately," he added, "the resources of America were never so formidable for our enemies as now. The combined resources of the national and state banks (including trust companies), of the United States are now \$37,000,000,000. At the outbreak of the civil war the combined resources of the banks were estimated to be \$1,500,000,000, and yet with these limited banking resources the union government raised \$3,000,000,000 by bond sales, or twice the amount of the banking resources of the country. Upon the same basis we should now be able to raise \$74,000,000,000 through government loans. I am not suggesting that this may be done; I am only drawing a comparison."

GERMANS DRIVEN BACK IN EFFORT TO REGAIN LOSSES

(Continued from Page One.)

been driven back in the Rux region, where the Russians today report the capture of the town of Ormaru, twenty-four miles west of Meri.

Scots Heroes of Hour. The two companies of Argyll and Sutherland Highlanders who made such a remarkable stand Tuesday and Tuesday night in the face of overwhelming odds, against German attacks in the neighborhood of the Ypres-Menin road and who were mentioned in the official report for their great gallantry, are the heroes of the hour at the front. They were finally relieved by the advancing troops from their isolated position where they had been cut off by the Germans in the early operations.

Their unit was involved in furious German counter attacks, which were begun Tuesday morning, probably in an effort to disrupt the expected British offensive. They were attacked about dawn by elements of four German divisions. So bitter was the enemy assault that the British troops were bent back, but the two companies of Highlanders refused to give ground and clung stubbornly to their posts in the face of terrific blows from the enemy.

Battle All Morning. The battle raged all morning. About 2 o'clock in the afternoon the British counter attacked and fought their way forward until they had reestablished themselves in virtually all the ground lost. But they were still some distance short of the two companies, who valiantly held their own. All afternoon and throughout the night the Highlanders stuck to their positions, although the enemy continued to rush forward in an attempt to dislodge them. And here this handful of intrepid Scots were found and rescued when the British advance swept forward at daybreak Wednesday morning.

The main battle this morning was in the neighborhood of a position known as Cameron House, which lies just south of the eastern extremity of Polygon wood. A severe and continuous struggle has been proceeding here and when last heard from the Australians were pressing the Germans hard.

Hill 40 Hotly Contested. Northwest of Zonnebeke heavy fighting still continues in the region of an elevation known as hill 40, which dominates a considerable amount of the surrounding ground. East and a little northeast of St. Julien the Germans made two heavy counter attacks against redoubt positions which the British had captured yesterday morning. A very determined assault in the neighborhood of Boetleer farm, east of St. Julien, was driven off. North of this place the Germans succeeded in regaining two redoubts.

Italians Hold All Bainsizza. Washington, Sept. 27.—Italian troops have completed their occupation of the entire Bainsizza plateau, which is now firmly in Italian hands, according to official dispatches received here today from Rome.

Russ Women Fighters Distinguish Themselves

Petrograd, Sept. 28.—An army order issued today gives high praise to the Second women's fighting detachment at the front. The order says the women soldiers arrived at a time of great difficulty, owing to the destruction of the roads by rains and confusion caused by the retreating, demoralized troops. Nevertheless, the women were perfectly disciplined and showed "that they were conscious of their duty of defending the fatherland."

In tactics the women are described as having been efficient, especially in class formation work. The women served in a Turkestan rifle division famous for hard marching, but kept up with the men, tramping along in their heavy equipment twenty or thirty miles a day.

hamper the government in almost every conceivable way, with ramifications into practically every state.

It concerned anti-draft demonstrations, crippling of war industries by so-called strikes, burning of wheat fields, burning of timber which the government was planning to use for airplane construction, and a continuous anti-ally and anti-war propaganda.

There was evidence that German money was plentifully supplied, as shown in many letters and cancelled checks.

Indications pointed to a group of

men as prime movers in the great conspiracy with a large number of agents acting under their orders.

The nation-wide raid conducted upon local I. W. W. headquarters in many cities by agents of the department of justice on September 15, disclosed the evidence upon which the government proceeded to act.

Many Austrians Involved. One feature which the investigation brought out sharply was the large, almost predominating membership of Austrians in the ranks of the I. W. W. local organizations and also the large membership of the various races which comprise Austria-Hungary. Thousands of these men, unrestrained because the United States is not at war with Austria, federal investigators have found, have been free to carry on whatever activities were planned.

It is understood that the indictments will be formally reported to the federal court in Chicago some time today, charging seditious conspiracy against the government.
