

NEBRASKA INDIANS ANXIOUS TO FIGHT

General Harries Prepares Camp for Comfort of Soldiers and Drills and Maneuvers Will Begin.

Camp Cody, Deming, N. M., Sept. 29.—(Special.)—Descendants of the copper colored horseman of the Upper Missouri, who fought the migrating pale faces grimly in the days of the winning of the west are preparing at this big army training station to give a correct account of themselves when the "spring drive" in northeastern France begins.

The Sixth Nebraska infantry and the First South Dakota cavalry are full of stalwart Indians. Their athletic appearance is remarked upon frequently by officers and it is said that, while unusually silent among the talkative men generally found in the National Guard, these young Indians are just as anxious for a go at the Hun as any other enthusiastic American of the white race.

There are about 125 Indians in Companies F and H, Sixth Nebraska, mainly Pawnees, Omaha and Sioux, coming from around Chadron and Walthill. Many have been to the Indian schools in their state, and athletes are common among them.

Ground Drained.

Eliminating cactus, weeds and bunch grass from parade grounds, officers' rows and company streets has occupied the Fifth and Sixth Nebraska infantry, Colonels H. J. Paul and Phil Hall, since their arrival here. Several days were lost because of the rains, but the grounds have been drained and leveled by the Huskers until every unit is pretty comfortable at rest or at work.

At the headquarters of the Fifth a statistical section has been opened in charge of First Lieutenant Jean Cobbley, chaplain, assisted by Sergeant Major Paul Leidy and Privates Carl Geiger and T. A. Richards.

Privates Harry Westphal and Larry M. Fulton have been appointed corporals in Company M of the Fifth.

Pay day call blew for the Sixth, giving the soldiers considerable money to send away.

Harries Arranges Drills.

Brigadier General George H. Harries, to command the Fifty-ninth depot brigade in this Thirty-fourth division of the reorganized army, has laid out a lengthy program of drills and maneuvers for the Nebraska brigade, but only a beginning has been made, owing to the wet weather and necessity for making the camp comfortable. Appearance around the brigade would indicate that it expects to stay here a long time. General Harries said he intends that the men shall be comfortable when they are off work.

A lecture tent has been pitched near General Harries' quarters in which he will gather his commanders for instructions. The tent accommodates all the officers of a regiment.

The men of the Fourth Nebraska infantry, commanded by Colonel W. A. Raehr, are going in strong for athletics, but they had to weary their muscles considerably before they got their campsite drained after the wet spell.

The rifle range here will have targets in a line a mile long. The site contains about 1,000 acres.

Iowa Pencil Pushers Hold Session at Denison

Denison, Ia., Sept. 28.—(Special.)—A joint meeting of the Western Iowa and the Upper Des Moines Editorial associations is being held in this city, with L. C. Hatch of Woodbine presiding. After an address of welcome from the president of the commercial club, T. B. Lyon, V. H. Lovejoy of the Jefferson Bee spoke on advertising the Liberty loan. A. H. Sniff of Missouri Valley followed and urged helping the Red Cross and Young Men's Christian association. J. R. Graham of Glenwood Tribune believed that the government had been too liberal in permitting papers in foreign languages to go uncensored, and advocated that in future a strict oversight be maintained. Mr. Finera of the Denison Herald (German) made reply, insisting that the German papers of Iowa were loyal.

At the banquet given at the Hotel Denison Judge J. P. Conner presided and short talks were made by George McHenry and Mr. Graham. George Neave told of the booster spirit of Denison and Mr. Henry of Coon Rapids called to mind the trials of the newspaper men in the early days.

NEW ARMY SHOE—Or we might call it boot, that is now the regulation for the national army man. It is of heavy leather, has a thick sole, and is hob-nailed. It is comfortable and serviceable though it may not be natty and built along slender lines.

NEW ARMY SHOES.

M'ADOO APPEALS FOR BUYERS OF LIBERTY BONDS

(Continued from Page One.)

everyone is asked to lend his money to the government.

Loans Repaid in Full.

"The loans will be rapid in full with interest at the rate of 4 per cent per annum. A government bond is the safest investment in the world—it is as good as currency and yet better, because the government does not bear interest and currency does not. No other investment compares with it for safety, ready convertibility into cash, and unquestioned availability as collateral security for loans in any bank in the United States. People by thousands ask the treasury constantly how they can help the government in this war. Through the purchase of Liberty bonds every one can help. No more patriotic duty can be performed by those who cannot actually fight upon the field of battle than to furnish the government with the necessary money to enable it to give our brave soldiers and sailors all that they require to make them strong for the fight and capable of winning a swift victory over our enemies.

"We fight, first of all, for America's vital rights, the right to unmoistened and unobstructed use of the high seas, so that the surplus products of our farms, our mines and our factories may be carried into the harbors of every friendly nation in the world. Our welfare and prosperity as a people depend upon our right of peaceful intercourse with all the nations of the earth. To abandon these rights by withdrawing our ships and commerce from the seas upon the order of a military despot in Europe would destroy prosperity and bring disaster and humiliation upon the American people. We fight to protect our citizens against assassination and murder upon the high seas while in the peaceful exercise of those rights demanded by international law and every instinct and dictate of humanity. We fight to preserve our democratic institutions and our sovereignty as a nation against the menace of a powerful and ruthless military autocracy headed by the German kaiser, whose ambition is to dominate the world. We fight also for the noble ideal of universal democracy and liberty, the right of the smallest and weakest nations equally with the most powerful to live and to govern themselves according to the will of their own people.

"We fight for peace, for that just and lasting peace which agonized and tortured humanity craves and which not the sword nor the bayonet of a military despot, but the supremacy of

vindicated right alone can restore to a distracted world.

"To secure these ends, I appeal to every man and woman who resides upon the soil of free America and enjoys the blessings of its priceless institutions, to join the league of patriots by purchasing a LIBERTY BOND."

Pollard, Negro Grid Star, Faces Ban for Studies

Brown university, which is going in for a full foot ball schedule this fall, is now looking around for a man's sized halfback to take the place of its negro All-American star in that position, Fritz Pollard. That star is in scholastic difficulties which may not be surmounted by his summer's cramming, so he can compete this fall. Consequently Brown's campus will be shadowed by large clouds of gloom when the undergraduates gather in a couple of weeks. Possibly the boys may not argue with the faculty to dispel these clouds, but the chances are they will get their debating team at work to bring a line of persuasive arguments in Pollard's favor.

Foot Ball Prospects Are Much Better at Grinnell

Foot ball prospects at Grinnell college have taken on a brighter hue since the signing as coach of Russell Tollefson, former University of Minnesota backfield star. He succeeds Oscar (Ossie) Solem, another ex-Gopher, who has entered the army with a captain's commission won at the officers' training camp at Fort Snelling. Six veterans will be back in the squad this season, and there is an abundance of material among 1916 freshmen. Tollefson played half-back and quarter at Minnesota in 1912 and 1913.

TO REPAIR DODGE ROAD NEXT WEEK

Bauer & Johnson Awarded Contract and Board Approves Bond; Contractors Ordered to Start Immediately.

After months of delay, marked by litigation between the county board and rival paving contractors, work probably will begin the first of next week on the repairing of five miles of West Dodge street road, starting at Fairacres.

The county board and the county attorney have now approved the \$10,000 bond of Bauer & Johnson, who finally got the contract after a bitter fight in law court. The bond is just double the amount of the one put up by the Callahan Construction company, whose contract for one mile of paving was knocked out by Judge Redick.

The kind of paving to be put in on West Dodge street also is just the opposite of what the good roads committees of the Commercial club and

the Omaha Automobile club recommended.

The Callahan Construction company originally was awarded the contract for one mile of "test" road, notwithstanding the fact that Bauer & Johnson's bid, according to specifications, was lower. Bauer & Johnson bid 44 cents a square yard for the five miles, to be put in by the pressure method.

Brings Out Injunction.

The Callahan people bid 77 cents the work to be done by the "Finley method" claimed to be a patented process by reason of a special machine they used. Bauer & Johnson brought injunction proceedings against the board and the Callahan company and the case was fought out before Judge Redick, sitting in law court.

After a bitter legal fight Judge Redick ruled against the Callahan contract and the matter was referred back to the commissioners. Testimony in court brought out the fact that three members of the board were "treated" to a trip to Dallas, Tex., and other southern points at the expense of the Callahan people. The trip ostensibly was made to give work put in by the Callahan people in Texas the "once over."

When the paving matter was referred back to them, the commission-

ers in turn asked good roads committees of the Commercial club and the Automobile club to recommend what they wanted done. Chairman O'Connor of the board declared at the time the recommendations of the delegations would be carried out. The recommendation was that Bauer & Johnson be given the contract on the basis of 74 cents a square yard, the paving to be put in by the "in-pregnation method," a more permanent highway, according to road ex-

perts, than the "process method." The board balked at this, however, and substituted the 44-cent contract and then there was another delay in approving Bauer & Johnson's bond until now, when the last formalities have been disposed of and the contractors ordered to begin work.

The outward appearance of Trinity Baptist church has entirely changed. The old frame structure is now entirely encased with a beautiful flat-faced brick.

Catarrh and Bronchitis

and Cold in the Head Recommend

PE-RU-NA

Those who object to liquid medicine can secure Peruna tablets.

Mrs. Rose A. Kiss, 318 Clinton Place, Kansas City, Missouri, writes:

"I was very sick with Catarrh and Bronchitis. I also had a cold in the head, I used Peruna and am well pleased with the results. It has done me a great deal of good. I do not need any other medicine. I can cheerfully recommend it to any one who is troubled with catching cold frequently or any one who has a chronic cough or chronic catarrh. Those wishing further particulars concerning my case may write me. Be sure to enclose a stamp and I will answer."

Orchard & Wilhelm Co.
