Cattle—As usual on Saturday, there were practically no fresh cattle on sale, but for the week receipts have been the heaviest on record, footing up approximately 61.700 head, or nearly 10,000 more than a week ago, and 3,500 more than a year ago. Excessive receipts the early part of the week demoralized the trade and forced prices down fully 50c, but with moderate supplies the latter part of the week much of the early decline was recovered, and closing prices for both beef steers and cows are not more than 25c to 50c lower than a week ago. In fact the desirable heavy cattle are not appreciably lower than at that time and the decline has been mostly on the light and medium weight stock that has constituted the big bulk of the offerings.

Considerable activity has featured the tradesin stockers and feeders, and demand from the country has been broader than at any previous time this year. Fleshy steers of good quality have been firmly held frem start to finish, selling from \$10.00 up to \$14.50.

Outlations on cattle: Prime heavy beeves. Cattle-As usual on Saturday, there were

stert to finish, selling from \$16.00 up to \$14.50.

Hogs-Under the influence of fairly light receipts and good demand the market this morning was active at prices that were steady to 5c higher than yesterday. Everything was cleaned up by shortly after 9 o'clock. Bulk of the offerings moved at \$18.20@19.20 and the top was \$19.45, the highest prices that have been paid since August 21. Prices have shown an advance every day this week and are right close to \$1.00 higher than last Saturday. The general market now is the highest it has ever been, though today's top is still 15c below the record of \$19.60 made last month. Receipts this week have been only about 23,000 head, as compared with 27,000 a week ago and 29,500 for the corresponding week last year.

CHICAGO GRAIN AND PROVISIONS.

Buyers; Oats Harden; Hogs Firm. Chicago, Ill., Sept. 29 .- Unexpected cool weather with frost indications for tonight encouraged buyers today in the corn marencouraged outers today in the con hair ket. Largely as a result prices at the close, although unsettled, were %c to 14.61%c net higher at \$1.18% \$1.18% to \$1.18%.0 1.18% December and \$1.16% to \$1.15% May. Oats finished unchanged to %c higher visions ranging from 12c decline to a

Investors, who appeared to have been giving considerable attention to the feeding value of corn as compared with prices for live stock, took prompt notice of the chance that the prevailing wave of lower temperature might bring about eleventh-nour days age to the corn crop. Houses with seaboard connections were especially conspicuous in the purchasing, whereas big sellers proved the purchasing of the offerings coming scarce, the bulk of the offerings coming from pit longs, who had week-end profits to realize. The country sold almost no orn and offerings everywhere were light Oats hardened in response to continued demand from export interests. Heavy de-liveries on contracts were expected after the lose, but arrivals here remained small. Owing to the recent sharp advances, the provision market encountered a decided luil. For the most part, however, quotations were sustained by the comparative firmness of

prices on hogs.

STORM SWEEPS THROUGH SOUTH: HEAVY DAMAGE

Wind Attains Velocity of Hundred Miles an Hour at Pensacola, Where Loss Will Be Great.

New Orleans, Sept. 29.-Word was anxiously awaited here today from Pensacola, Fla., which was struck by the tropical hurricane. All wire communication with Pensacola had been cut off since about 1 o'clock yesterday afternoon, when messages from that city stated the wind was blowing about 100 miles an hour, and indicated considerable damage to property.

Telegraph and telephone companies said their wires to Pensacola probably would not be restored before tomorrow or later.

No serious damage and no loss of life were reported from the Mississippi coast or from eastern Louisiana and danger from high tides apparently had passed.

Some storm damage to standing timber and to crops was reported from Mississippi and Louisiana, but no estimate is available.

Residences Damaged.

Mobile, Ala., Sept. 29.-The gulf coastal sections of east Louisiana, Mississippi, Alabama and western Florida were emerging today from he tropical harri-ane which swept in from the Gulf of Mexico Friday and for a number of hours isolated many towns along the coast.

Roofs of residences and frail buildings were damaged, but warnings in advance prevented extensive damage to shipping, and no loss of life was reported. Telephone, telegraph and railroad communication still was virtually paralyzed and washed out tracks and damage to wires by high winds was expected to constitute the chief loss.

Causes Fire.

The storm struck the coast at the mouth of the Mississippi and, sweeper ing across a narrow portion of Louis-iana, missed New Orleans, but hit Gulfport, Biloxi and the Mississippi coast section, swept through Mobile at times with a velocity of ninety-six miles an hour and extended east to Pensacola, where communication had not been restored early today.

A three-story structure occupied by the Chamber of Commerce and the cotton exchange and several other buildings in the business district here were destroyed by fire, demoralization of the fire alarm system giving the flames a start. The loss is put at \$350,000.

The storm early today was continung its way inland in a northeasterly direction through Alabama and Florida, though apparently with diminish-
