

NAVY IS POINT ON ROAD TO SUCCESS

Good Pay, Comfortable Quarters and Thorough Education is What Uncle Sam Gives His Tars.

What U. S. Navy Does For Man Who Joins

1. Gives him a salary equal to or greater than he is making in civil life.
2. Gives him a \$50,000 education. It costs Uncle Sam at least that much for each man trained four years in the navy.
3. Gives him a trade or profession by which he can make his living in after life.
4. Gives him a standing that is invaluable. There is not a large business house in the country but will give a good job to the young man honorably discharged from the United States navy. The navy makes real men, and business firms fall over each other to get them after they are discharged.

The navy will take any young man in Omaha under 30 and give him more money than he is making in civil life.

This is the standing offer made by Ensign Condict of the naval recruiting office. Last night he stood in front of the navy tent on the carnival grounds and convinced the young men who stopped before the torpedo and other naval exhibits that they would be gaining far more than they lost by giving up their positions to join the navy.

The newest apprentice seaman gets \$32.50 and all expenses, also clothing. I defy anyone to find in Omaha the kind of board and lodging with medical attention and other essentials at less than \$30 a month.

In a short time the young man entering the navy becomes a petty officer, continued Ensign Condict. As well known, one out of three men in the navy is an officer. His salary is again raised and in six months after entrance he is earning what is equivalent to \$100 a month—with a better chance to save money than in civil life.

May Be Officer.

It matters not what walk of life he is in before he enters the navy. A registered pharmacist, a physician, an educated man of any kind will find a good place waiting for him in the navy with a salary more, I feel safe in saying, than he is making before he joins—after eliminating the expenses in civil life. If he passes the examinations he will be made an officer and given a salary larger than he is getting in civil life.

Except in the cases of older men who have after years, established a large clientele or practice, the professional or business men can do no better than to join the navy.

The education given a young man during his four years in the navy costs his Uncle Sam as high as \$50,000. For his education the government has the best equipment possible. If he wants to learn a trade every facility is provided, extensive tools and machinery, expert teachers. If he learns a profession, as surgery and pharmacy, the hospital ships where he is taught have the finest equipment in the land and the most skilled physicians and professors for instructors.

In training for fighting no pain is spared. The young tar learns to fire off the big guns—at \$1,000 a shot. He learns to shoot a torpedo, though one of these costs the government \$10,000—and he is very likely to lose one or more for the government.

The highest quality in clothing, the best food and most comfortable quarters are provided for him. Students at Yale and Harvard get no better.

Plenty of Jobs.

When a young man leaves the navy he finds himself in advance of his mates who stayed in civil walks. Besides the special trade or profession he has had an opportunity of learning, he finds all the manufacturing plants and business houses swing their doors wide open for him.

The Standard Oil company, to cite one, has a perpetual offer to take in instantly any man honorably discharged from the navy. They know that the discipline and training has made a dependable man of him, that he has judgment and skill. If placed in charge of an oil tank, a factory or an office, the man from the navy can be trusted to stay on the job. The navy man makes a good executive and quickly rises to such a position when again in civil life.

The Eastern Wire Rope company, which makes suspension bridges and cables for big engineering projects, is another firm preferring navy men. Most of its office and desk men were formerly in the navy. This firm, like the Standard Oil, will take in any navy man, whether there is a vacancy or not, so glad is it to get such. In six months the young man from the navy entering this factory is usually made superintendent of a factory department or placed in charge of an office. The navy-trained lad shoots beyond and above his co-workers quickly and he never lacks a job.

More Clerks Appointed In Omaha Postoffice

(From a Staff Correspondent.) Washington, Oct. 1.—(Special Telegram.)—The following clerks have been appointed in the Omaha post-office:

- John E. Anderson, Harry E. Bruner, Michael J. Lipp, Royal S. Kessler, John E. Shubert, Albert L. Reif, O. H. Steves, Walter Kolaczy, Garnet D. Howe, Roy F. Koch, Henry R. Moore.

"Black Man's Part in Bible" To Be Topic of Lecture

"The Black Man's Part in the Bible," is the topic of an illustrated lecture to be given by James M. Webb at Mecca hall, Twenty-fourth and Grant tonight.

The black man is described as the father of all civilization.

Irish Countess Sells Shamrocks For Benefit of Crippled Soldiers

Countess of Kingston

To obtain funds for Irish soldiers disabled in the war, the countess of Kingston is paying Omaha a visit this week.

In a booth at the carnival grounds the countess and her assistants, all Irish girls, are selling little shamrock pins. The nickels and quarters raised thus will go to make life worth living for the crippled chaps who gave their all for the freedom of the world.

There are now 1,574 of these crippled Irish soldiers receiving aid. Employment has been found for many and those unable to take up their former occupations are to be taught trades, typewriting, bookkeeping, electrical work and so on, so they may earn their own living once more. Those who have contracted tuberculosis will be treated in sanitariums. Families of these men are also assisted.

The countess is vice president of the Dublin branch of the Soldiers' and Sailors' Help society and pays her own expenses. Those who wish to do more than buy shamrocks from the countess can send donations to the Shamrock Fund, 39 East Fifty-eighth street, New York City. Checks should be made payable to the Shamrock fund.

Wake Up, Mr. Coal Dealer!

Although unsolicited advice may not be desired, The Bee volunteers the suggestion to Omaha coal dealers to wake up and get in tune with the times.

The government has put coal on the list of necessities subject to official price limitation, but some of our Omaha coal men still insist they will hold their supplies at prices to suit themselves.

Refusal to recognize the inevitable has already caused a congestion in local yards by deferring deliveries, most householders waiting while the dealers refuse to sell subject to government price. Omaha coal men doubtless find it hard to readjust, but they may as well accept the situation—not next month, nor next week, but right now. Dealers in cities all around us are offering to deliver coal to be billed at government price, and the price will be fixed for Iowa, for Missouri, for Kansas, for states all around us, to which ours in Nebraska must bear a direct relation.

The Bee suggests that Omaha coal dealers, perhaps through failure to understand the situation, have been standing in their own light. Wittingly or unwittingly, they have done more than anyone else to bring on the muny coal yard. The way for them to retain public favor is to square their business with war-time needs without delay.

MUNY YARD EXPECTS FIRST COAL TODAY

Shipment of Illinois Egg Due Here This Afternoon; to Take Orders Immediately Upon Arrival.

Omaha's municipal coal department expects first shipment this morning and Commissioner Butler believes the city will be ready to receive orders today.

Orders will not be accepted until coal is on track and all orders must be accompanied by cash.

Office of the municipal coal yard will be opened in Room 106, city hall, in the department of superintendent of account and finance.

First delivery of coal will be from mines of Montgomery county, Illinois, and will be egg size. The price will be \$5.75 per ton delivered. Carrying-in charges will be extra, but chute will be furnished if desired.

This announcement is made: "It is the intent and purpose to deliver to as many different locations as possible, therefore not more than two tons will be delivered to one address. All deliveries will be made under direct supervision of Superintendent Parks of street cleaning and maintenance department, who has offered to haul coal with trucks of his department, at cost."

An order for four more cars was closed this morning over long distance telephone, this being Kansas coal. Ten cars are expected within a few days. The city has closed orders for thirty-nine cars as a starter.

Corporation Counsel Lambert will have the honor of giving the first order to the municipal coal yard.

General Manager Howell of the metropolitan water plant will co-operate with the city to the extent of screening the coal at the Florence pumping station and buying screenings for Minne Lusa station.

Electrical Engineer Weds; Friends Give "Initiation"

J. E. Sheehan, an electrical engineer in the employ of the Phoenix Construction company, surprised his friends last week, with the announcement of his marriage at Montpelier, Idaho. His friends last night initiated him into the "Married Men's Federation of Hope." They dressed him in an outfit which would be rejected by an unsheltered Belgian, attaching a sign "Just Married" and tying a long rope about his body, by which he was marched down Farnam street.

SOUTH SIDE

HOGS ARRIVE FOR SWINE EXHIBITION

Blue Ribbon Winners, Some Valued at Ten Thousand Dollars, Shipped to South Omaha Show.

What is a man worth? No one seems to know for sure, but there is no doubt as to the value of a hog. That's computed in dollars and cents. Ten thousand dollars is the value of some of the hogs that will be shown at the National Swine show which begins at the horse barns at the Union Stock yards Wednesday.

Hogs were coming in all day Monday. All are prize winners. Hogs that did not win blue ribbons at state fairs would not appear at a national show, so the collection is "the fat of the land."

South High Night School Registration Next Week

What does it mean to be a citizen? What sacrifice does it require during war time? What are its rewards? These are the kinds of lessons that will be taught to foreign born persons at the South High night school soon. Miss Chase will have charge of a special course in citizenship.

This course has been arranged to meet local needs in regard to present day topics.

The night school will offer more than thirty different subjects. Three languages will be taught. Classes in all commercial work will be given. There will be science classes and domestic science and manual training. Many are expected to enroll in the class for telegraphy. The course in English will be especially planned to help the students to speak and write English well.

Registration for work in the night school will begin next Monday night, from 7 to 9 o'clock. The high school will also be open for registration Tuesday and Wednesday nights.

Deaf Mute Secures Job; Five Days in Workhouse

A deaf and dumb mute was tried in South Side police court Tuesday morning charged with being a vagrant. He tried to defend himself by writing an explanation for the court to read, but the court was busy and he was not given much time. He wrote that he has tried to get work and he wished the court would help him get a job.

The court said, "We'll get you a job," and City Prosecutor Anheuser wrote, "Yes, we'll give you a job."

You can work in the county workhouse to fit your eyes. The dumb fellow tried to plead with the court, but he was motioned to a bench and later was taken to the workhouse.

Glass Smells of Whisky and Owner is Pinched

Can the smell of whisky convict a man for the illegal possession of liquor? Officials at the South Side police court puzzled over the proposition as they each sniffed at the little whisky glass which had been brought into police court to be used as evidence in the case of John Stepanek, who operates a soft drink place at Thirty-ninth and L. streets.

Officer Sheehan arrested Stepanek Monday night after he had seen him give a drink to a friend. He believes that the drink was whisky and says that the glass smells of whisky. A pint bottle labeled "American Pride of Bourbon," was found in a cellar under the soft drink place.

South Side Pastor Made Officer of Association

Dr. C. C. Wilson, of Grace Methodist church, South Side, was elected vice president of the Methodist Ministers' association of Omaha Monday afternoon. Rev. Dr. U. G. Brown, superintendent of the Omaha district, was chosen president, and Rev. Stopford, of Pearl Memorial, was elected secretary and treasurer.

Small Boy Lost in Excitement of Moving

Like "Old Mother Hubbard," Mrs. John Cvtiak, 1539 Y street, has so many children she doesn't know what to do. The Cvtiak family moved Monday. When they checked up the children Tuesday morning they discovered that the six-year-old boy was missing.

Try Making Your Own Cough Remedy

You can save about \$2, and have a better remedy than the ready-made kind. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you would hardly have in them all the curative power that lies in this simple "home-made" cough syrup which takes only a few minutes to prepare.

Get from any druggist 24 ounces of Pinex (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. The total cost is about 40 cents and gives you a full pint of really better cough syrup than you could buy ready-made for \$2.00. Tastes pleasant and never spoils.

This Pinex and sugar syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes that line the throat, chest and bronchial tubes, so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and for bronchitis, croup, whooping cough and bronchial asthma, there is nothing better.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs.

To avoid disappointment, be sure to ask your druggist for "24 ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

The little boy was found in the neighborhood of moving. He was not found until after 5 o'clock. He was later turned over to Probation Officer McAuley, who took him home with him and put him to bed. He stayed all night and Tuesday his presence was missed, his parents came for him and took him home.

Magie City Gossip. Dr. Allingham has removed his office to rooms 3-4-5 Glasgow block. Phone South 140. Telephone South 860 and order a case of Ona or Lactonade, the healthful, refreshing Home Beverages, delivered to your residence. Omaha Beverage Co.

L. A. WELSH, Motorologist. Miss Annitta Healy went to Ashby, where she will teach school. The women of the Lefter Memorial church will hold a chicken dinner at Twenty-sixth and O street on Thursday. Dinner will be served from 11 o'clock on.
