run on last Monday and Tuesday As usual the supply was made up largely of western range cattle, and quality was in-different to say the least. Demand from all sources was good, however, and trade was active at steady to stronger prices for both beef steers and cow stuff. In stockers and feeders there was considerable activity, both yard traders and country buyers taking hold freely and paying steady to stronger prices for anything with weight and quality. Medium and common kinds, as usual, sold very unevenly and on the cattle selling around \$8.50 and under it a catch can trade, sithough the volume of business was of liberal proportions.

# GRAIN AND PRODUCE

Light Arrivals Make Market Dull; Practically No Sales of Corn Made; Local Demand Takes Oats.

The volume of business transacted in cash grain today was very small, due to the extremely light arrivals, only seventy-five cars being reported in. These were evenly divided—twenty cars of wheat, twenty-seven cars of corn, twenty-five car- of oats, no rye and three cars of barley. Trade in cash corn was extremely dull and up to 12:30 no trades whatever were made, buyers and sellers not being able to determine the ways. determine the value of this cereal, although the option was somewhat lower. Practically all of these samples were carried over, al-though some of the buyers offered yester-

Omaha, October 2, 1917.

day's prices for white corn. A little later a car of No. 2 white was sold at the un-changed price of \$2.01, and two cars of No. 3 mixed brought \$1.87 and \$1.99, the last sale being a car of near white. Receipts of oats were hardly sufficient to take care of the local demand, and these were disposed of quite readily at prices 4c up to 4c off. No. 2 white sold at 58c. while the standard goods sold at 57%c and the No. 3 at 57%c, and the No. 4 at the same figure. The sample grade of oats

### YORK STOCKS NEW

Greater Depression Due to Familiar Causes; Time Funds in Scanty Supply; Rate on Rome Hardens.

New York, Oct. 2.-The greater depression which attended today's stock market was due to familiar causes or conditions; namely, steady liquidation of securities of a character heretofore favored by investors.

Recent severe recessions in rails were extended by one to four points, few issues of that division escaping the processes of attrition. New low records were registered by St. Paul, New York Central and Baltinore and Ohlo while many other transporta-

more and Ohlo while many other transportation stocks came within easy approach of
their minimums.

No developments of a specifics or defintie nature were offered in explanation of
movement, but in well informed circles the
belief still obtained that the selling emanated from foreign quarters. The bears were
not slow to avail themselves of the decline which was accelerated from time to time by the extension of shorts contrasts. Industrias and the various shares included in the war group were plainly inclined to shake off the pressure against rails, but yielded with the general list until the final hour when gradual improvement set in the market char ing from its Leavy tone to one of moderate irregularity.

United States Steel's course was again indicative of the general movement. From

indicative of the general movement, From its low level of 108%, steel railied two points, closing at 110%, a net loss of an insignificant fraction. Coppers were irregular at best, but shippings and recognized pool

shares were strong.
Sales amounted to 725,000 shares.
Call money was stabilized by the pool, but time funds were again in scanty pool, but time funds were again in acasty supply, though quoted unchanged. Remit-tances to London and Paris were easier and Bonds were heavy on moderate trading, the Liberty issue selling at 99.94 to par. Total sales par value aggregated \$3,750,000. United States coupon 3's rose % per cent

and on the cattle serious under it a catch can trade, although wolume of business was of liberal proportions.

Quotations on cattle: Prime heav, beeves, \$12.00 growth of the proportions of the proportion of the proportion of the proportions of the proportion of the proportions o
