Drillers and Refinery Men Are Now Buying **BIG BEAR Oil Stock**

Over \$30,000.00 worth of Big Bear Oil 'co, stock has been purchased by Casper, Wyoming, people Our two rigs are only 10 miles from Casper, so these men know how fast we are drilling and how close we are to a big production. The Big Bear Oil Co., though only five months old, is drilling two oil wells to the Big Muddy field. This rapid financing is due to the fact that it is a co-operative company, no officer receiving any salary or commission. Your money goes for salary or commission. Your money goes for actual drilling. Officers are efficient and re-liable men. Because of the rapid sale of this stock, we offer it now at 1215 cents per share, reserving the right to reject your subshare, reserving the right to reject your sub-cription and return your money if your subscription comes in after 100,000 shares are sold at this price. Stocks now selling for \$40, at the start sold for 10 cents a share. Capitalization is only \$500,000; stock full paid and non-assessable. Sold on monthly bayment plan if desired. Probably no oil company now offering stock for sale has 1,000 acres of leases To bear to so many very large producing wells. The two new wells now drilling by the company are only a few hundred feet from dozens of wells now producing from hundreds to thousands of barrels of oil daily. Goese Creek, Texas, is perhaps the most famous oil field in all the United States for many large wells on a small area.

C. T. RUCKER, GENERAL MANAGER

No one oil man is better or more favorably known in all Texas than C. T. Rocker, our general manager. Experienced people know that the success of an oil company does not depend on the office force that writes its letters and keeps its books, but on the one man who supervises the drilling of the wells. No man in the Goose Creek Field has drilled or located so many oil wells of enormous production as C. T. Rucker. He works every day in the field in his shirt sleeves. He lived in a little wooden "shack" in Goose Creek up until two years ago. Now he lives oil a site of the one mansion at Houston. But every day he is on the oil field drilling oil wells manager. Experienced people know that the success of an oil

Utah Copper Co Belief Corn Crops Safe Hold Prices Down

Despite Fronts. Chicago, Oct. 6 .- Reports of killing frosts in the main corn belt failed today to lift corn prices. The majority of traders ap-peared to have a settled bellef that the bulk peared to have a settled belief that the bulk of the crop was matured and beyond dam-age. Instead of the frosts acting as a stimulus to buying, they noticeably in-creased realizing sales. Opening quotations, which ranged from %@%c off to %c up, wore followed by a moderate general set-back and then a slight rally. Lack of any signs of a renewal of export buying weakened oats.
