

JURY WARNED NOT TO TALK ON OUTSIDE

Presiding Judge Instructs the Panel That Any Tampering Will Be Dealt With Severely.

Judge Sears, presiding judge of district court, in his instructions to jurors in the second panel, reporting for duty Monday morning, gave them a special warning not to talk to anyone about the cases nor to allow anyone to approach them in an attempt to influence them.

During the trial of appeal liquor cases by the first panel of jurors for the fall term of court, Special Prosecutor McGuire, representing the state, created a sensation by declaring certain persons were tampering with veniemen.

At that time Judge Sears hinted that a special grand jury might be called to investigate Prosecutor McGuire's charges.

Judge Estelle, in whose court all appeal liquor cases are being tried, recently made the statement that a certain court house attack had displayed "undue interest" in a couple of the booze hearings.

This individual got a sharp rebuke when he called Judge Estelle off the bench one day and attempted to talk about the case then on trial.

To Deal With Tamperers. Any tampering with or attempts to approach jurors will be dealt with severely, district court judges said.

Just before veniemen were assigned to different court rooms Judge Sears gave them the usual warning not to whittle the marble and woodwork in the court house; also not to "decorate" jury boxes with tobacco juice splashes.

When certain twelve jurors in the first panel had finished hearing evidence in a law suit the interior of the jury box looked like an attempt at the futurist painting. Tobacco juice had been sprinkled liberally every place but in the cuspidors.

GERMAN ATTACK EAST OF YPRES IS COMPLETE FAILURE

(Continued from Page One.)

Haig is blazing the way with his artillery for another raid into the German line in Flanders.

Since the great advance of the middle week the British infantry has kept to the trenches and shell craters, except where forays were called for to re-align the new front or counter attacks were necessary to hold back weak German attempts to recapture lost terrain.

But the big guns never ceased their activity, and day in and day out the masses of steel have been blasting the German points which are mapped out for capture when the new drive is launched.

Aim to Reach Railway. Particularly heavy bombardment is in the region running from Langemark to Zonnebeke, and especially to the east of the latter town, where the wedge of the British has been pushed in almost within striking distance of the Ostend-Lille road.

When the new offensive will be sprung cannot be predicted. Several days may elapse before Haig has sufficiently pounded the Germans to warrant sending his men across No Man's land, or the process of demolition already may have advanced to the point where the first gray streak of dawn of Monday may see its commencement.

Spartir Roumania. The army of the German crown prince, in Champagne, again has endeavored to dent the French line, but again has failed with considerable losses in men killed or made prisoner.

Snow in Vosges Mountains. Approaching cold weather on the western front is forecast in the appearance of snow in the Vosges mountains. In Flanders the weather has been most unfavorable the last two days, but official reports mention no let-up in the violent artillery duels. The British are probably using the

Refuse Holland Liner Bunker Coal License

Washington, Oct. 8.—The government has definitely refused license for bunker coal to the Holland-American liner Nieuw Amsterdam because the Netherlands government would not give assurances that the ship would return to the United States after discharging her Belgian relief cargo.

This action is said to forecast the complete embargo of the large fleet of Dutch ships now in New York harbor, unless Holland permits them to carry cargoes for the United States.

Germans Demand To Know the War Aims of the Kaiser

(Continued from Page One.)

patch as having said at a meeting of the central committee of his party that although the military situation was satisfactory there was no hope of crushing Germany's enemies on land. As for the submarine campaign 7,000,000 tons of shipping had been sunk, he asserted, but no disposition toward peace on the part of England was discernible. A rationing system for food-stuffs had not been even introduced and no one was able to say when the U-boat would make England more inclined for peace.

No Indemnity from America. "America cannot be forced to make peace," Herr Goethen continued. "We cannot force America to pay a war indemnity. There remains only England. But should we, in order to obtain an indemnity of 10,000,000,000 marks, sacrifice 50,000,000,000 marks and another half million men?"

Germany's allies, Herr Goethen continued, were not inclined to continue the war for pan-German plans or conquest, but were striving for peace by understanding and conciliation, while the pan-German clamor for annexations was finding a bad reception among them. He asserted that the long working hours and insufficient feeding at home increased the desire for peace among the work-

City Officials Are Ousted For Overlooking Booze

International Falls, Minn., Oct. 8.—Sheriff Thomas P. White, Mayor F. H. Keyes of this city and Mayor Peter Gibbons of Kanier were today removed from office, in compliance with orders of Governor Burnquist, the result of a petition filed with the Minnesota Public Safety commission at a recent meeting.

Neglect of duty in enforcing liquor regulations are the principal charges against the removed officials, who will be given a hearing at a date to be set by the governor.

Strikers Return to Work; Paid for Loss

Nashville, Tenn., Oct. 8.—With both sides stipulating that their action was taken as a patriotic duty, striking clerks of the Nashville, Chattanooga & St. Louis railway returned to work today under an agreement by which the company will pay all the strikers for the time they have lost and the differences will be settled later.

Aetna Insurance Company Subscribes Three Million

Boston, Oct. 8.—A \$3,000,000 Liberty loan subscription by the Aetna Life Insurance company of Hartford, Conn., was received today.

Newspapers Censor Heiferich

Amsterdam, Oct. 8.—German newspapers which support the Reichstag majority severely censure Dr. Heiferich, the vice chancellor and minister of the interior, for his incapacity to respond to the feelings of the Reichstag and expect decisive

happenings Monday. They are of the opinion that the future of the government may depend on the debate to begin Monday, in view of the motion of the independent socialists that "the Reichstag is of the opinion that the reply of the government to the interpellation did not meet with the intentions of the Reichstag."

The Vossische Zeitung declares that this motion is a vote of censure

formally directed against Dr. Michaelis, the imperial chancellor, but really against Dr. Heiferich.

Vorwärts says that if the motion is adopted Chancellor Michaelis and his colleagues must resign or the Reichstag must force them to do so.

Other newspapers demand a clear statement from the government on the peace resolution of the Reichstag majority.
