

KAISER THREATENS RUSSIAN DRIVE; SOX COLLECT FIFTH FROM GIANTS, 8-5

CHICAGO SWINGS TO FORE BY LANDING FIFTH GAME OF BIG WORLD SERIES BALL CLASH

Sox Adherents Go Mad With Joy; Exhibition Displays Whole Gamut of Base Ball From Sensational And Brilliant to Mediocre; Teams to Polo Grounds for Next Battle.

Score by innings:	2	0	0	2	0	0	1	0	0	R.	H.	E.	
New York	0	0	1	0	0	1	3	3	0	5	12	3
Chicago	0	0	1	0	0	1	3	3	0	8	14	5

Chicago, Oct. 13.—In a game that thrilled some 27,000 spectators today, the Chicago Americans scrambled into the world's series lead again by defeating the New York Nationals, 8 to 5, and swinging to the fore, three games to two.

GAMUT OF BASE BALL.

It was a contest that ran the gamut of base ball, from sensational and brilliant to mediocre, but never during the two hours and thirty-seven minutes of battle did it lose its intense hold on the spectators and at its conclusion the fans were almost as exhausted as the players.

FANS MAD WITH JOY.

For more than two hours the adherents of the White Sox roared and cheered without a moment's intermission, while the players became frantic with joy, once the Chicago team went into the lead, and performed antics in front of their dugout that would have caused a college cheer leader to despair.

For the first time during the present struggle for the title, honors of the base ball year the game developed both concerted and sustained rooting, and so keen was the rivalry between the two combinations that several times it appeared as though the participants would allow their feelings to get the better of their judgment.

Abounds With Errors.

While the enthusiasm and thrills enveloped the contest with the glamour that had been missing in the preceding games, the fifth meeting of the White Sox and the Giants will not go down in world's series history as a diamond battle of either outstanding skill or base-ball perfection.

Back to Polo Grounds.

The two teams tonight again started to the Polo grounds at New York, where the sixth game will be played on Monday, and the seventh, if necessary, on Tuesday, the Giants having won the toss and the privilege of naming the place of the deciding contest should each team win three games.

While the player of both teams have ceased to participate in the financial proceeds of the contest, the rivalry is none the less keen, for there is more than \$1,000 difference between the individual shares that will fall to the winning and the losing combinations. The club owners and the National commission profited handsomely, however, as the result of today's receipts, for the official attendance was 27,323 and the gate receipts \$69,403. Of this sum the two clubs received \$31,251.35 each and the National commission \$5,940.36.

Unique Features.

In many respects today's game developed features which have been foreign to previous diamond battles of the present series. Twenty-five players appeared in the lineup of the American and the National league pennant winners. After having gone twenty-four innings without scoring a run against the Giants, the Sox turned and piled up eight tallies, while the losers collected five, making a total for the day of thirteen, more than half

SAYS GERMANS SHIP WAR GOODS ON DUTCH CANALS

Hollanders Tricked Into Believing Sand and Gravel Sent to Belgium Used for Civil Purposes.

London, Oct. 13.—The prohibition of all commercial cable communication with Holland until such time as the Netherlands government places an absolute restriction on the transit of sand, gravel and scrap metals through Holland from Germany to Belgium was explained to the Associated Press today by Lord Robert Cecil, the minister of blockade.

"The Dutch in recent months," he said, "have been allowing the Germans to transport across Dutch waterways from Germany to Belgium vast quantities of gravel and sand. The total was out of all proportion to that transported in peace time and there is not the slightest doubt that the Germans are making use of this to our detriment. The Germans are using enormous quantities of concrete in pill boxes, dugouts and in many other ways.

"The Dutch do not claim that the Germans should be permitted to transport material for this war concrete through Dutch territory, but they say the Germans have given them assurances that all this material is being employed in strictly civil purposes. I have no doubt that the Germans have given such assurances and there may be some juggle by which they are able to submit paper proof. But we have this fact: Enormous quantities of concrete are being used at the front and enormous quantities of concrete material is going into the war zone through Holland.

"We made repeated diplomatic complaints with no results, until we finally decided, inasmuch as the Dutch have no right to use our cables except as a matter of courtesy."

YORK MAN KILLED IN MOTOR SMASH NEAR HOME TOWN

J. W. Ramey, Manager of York Telephone Company, Meets Instant Death in Collision at Cross Roads.

York, Neb., Oct. 13.—(Special Telegram.)—J. W. Ramey, manager of the Lincoln Telephone and Telegraph company at York, met instant death about 7 o'clock this evening at a cross roads about three miles northwest of York. Ramey was returning from a trip in the country, and as he approached the cross roads Edward Green of Seward was returning home from York, where he is building a new church.

Ramey's left front wheel caught the left rear wheel of Green's automobile, smashing both wheels and turning Ramey's car over, breaking the latter's neck.

Mr. Green declares he blew his horn as he approached the cross roads.

England Ready to Begin Air Reprisals

London, Oct. 13.—The morning papers suggest that the government is ready to begin carrying out reprisal air raids on Germany. This belief is based on the assignment of Lieutenant General David Henderson, director general of military aeronautics, to special work and the sending of Major General W. S. Brancker, director of air organization for the army, to a command abroad.

LUXBURG WIRES WERE IGNORED. GERMANY SAYS

Kaiser's Apology to Sweden for Argentine Affair States Code Instructions Were Not Authorized.

(By Associated Press.) Stockholm, Oct. 13.—The Swedish foreign office has received the German reply to its inquiry regarding the action of Count Karl von Luxburg while he was German minister to Argentina in sending messages through the Swedish legation regarding the "sinking without trace" of Argentine vessels.

Germany expressed regrets last month and promised a fuller statement later.

The answer now forwarded confirms the arrival in Berlin of the Luxburg cablegrams as published, although one of them was mutilated at an essential point.

Had No Effect on Campaign.

The German government states it is unable to make a declaration regarding the authenticity of the dispatches, as no confirmatory correspondence has taken place with Von Luxburg.

To Withdraw Flour Salesmen From Road

Minneapolis, Minn., Oct. 13.—John Pillsbury, head of one of the largest local flour mill companies, said today that Minneapolis flour mills would withdraw their salesmen from the road and decline to book further orders until those on hand have been filled, because of yesterday's decision by the milling division of the food administration to curtail operation to 60 per cent of capacity.

Premier Kerensky is Confined to His Bed

Petrograd, Friday, Oct. 12.—Premier Kerensky is slightly ill and has been confined to his bed since his arrival at general staff headquarters at Mohilev. The premier is reported to be in no danger. He telephoned today to Vice Premier Konovloff, saying that he was much pleased over the condition of the army, in which there was better feeling between the officers and men.

USE NEBRASKA DRAFTED MEN TO FILL GUARD UNIT

Members of National Army at Camp Funston From This State to Be Transferred to Nebraska Guard.

Washington, Oct. 13.—The War department made public today details of the orders providing for the transfer of 78,400 men from national army cantonments to the various national guard divisions to fill them to war strength. State quotas in this process will be determined upon the basis of congressional representation, and so far as practicable, the drafted men from a state will be assigned to national guard units from the same state.

Take 2,000 From Camp Funston.

The orders in part authorized the commander of the Thirty-fourth division to call upon Camp Dodge for 3,000 men from Iowa, Minnesota and North Dakota and upon Camp Funston for 2,000 men from Nebraska and South Dakota; Thirty-sixth division to call upon Camp Funston for 3,000 men from Missouri and Kansas; Fortieth division to call upon Camp Lewis for 3,000 men from California, Nevada and Utah, and upon Camp Funston for 6,000 men from Colorado, New Mexico and Arizona; Thirty-sixth division to call upon Camp Travis for 5,000 from Oklahoma and Texas.

Commanders of the National Guard divisions are directed to state the number of men required, to inform the commander of the national army cantonment on whom the call is made of the number of men of special qualifications needed and the dates on which the levies can be received and accommodated at the guard camps.

Paralleling these orders, instructions have been sent to the divisional commanders of the national army to furnish the men as required and also to make the following transfers between the national army cantonments:

Camp Gordon, to transfer all remaining white men to Camp Jackson and receive in return 8,000 white men (Continued on Page Two, Column One.)

Too Many Hops in Jack Rabbits; Bee Philosopher Scents Trouble

Coon Beck of Hutchinson, Kan., has just closed a contract with the government for ten carloads of jack rabbits to feed to the army. So says a Kansas dispatch in Saturday's Bee.

The Bee's philosopher says nix on this proposition.

"Why," says he, "beer is full of hops. So are jack rabbits. Now, the government denies beer to the soldiers because hops have a bad effect on soldiers. Well, suppose they let the soldiers eat jack rabbits, won't they get hops that way?"

"Coon Beck says there are 5,000,000 jack rabbits in southwestern Kansas. Now, multiply this by the number of hops in each jack rabbit and the total is billions."

The philosopher further estimates that there are fully as many hops in one jack rabbit as in one schooner of beer.

"It's all right to have the jack rabbits 'spurus versenket,' but I'm ag'in feeding all these hops to our soldiers," says the philosopher.

"And, besides, I'm not hep to this guy Coon Beck. If he's a sure enough regular 'coon,' maybe he's trying to voodoo our boys. It's bad enough to fill 'em full of hops, but 'sposen when they get full they hop the wrong way with a bunch of fightin' Germans in front of 'em."

"Just 'sposen!"

GERMAN FORCES LANDED ON ISLANDS IN GULF OF RIGA; PETROGRAD IS THREATENED

Anticipated Movement to Outflank Russian Line is Developing; Continued Losses on Western Front Compels New Attempt by Kaiser to Force Separate Peace With Russia.

BULLETIN.

Petrograd, Oct. 13.—The Germans are working stubbornly to clear the entrance to the Gulf of Riga near Courland, says today's official statement. The activities of the enemy in landing forces were rendered difficult by holes constructed by the Russians and by bad visibility. The garrison of Oesel island is fighting German forces which landed there.

The Germans landed detachments yesterday on the coast of the Gulf of Tagalah, on the north of Oesel island and near the village of Serro, on the southern part of Dago island, the war office announces.

The Russian coast batteries were silenced by German dreadnaughts.

London, Oct. 13.—The Germans have landed troops on the island of Oesel and Dago, in the Gulf of Riga, according to a Reuter dispatch from Petrograd.

Oesel and Dago islands are at the entrance to the Gulf of Riga and provide easy access to the mainland over small intermediate islands.

They are off the coast of the Russian province of Esthonia. Dago island is about 200 miles from Petrograd. Its position derives additional importance from the fact that it is almost at the mouth of the Gulf of Finland, at the head of which is Kronstadt, which defends Petrograd.

GERMAN LOSSES IN FLANDERS ARE GREATEST OF WAR

Slaughter of Prince Rupprecht's Men by British Pointed Out in Berlin as Wonderful Sacrifice.

Copenhagen, Oct. 13.—An intimation of great losses sustained by the Germans in their attempts to stem the British attacks is contained in the latest comment of Lieutenant General von Ardenne, military critic of the Tageblatt of Berlin, on the Flanders campaign. He refers to the German losses at Mars-la-Tour and Gravelotte, in the Franco-Prussian war, averaging five-sixths of the officers and one-third of the men of the guard and Brandenburg regiments engaged, as classic examples in German military history of extraordinary casualties suffered without affecting the morale of the troops.

Rupprecht's Losses Enormous.

The general then says these losses often are far exceeded in the present war, and that in the third Flanders battle have been so great as to induce the military authorities to abandon the usual rule of not referring to them, feeling that the sacrifices of Prince Rupprecht's troops have been such as to entitle them to extraordinary thanks of the fatherland.

General Ardenne pays a grudging and belated tribute to the achievements of the British tanks, which, according to his verdict, though quick victims of the German field artillery under good visibility, are able to deliver a most effective enfilading fire from their machine guns whenever they are able to approach the infantry lines under cover of a curtain of smoke or gas waves and are not to be taken lightly.

Von Tirpitz Still Confident.

Amsterdam, Oct. 13.—Admiral von Tirpitz, former minister of the German imperial navy, interviewed by the Bunsenwick Landes Zeitung, is quoted as saying:

"We can continue confidently to expect a final triumph over England as long as we continue to sink vessels faster than she constructs them. A submarine war success cannot be expected immediately, however, but if we pursue our aim firmly, we shall find after some months that our position is stronger than that of our opponent." (Continued on Page Two, Column One.)

Germany's Minister Of Marine Resigns

(By Associated Press.) Amsterdam, Oct. 12.—Vice Admiral von Capelle, the German minister of marine, has resigned, according to the Frankfurter Zeitung.

Vice Admiral Eduard von Capelle was one of the administrative directors in the ministry of marine before the war and had served as a captain at sea. In March, 1916, he succeeded Admiral von Tirpitz as imperial minister of the navy. Several times since then Von Capelle has appeared before the Reichstag with optimistic statements regarding the progress of the unrestricted submarine campaign, as late as August 26, 1917, defending the U-boat policy of his predecessor and himself at a meeting of the Reichstag main committee.

Vice Admiral von Capelle announced in the Reichstag last Wednesday that a plot had been discovered in the navy to paralyze the efficiency of the fleet and force the government to make peace. He said that the guilty parties had received their just deserts, and attempted to link socialists with the plot. The imperial German chancellor, Dr. Michaelis, also spoke of the existence of a conspiracy in the navy and asserted that certain deputies were involved in the revolt.

Ineligibles at Fort Snelling Discharged

Fort Snelling, Minn., Oct. 13.—Thirty students at the reserve officers' training camp were discharged today. By night the total is expected to reach 240.
