Avoid All Meat If Kidneys And Bladder Bother

Uric Acid in meat excites kidneys and irritates the bladder.

Take Salts at first sign of Bladder weakness or Kidney Backache.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant effervescent lithia-water drink which quickly relieves bladder trouble.—Adv.

POLAND'S FLAG TO APPEAR WITH ALLIES'

New Colors Soon to Be Unfolded on French Front Over Army From Every Part of the World.

(By Associated Press.) French Front in France, Oct. 13.—A new national flag is shortly to be unfolded on the French front—that of Poland. The silver eagle on a maroon field is to take its place beside the French tri-color, the Stars and Stripes, the union jack and the battle flags of the other allies, and beneath its folds will fight Polish volunteers from all parts of the world, including thousands from the United States.

An autonomous Polish army already is in course of organization on French soil, and its ranks have been opened to Polish citizens who have wandered abroad in search of freedom from the oppression to which the Polish nation has so long been subjected.

Independent of All Other Armies. This force is to be entirely independent of any other army, all its officers and men being of Polish birth or descent. The nucleus of the new army is composed of Poles who have served in the French army since the beginning of hostilities. In Paris alone 500 enlisted at the first call, while Toulouse furnished another 450, Abbeville 300, Douai 300 and Marseilles 100, besides many who joined up in other cities.

All grades of society are represented among these Polish volunteers. In the ranks nobles have fought side by side with artisans, men from the liberal professions with farm laborers, and boys not yet 16 shoulder to shoulder with gray-haired veterans of 50.

Some of them have served in special Polish companies of the foreign legion; others were distributed among their French comrades in line regiments. Everywhere they have gained by their bravery throughout the three years' fighting the appreciation of their chiefs. The Polish volunteers always have been willing to undertake the most onerous duties and most perilous tasks. Losses in their ranks appeared to have such a favorable effect on recruiting that it was recently decided to give the Poles an organization of their own and all soldiers of Polish nationality serving in France were assembled in one camp in preparation for the formation of regular army units of all arms.

Much encouragement was given to the movement by reports from America that Poles residing there had expressed their willingness to join the ranks of the new army, and it is hoped to obtain many recruits from that source.
