Hair Will Start To Grow Fast

"You Will See a Difference in Length of Your Hair in a Few Days," Says Valeska Suratt, the Movie Queen.

BY VALESKA SURATT

I can tell you I have never experienced anything so remarkable in the whole category of beauty art as the results achieved by a certain hair formula, which I have given to many of my friends, who have reported most startling results. It forces hair to grow at once, and the difference is very quickly noted. I want you to try it. This makes over a pint of this wonderful hair grower. Ask your druggist for this with one pint of bay rum, or if preferred with one-half pint each of water and alcohol. This is exceedingly economical. It will make the poorest hair grow profusely.

MRS. O. G. H.—To get rid of that disagreeable chalkiness in nearly all face pow-

ders, I have had my own face powder made specially. It is now sold as "Valeska Suratt Face Powder" at fifty cents. It is soft, in flesh, white and brunet tints. I defy you to find a powder more exquisite in fineness.

BLUE EYES—If there is anything that will develop the best, it is this safe formula, though, of course, success can never be positively assured in every case. Two ounces of ructose and half a cup of sugar are dissolved in a pint of water. Of this mixture take two teaspoonfuls after meals and on retiring.

WHY—Hereafter if your druggist hasn't the entol for wrinkles and the beta-quinol for the hair, just send fifty cents, which is the price of either of them, to "Secretary to Valeska Suratt, Thompson Building, Chicago, Ill.," and my secretary will supply you by mail at once.

AGING—I can guarantee you will get rid of those wrinkles, crow's feet and forehead wrinkles in only a few days, and be sure of that. Make your own cream at home as follows: It produces the most remarkable results you can imagine. Mix two ounces of entol and two tablespoonfuls of glycerine in half a pint of water. Use the cream liberally and you'll get wonderful results. I have known startling effects to be obtained with this cream on very wrinkled faces in a week's time. The skin turns fresh, plump and youthful and a difference of many years in appearance is soon noticed even by yourself. To obtain this result you must use the cream faithfully and every day, applying it thick.

ALL OVER—It is the easiest thing you can imagine to get rid of blackheads. They can be removed in a few minutes—and if you doubt it, just get some powdered sorbic acid at the drug store for fifty cents, sprinkle some of it on a wet cloth and rub it on the blackheads. Then look in the mirror and try to see them—you'll be surprised.

MOLLIE G.—You can now be naturally beautiful, instead of a painted up counterfeiter, by using my beautifying cream. In a few days you'll marvel at the results: your skin will be pure and natural as a Lily. Get one ounce of zincate at the drug store for fifty cents and mix with two tablespoonfuls of glycerine in a pint of water. Your youthful appearance will surprise your friends.—Advertisement

To Remove First Signs of Old Age

"The infallible first sign of age is the sagging cheek muscles," says Mrs. Cavallieri, whose fame as a beauty culturist is scarcely less than that of a songstress. "These are more difficult and serious to treat than wrinkles," she continues. "The sagging muscles indicate they have grown too weak to remain in place; they must be assisted, strengthened."

The best way to strengthen them is by bathing the face in a lotion made by dissolving an ounce of powdered exaltol in a half pint witch hazel. This creates a freer circulation to the parts, besides causing muscles and skin to contract. Saxoline, procurable at every drug store, has long been known by complexion specialists to possess remarkable tonic and astringent properties, valuable in treating flabby tissue and wrinkles.—Advertisement
