

SAYS NO VICTOR WILL RETURN IN GREAT WORLD WAR

Rev. P. D. Vassileff Tells Omaha Ministers Germans Are Far Too Strong for Allies to Conquer.

Rev. F. E. Camp, pastor of the Swedish Evangelical Mission church, was elected president of the Omaha Ministerial union at its meeting Monday morning. Rev. E. B. Taft, pastor of Grace Baptist church, was elected vice president and Rev. A. F. Ernst, pastor of Lowe Avenue Presbyterian church, was elected secretary-treasurer.

The new executive committee is composed of Rev. E. B. Taft, Rev. E. H. Jenks, pastor of the First Presbyterian church, and Rev. G. A. Hulbert, pastor of St. Mary's Avenue Congregational church.

Rev. P. D. Vassileff, Congregational missionary to the immigrants at Ellis island, New York, declared in an address that the great war will end without either side being victorious.

Germans Too Strong.

"The Germans are too strong," he said, "to be beaten. The allies are hampered by having to bring men and supplies great distances."

Mr. Vassileff is a Bulgarian and he declared Bulgaria was forced into the war on the German side.

"The Germans were advancing on Macedonia, where great numbers of Bulgarians live," he said. "Bulgaria had received only promises from the allies. She had to go in with Germany or Germany would have violated her territory. But as soon as the allies have checkmated the German strength, the Bulgarians will turn on Turkey, their old enemy."

Wars to Continue.

Mr. Vassileff further declared that "this will be the last war, only on paper." He said wars will continue. He declared he had made prediction of every move made on the various fronts since the war started.

John L. Kennedy delivered an address at the opening of the meeting on the Liberty bonds.

"If the allies do not win this war," he said, "civilization will be set back for centuries. The time has come when the Christian peoples must stand together to defend the principles of Christianity and humanity against the ruthless forces of might. The government is not asking you to give money, but simply to loan it on the best securities in the world. If you have no money to loan, you can loan the government your credit. And you can push the Liberty bonds in your churches."

HOWARD ADMITS HE WILL BE SENATOR

Lieutenant Governor Declares There Is No Doubt But He Will Be Successor to George W. Norris.

(From a Staff Correspondent.)

Lincoln, Neb., Oct. 15.—(Special.)—Lieutenant Governor Edgar Howard of Columbus says he will be the next United States senator from Nebraska. To The Bee he conveyed this important item of news.

"There is no question about it," said he. "I know it, and when I know a thing it happens just that way."

This is valuable information to the people of the state and especially so to other democratic candidates who may aspire to the nomination for the Washington job. It is important news to Senator George W. Norris, who, it is rumored is undecided whether to be a candidate for another term or retire to private life and practice law in New York.

Others Take Notice.

Therefore I. J. Dunn of Omaha and W. H. Thompson of Grand Island must take notice that they have out-lived the day of grace and slipped a cog, so to speak. Lieutenant Governor Howard announced many weeks ago that he would be a candidate for the senate provided that neither Dunn or Thompson wanted the place. He has waited patiently the next time he might be in a position to veto bills passed by the unwholy combination run by the Mattes-Kohl faction should those two democrats come back next session. However the constitution of the state says that no officer of the executive department shall be eligible to any other state office during the period for which he was elected.

Supreme Court's Views.

The supreme court of the state has decided that the law is a good one and in the case brought by Lieutenant Governor McKelvie some years ago to test his right to run for the office of governor decided that a lieutenant governor could not even resign during his term and be eligible to run for the higher place. Lieutenant Governor Howard was elected for the term beginning January 4, 1917 and ending January 3, 1919. According to the constitution and the ruling of the supreme court he could not be eligible to run for any other state office during that time, the term for which he was elected lieutenant governor.

Therefore it is possible that Governor Howard may have a hunch that he is going to Washington and if he does there is no question but he and the other Nebraska senator will work with the same harmony that has characterized their attitude in Nebraska during the past few years when each one loved the other in a more or less adverse degree.

Lincoln, Oct. 15.—(Special.)—State Game Warden George Koster has been busy with his deputies. William S. Schrinor of Theford thought he could kill ducks out of season. It cost him \$5 and costs to find out.
F. Brooks of Norton, Kan., slipped into Nebraska for a little hunting. He did not get a license, but he got a fine of \$10 and costs, because of his negligence. Deputy Harms was the man with the eagle eye.
H. R. Geuderman, H. Christensen, Paul Colson, F. G. Groves, James Mitchell and Fred Schlecht, all of McCook, were arrested at Culbertson by Deputies Holmes and Moore for hunting without a license and each paid \$8.00 for his experience.

Cramps!

Says Mrs. Frank Hagler, of Carbondale, Ill.: "I was suffering terrible cramps and pains each month. I had used... but it didn't give any permanent relief. The pains came back on me just the same as before... After taking Cardui, I was entirely relieved from the pains and have never been bothered with them since."

Baby Meets Hideous Death When Home Is Consumed by Fire

Nebraska City, Neb., Oct. 15.—(Special Telegram.)—The 1-year-old infant of Mr. and Mrs. Frank B. Gress was burned to death Monday morning, when fire originated in the house from some unknown cause, during the absence of the mother.

On her return home her three young children ran to meet her to tell her her house was on fire. She ran home as fast as she could, but when she reached the house it was a mass of flames.

The baby, 1 year old, had been left in the house with the other children. When the children started to meet their mother they did not take the baby with them and the tot was burned to death.

The neighbors responded to the alarm, but when the fire died down they were unable to find any trace of the child.

Why Woolens Shrink

Learn now for all time how to avoid this shrinking!

Wool differs wholly from all other fabrics. In the choice of your soap product, and in your handling of woolens, lies the secret of safety, of complete success in laundering woolens.

The sensitiveness of wool fiber to alkali, to changes of temperature, and rubbing, are the causes of shrinkage.

Lux will clean them thoroughly without rubbing. Throw the proper amount of Lux into boiling or very hot water, whisk into a lather. Put in the clothes and let them soak for a few minutes; then work them about in the suds to dissolve the dirt. Lux will clean them perfectly without rubbing.

Never iron with hot iron and never rub woolens. It mills or mats them.

Rinse thoroughly in three relays of water of the same temperature as that in which you washed them. Dissolve a little Lux in the last rinsing water—but do not make a lather. This leaves the blankets softer and fluffier. Squeeze out the water without twisting, and dry in the sun.

No matter what soap you use now—see for yourself what a remarkable difference Lux makes. Don't say woolens can't be washed in hot water—try washing them the Lux way. Until you do, you will never believe it possible to get such wonderful Lux soft woolens. Lux will not harm anything that pure water alone will not injure. Lever Bros. Co., Cambridge, Mass.
