

Brief City News

Antism Wedding Rings—Edholm. Lighting Fixtures—Burgess-Nash Co. Have Root Print Co.—New Bacon Press Metal Dies. Presswork—Jubilee Mfg. Co. 35c Luncheon at Empress Garden. Dinner 75c. Paxton Hotel Cheoc-fate Ship, 6 to 8.

Idor Ziegler has moved his law offices to 529 First National Bank building.—Advertisement. Save Fuel—Have your windows and doors equipped with Higgin metal weather strips. The Higgin Mfg. Co., City Nat. Bank Bldg., Douglas 4911.

Ruby Prohaska Freed—Ruby Prohaska was freed from James Prohaska by Judge Leslie, sitting in divorce court. Cruelty was alleged.

Rummage Sale Thursday—The women of the Church of the Covenant will hold a rummage sale Thursday at Twenty-fourth and A streets, South Side.

Visiting Nurses to Meet—The annual meeting of the Visiting Nurses' association will be held Wednesday at 10:30 a. m. at the city hall. All members invited.

To Reduce Xmas Vacation—The Board of Education contemplates reducing the Christmas vacation of Central High school to make up for time now being lost because of lack of heat.

Weaver Sells His Home—Frank L. Weaver of the law firm of Weaver & Miller has sold his residence at 1044 Park avenue to Miles D. Welch and will take a suite in the Idalia apartments, at Forty-third and Dodge.

Hoyt to Lincoln—R. C. Hoyt, clerk of the federal court, has gone to Lincoln to take the place of Colonel John H. McClay, who is on leave. Colonel McClay is going to the grand army cantonment at Vicksburg, Miss.

Found with Whisky—B. H. Saunders was arrested at Fort Crook by agents of the federal bureau of investigation. He had fifty dollars and whisky, which he brought from Kansas City.

Serving for Judge Estelle—Judge W. M. Morning of Lincoln is presiding in the criminal division of district court during the absence of Judge Estelle, whose illness has continued last week. He will take over the docket of appeal liquor cases until Judge Estelle returns to the bench.

William Johns on Trial—William Johns, negro, is on trial before a jury in criminal court. Judge Sears presides in a charge of manslaughter. Johns shot Ely Archer, negro, to death September 3 following a quarrel. He accused Archer of "fooling around his woman." Deputy County Attorney Beckner is prosecuting the case.

Announcement—The James Cort Electric company, who have the largest fixture display in Omaha, are discontinuing the fixture business because they find it impossible to secure new goods on account of the scarcity of material. They have been installing fixtures in the better class of homes. Here is a chance for someone to get real bargains in fixtures.—Adv.

Fined for Toting Gun—Ole Campbell, colored, arraigned in police court on a charge of carrying concealed weapons, was fined \$25 and costs. "General" Scott appeared as the complaining witness and testified that Campbell had called him on the telephone and told him that either the general or his wife would awaken in a decidedly warmer climate Monday morning, "cause I'm comin' ova' armed to the teeth."

SEATTLE WOMAN IS BRUTALLY KILLED

Head Found Some Distance From Body; Recent Series of Mysterious Attacks Baffle the Police.

Seattle, Wash., Oct. 15.—The body of a woman, evidently murdered about three or four months ago, was found today in the brush three quarters of a mile from the Country club road near the city limits of Seattle. Identification was impossible. The head was found some distance from the body.

This crime recalls the mysterious murder last April of Mrs. Florence Wehn, wife of a Seattle sculptor. She was killed by a blow over the head and her body was found in a heap of brush. Her slayer has not yet been brought to justice.

There is a disposition in some quarters to link these two murders with the career of a so-called woman slayer who has been torturing the women of this city for months past.

Faith Hoel, Omaha Newspaper Woman, Dies Early Sunday

Faith Hoel, well known newspaper woman of Omaha, daughter of Mr. and Mrs. Frank J. Hoel, died at her home, 110 South Thirty-fourth street, early Sunday morning.

Miss Hoel's death is believed to have been the culmination of a nervous disorder, from which she has been suffering several months.

She was graduated from the Omaha High school and later attended the State university at Lincoln during the year 1904 and was a member of the Kappa Alpha Theta sorority. Later she attended the University of Chicago. She was 34 years of age.

Miss Hoel was a niece of Katherine Morse, a teacher in the English department in the Omaha High school. Faith Hoel had had a varied newspaper experience, having worked on all three of the Omaha papers. She was one of the organizers of the Omaha Women's Press club, and at one time acted as president of that organization.

The meeting of the Press club, scheduled for Wednesday at the Loyal hotel, has been postponed on account of Miss Hoel's death.

The date of the funeral has not been fixed, but services will be private.

Polish Chicagoans Hold Fete to Honor Kosciusko Chicago, Oct. 15.—A meeting held here tonight by Polish residents of Chicago to celebrate the centennial of Thaddeus Kosciusko, Poland's national hero, was the occasion for the greatest patriotic demonstration ever made by the Poles here. President Wilson, Kosciusko and Paderewski were lauded as the champions of Polish liberty, the latter being one of the principal speakers at the gathering.

Michaelis Departs for German Eastern Front Amsterdam, Oct. 15.—A dispatch received here from Berlin says Dr. Michaelis, the imperial chancellor, has gone to the occupied territory in the

AUTO TIRE FACTORY LOCATES IN OMAHA

Million and Half Dollar Company Organized, with E. H. Sprague of This City at Head.

The Sprague Tire and Rubber company has been incorporated with a capital stock of \$1,500,000, with E. H. Sprague, for nineteen years with the Omaha Rubber company, and most of the time its president, at its head. Its principal business will be the manufacture of automobile tires and tubes.

The location of the factory has not been determined, but undoubtedly the buildings will be erected upon one of the sites under consideration. It is expected that the factory will be completed and in operation inside of a year.

While a full line of tires and tubes will be put out, the company will specialize on "Sprague's Triangle Tread," a tire to which Mr. Sprague has given much attention for a long time.

Outlook for Business. Speaking of the business of the factory and the outlook for the future, Mr. Sprague said:

"At the factory an all day and night service station will be maintained. While the product of the company will be sold throughout the country, yet a special effort will be made to supply tires and tubes to every automobile owner in Omaha. No better tire can be made out of rubber and fabric than we will make. Associated with me will be Mr. Ferns, and Mr. Harding as chemist and superintendent, lately connected with the Firestone company at Akron. Practically all the rubber workers and their families will be brought from the east. About 100 will be required to start with. The cargoes of nearly all steamships from the far east which arrive at San Francisco or Portland are made up largely of rubber and on its way to Akron, pass through Omaha, so we will not have to go out of our way to get rubber."

"Labor is practically the same here as elsewhere, although the manufacture of automobile tires and tubes is mostly piece work, but the one great reduction in price which we will be able to make to the automobile owner is through a co-operative plan of operation."

Law of Love Must Rule To Avoid Future Strife In a lecture by J. T. Eklund on the subject "A World Message" before the Theosophical society in its hall, 701 Bee building, Sunday evening, the speaker called attention to the present world tragedy, and said if humanity would in the future avoid another calamity such as this, it must build on the foundation of the law of love and make the keynote of the future co-operation in the world.

He said if the principal teachings of theosophy could be instilled into the consciousness of man the future of the world would be safe. And so mankind must learn the meaning of the brotherhood of man.

Entire Law School Has Joined Colors Milbank, S. D., Oct. 15.—(Special.)—Earl Farley of Milbank returned to his law school in Nebraska, after the summer vacation, only to find that every other member of his class had enlisted in some branch of the federal service. Young Farley thereupon hastened to St. Paul and enlisted in the marine corps. The class is out of business.

Potato Crop Must Save Germany; Short of Wheat London, Oct. 15.—The Press Association, from a reliable source, publishes an economic review of the condition of the central powers, in the course of which it says that as a result of the special investigation ordered by the German chancellor of the 1917 harvest it is estimated that the yield will be 40 per cent lower than in normal years for wheat, and 45 per cent lower for rye, oats and barley. The total harvest of wheat and rye amounts to 7,500,000 tons; compared to 13,000,000 tons in 1913. The shortage will be partly compensated for the Roumanian granaries.

The reviewer considers that the food situation in Germany during the coming winter will depend mainly on the results of the potato harvest. At present potatoes are being delivered with fair regularity, but should frost, lack of labor or other reason cause a shortage in potatoes, it will spell disaster.

The situation in Austria-Hungary, it is declared, is worse than in Germany.

Doctor Says Nuxated Iron Will Increase Strength of Delicate People 100% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease, or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. S. Sawyer, a Boston physician who has written for this country and in great European medical institutions, said: "If you were to make an actual blood test on all the people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron in their system. The iron which is supplied all the multitude of dangerous symptoms disappear. Without iron from the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. In many cases, it is not until they are nearly dead that they are cured. Some are skinned and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your flagging vital powers for the moment, but do not make the following test. See how long you can work or how far you can

two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were ailing all the time, double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, indigestion and other ailments in ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing to do but to take iron in the proper form. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron does not, as is planned, injure the stomach, but it is a great nerve and muscle builder in the world. The only trouble was that the old forms of inorganic iron like sulphate of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron does not, as is planned, injure the stomach, but it is a great nerve and muscle builder in the world. The only trouble was that the old forms of inorganic iron like sulphate of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron does not, as is planned, injure the stomach, but it is a great nerve and muscle builder in the world. The only trouble was that the old forms of inorganic iron like sulphate of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron does not, as is planned, injure the stomach, but it is a great nerve and muscle builder in the world.
