

# STATE HOSPITAL AT THE MEDICAL SCHOOL DEDICATED

Quarter of Million Structure  
Turned Over and Accepted by  
Chancellor Avery of Ne-  
braska University.

The \$250,000 hospital of the University of Nebraska medical college, Forty-second street and Dewey avenue, was dedicated Tuesday afternoon with exercises held in a tent on the campus, north of the new building.

Regents of the university, members of the legislature, prominent physicians and surgeons were among those on the platform. Dean Cutter of the medical college presided. Chancellor Avery of the university delivered the dedicatory address.

The chancellor paid a tribute to the men who built up the medical school of the university, and especially to those who have done most toward establishing the medical department and hospital in Omaha, these including Regents Miller, Haller, Whitmore and Coupland and Representative Grossman. He also lauded the efforts of Dean Cutter and Representative Hoffmeister.

He took occasion to correct a wrong impression which some people have regarding a hospital that is intended for the care of the indigent sick, saying:

### Purpose of the Hospital.

"The hospital has a dual purpose, it will not only serve the state by building up a stronger and better medical college, but also by operating as a humanitarian agency of the state. And here I digress just a little to correct a misapprehension that exists in the minds of certain people."

"When the hospital building bill was being considered in the legislature, a certain warm, but not well-informed friend of the institution defended it in all seriousness, saying that we needed a place where the 'indigent poor' might be cut up for the benefit of the medical students."

Now, as a matter of fact, the hospital does afford a place where the indigent poor may receive, at the expense of the state, free medical attention and where students under proper supervision may witness delicate pieces of surgical work by the most skillful operators. But it in no sense represents any experimentation by students, or trying out of any new fads. It represents a place where we expect and have a right to expect that the most careful, scientific, technical, skillful medical and surgical work will be performed.

**Maintain Plane of Excellence.**  
"The state of Nebraska can and must maintain this hospital on a plane of excellence that cannot be reached by private enterprise and through private initiative. The object and result of superior medical facilities maintained and operated by the state is better training for students, better treatment for patients."

"I rejoice that the poor man who is sent here from Box Butte, Banner or Cheyenne counties for treatment, will receive in healing, or curing, assistance what a Rothschild or a Vanderbilt with all his millions, could not have attained some twenty-five or fifteen years ago today."

Fred Hoffmeister, a member of the 1915 legislature and who introduced the bill providing for the hospital made the address, presenting the hospital to the state, saying:

"We had a hard fight getting the bill through. Some of the shortsighted members could not see the use of such a hospital. They did not know that Nebraska was behind some other states in this respect. The fight was won and today we have a place where the poor from all over the state can come and receive the best treatment in the world without charge."

**Talks for the Regents.**  
Frank L. Haller, president of the university board of regents, accepted the hospital on behalf of the board of regents, saying:

"I can see an endless procession of poor people going out of this hospital, cured of diseases and returning to the state to be useful productive citizens. That is what the hospital is to do. And it is to be accessible to the people of the remotest county of the state. Such a hospital has been needed for a long time."

"Physicians, surgeons, members of hospital staffs who have inspected this hospital tell us, that we have the most up-to-date and wisely planned institution of its kind in the country."

Dr. C. L. Mullins, president of the Nebraska State Medical association, accepted the hospital on behalf of the medical profession, saying:

"The hospital will have money for the people of the state because it will take care of the indigent sick more cheaply than they can be taken care of at their homes."

State Superintendent of Public Instruction Clemmons, in accepting the hospital for the people of the state, called attention to the fact that is has cost the people only a few cents per capita and that its benefits to the people will continue and grow greater as time passes.

Rev. E. H. Jenks, chaplain, offered the closing prayer and then all those who desired were taken on inspection tours through the building.

### REAVIS DEFENDS CONGRESS IN TALK

Representative From Nebraska  
Says Criticisms of Nation's  
Lawmakers Are Unjust;  
Favors War Prosecution.

(From a Staff Correspondent.)  
Lincoln, Neb., Oct. 17.—(Special.)—Criticisms of congress is unjust, according to Congressman C. F. Reavis of the First Nebraska district, who spoke last night before a large crowd at the monthly dinner of the brotherhood of St. Paul Methodist church in this city.

Mr. Reavis said he had no apology to make for his vote against war when the president declared it against Germany. "I thought of the homes that would be made sad and the bright young men, the best in our land, who would go across the water, some of them never to return," said he. "But when war had been declared I was for the prosecution of the war until peace should be declared, and I have taken that attitude ever since. Criticism of congress is unjust. Our congress has done more in three months in preparing for war than the English Parliament did in eighteen months."

Continuing, he said: "I shall vote for no peace which shall not carry with it the utter dissolution of the German military power of that country. We must prosecute the war until that end is reached and every man must do his part in some way to bring about that end."

**Expenditures Reasonable.**  
He said that no man should criticize congress because of the heavy expenditures. He made comparisons with what other countries had spent and said that greater expenditures were yet to come. He said that perhaps some of the money might be wasted or that perhaps graft might have crept in, but that made no difference, for those things were unimportant in comparison to the great good that would come to the indebted world after the war was over. Every man must do his part. Every individual should place his money where it would help. There must be a loyal and patriotic standing by the president until war is over, for we must win, and it would need the assistance of every man and woman to accomplish that end.

He thought that the war might be over by the middle of next summer. He did not believe that Germany could hold out longer than that time. Certainly not if the American people stood by congress and each one did his or her part.

**Buffalo County Council  
Of Defense Holds Meeting**  
Kearney, Neb., Oct. 17.—(Special.)—The Buffalo county council of defense met last evening with practically every precinct represented. Judge W. D. Oldham, chairman, presided and secured a report on the wheat acreage, corn conditions and an estimated hog census for the county. The estimate on wheat acreage was one-fifth lower than the 1917 acreage, but it will compare well with normal years. Corn, plentiful in the county, was reported in excellent shape with only a few cases of soft corn reported. Hogs will show a falling off of 25 percent, it was estimated. O. G. Smith spoke on fixing the price of pork on the "fourteen to one" ratio.

A series of resolutions were adopted, one of which demanded the resignation of Frank L. Haller as member of the board of regents for alleged authorship of the "Patricia Newcomb" letters. The expulsion of La Follette and other "unhinged traitors" from congress was favored. The school board of Kearney was congratulated for discontinuing German in the city schools and prompt repeal of the Mockett law was recommended. The appointment of Gordon W. Wattles as federal food administrator was endorsed and the naming of Ed McDermott as district food director was also approved. Another meeting will be held the first Monday in November.

**Gasoline Stove Explodes,  
Mother and Children Die**  
Sioux Falls, S. D., Oct. 17.—(Special.)—The explosion of a kerosene stove in the home of Mr. and Mrs. Harry DuMarse, near Veblen, resulted in the death of the mother and two daughters.

DuMarse was filling the stove and had neglected to extinguish the flame. He poured too much of the liquid into the tank, the overflow caught fire and the explosion resulted. The burning liquid was dashed over the members of the family.

The mother and two daughters were terribly burned. The smaller child, 3 years old, died the next morning and the mother and another daughter, aged 7, died a short time later. A triple funeral was held for the victims of the tragedy.

**HAARLEM OIL CAPSULES  
IF YOUR BACK ACHES**

Do you feel tired and "worn-out"? Are you nervous and irritable? Don't sleep well at night? Have a "dragged out" unrefreshed feeling when you get up in the morning? Dizzy spells? Bilious? Bad taste in the mouth, backache, pain or soreness in the loins, and abdomen? Severe distress when urinating, bloody, cloudy urine or sediment? All these indicate gravel or stone in the bladder, or that the poisonous microbes, which are always in your system, have attacked your kidneys.

You should use GOLD MEDAL Haarlem Oil Capsules immediately. The oil soaks gently into the walls and lining of the kidneys, and the little poisonous animal germs, which are causing the inflammation, are immediately attacked and chased out of your system without inconvenience or pain.

Do not delay a minute. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Haarlem Oil Capsules. In 24 hours you will feel renewed health and vigor. After you have cured yourself, continue to take one or two Capsules each day so as to keep in first-class condition, and ward off the danger of future attack. Money refunded if they do not help you. Ask for the original imported GOLD MEDAL brand, and thus be sure of getting the genuine.—Advertisement.
