## The New Nemo Marvelace

A Corset That Is Adjusted in Front, and  
Yet Differs From All Front-Laced Corsets!

The main difference is that the front-steels are at the  
exact center of the Corset, where they are required for correct  
hygienic support.

The lacing device is at the side-front and extends only  
slightly below the waist-line. It is very easily and quickly  
adjusted.

The Nemo Marvelace is a part of  
the Wonderlift system. The great  
style and health value of the Won-  
derlift Bandlet is so well known  
that it needs no detailed descrip-  
tion.

The Nemo Marvelace-Wonderlift  
is another Corset designed to "keep  
healthy women healthy"—and  
stylish, too!
