## PRESBYTERIANS ASK MONEY FOR MISSIONS

**Churches of Nebraska Asked for Twenty-Five Thousand Dollars to Expend in Home Fields.**

At the Friday morning session of the Nebraska synod of the Presbyterian church the churches of the state were asked to raise \$25,000 during the coming year for home missions. This is practically double the amount raised last year. More than 1,000 people have been brought into the church during the last year through the home missions, it was said. W. H. Kearns was re-elected superintendent of the missions in Nebraska.

The afternoon was given over to a study of the reports of Hastings and Bellevue colleges, Omaha university and the Omaha Theological seminary. Dr. C. F. Wichart, pastor of the Second Presbyterian church of Chicago, spoke last night on "The New Educational Program," defending America in the war.

This morning Rev. Mr. Caughey will lead the synod in special prayer for the president, the nation, the boys of Nebraska in the army, for the allies and even for the enemies, that their minds may be opened to liberty.

This afternoon the delegates will be taken to Bellevue college in automobiles. They will be guests of the college at luncheon, after which they will inspect the buildings.

G. W. Wattles will address the synod tonight on "Food Conservation" and Rev. Edwin Hart Jenks will speak on "Spiritual Result of the War."

Rev. Ralph H. Houseman, for six years superintendent of religious education in the synod, tendered his resignation.

## Candy Makers Cut Out Overtime To Help Government Save Sugar

Omaha and Council Bluffs candy manufacturers have decided to conform to the request of the food administration to cut down on the manufacture of candy, and at a meeting decided to eliminate all overtime and to discontinue certain makes of candy in order to conserve sugar.

The following statement was issued by the Omaha candy manufacturers: "In order to conserve the sugar supply the food administration at Washington is asking for a considerable decrease in the production of candy. To meet this request the candymakers have decided to discon-

tinue all overtime and also to cut out a number of items."

Washington, Oct. 20.—As a preliminary step for conservation of sugar against a further shortage the food administration today sent out a telegram urging reduction of sales to candy manufacturers. The warning was sent to all the sugar distributing agencies of the country, notably the American refiners' committee of New York and the sugar distributing committee of Chicago, which handle cane and beet sugar, respectively.

"We consider it essential," the telegram read, "to reduce consistently the sales of sugar for production of candy. Must be reduced in order to provide for household and allied needs. This request applies to manufacturers of guns, cordials, syrups and luxuries. Manufacturers of food products should have preference, condensed milk companies coming first."

Chicago, Oct. 20.—Formal warning was issued here this afternoon on instructions from the office of Food Administrator Hoover that a sugar famine is upon the country and that

the moment of America's first self-denial in the matter of food has arrived.

The warning states that manufacturers using sugar in their products are closing down and that thousands of persons are threatened with temporary loss of employment. Individuals as well as dealers are called upon to do with the absolute minimum of the product. It was announced that as the Atlantic states have the greatest scarcity, that beet sugar from the west will be rushed first to that section.
