

More Than Three Billions of Dollars Must be Subscribed This Week

FINAL DRIVE IN LIBERTY BOND CAMPAIGN IS ON WITH BIG DEFICIT IN MANY DISTRICTS

More Than Half Billion Dollars Must be Reported Every Day in Order to Bring Total Up to Maximum of Five Billions; Climax Will Be Reached Wednesday.

(By Associated Press.)

Washington, Oct. 22.—The final week of the Liberty loan campaign began today with workers throughout the country redoubling their efforts to obtain the \$5,000,000,000 maximum. To reach this figure about \$3,250,000,000 will have to be raised between now and the close of business on Saturday night. This means that subscriptions must come in at the rate of more than \$541,000,000 a day.

APATHY HAMPERS.
The closing week of the campaign is being hampered by apathy on the part of certain rural communities in the middle west and south and by reports of deliberate efforts on the part of the Treasury department to misrepresent the returns appear less than the figures actually show. The department has called attention to these returns and issued an emphatic denial, adding that only the actual figures had been given out.

The campaign will probably reach its climax on Wednesday, proclaimed Liberty day by President Wilson, when nationwide celebrations will be held. It is expected to prove a banner day in subscriptions to the loan.

GIVE LATEST FIGURES.
The policy of the department throughout the campaign has been to publish the latest official figures at regular intervals as reported by the different federal reserve banks and to make public without change estimates forwarded to Washington by heads of the various district committees, reads the Treasury department's statement of last night.

Committee chairmen throughout the country have been asked to base their estimates on what they know to be the facts and insofar as is known at the department they have done so.

One Billion Short.
The situation tonight, therefore, according to the best information that the department possesses, is that the total amount subscribed to date is about \$1,000,000,000 short of the minimum and \$3,000,000,000 short of the maximum quotas set for the country by Secretary McAdoo at the outset of the campaign. He insisted that \$3,000,000,000 in bonds be sold and it was his expressed hope that the \$5,000,000,000 mark would be reached.

Vigorous efforts will be made in every district between tomorrow morning and next Saturday noon to raise the \$5,000,000,000 total. The \$3,000,000,000 mark is being lost sight of in the fight for the higher figure.

Don't Please Germans.
"One of the strongest arguments to be used in the closing days of the campaign will be the figures for the seventh German war loan, just made public.

"After more than three years of war and with a casualty list estimated at 8,500,000 persons, the German people, exclusive of soldiers, have subscribed \$3,107,500,000 to a loan. Nothing would give the Kaiser and all other enemies of this country more pleasure, it will be pointed out, than for the people of the United States to fail to subscribe a greater amount than this to the second Liberty loan, when they have had only one previous loan, and virtually no casualties."

Germany Aid New York.
New York, Oct. 22.—Two thousand men, women and children of German birth or descent, grouped around the Carl Schurz monument in Central park Sunday, reaffirmed their allegiance to the United States and pledged themselves to aid to the end in waging war against "the enemies of liberty and freedom."

In Chicago District.
Chicago, Oct. 22.—Total subscriptions to the Liberty loan are \$179,438,000 for the Seventh federal reserve district, Secretary A. W. Bullard of the executive committee in charge of the "drive" announced last night. This amount has been reported from approximately 5,500 banks, who estimated the total, including amounts reported by county chairmen, but not actually recorded, as \$225,000,000. The latest tabulation for the district shows Cook county has 51,489 subscribers to the bonds for a total of \$74,480,450; in Illinois outside of Cook county, 23,342 persons bought \$13,992,050 worth of bonds and in Iowa 28,204 persons subscribed for \$11,893,500.

I. W. W.'s Threaten Judge and San Francisco Lawyer

San Francisco, Oct. 22.—Threats of death "by poison or dynamite" were on postal cards received today by United States Circuit Judge W. W. Morrow and Otto Irving Wise, an attorney in charge of arrangements for a public banquet tomorrow night to Representative Julius Kahn. The cards were turned over to the postal authorities for investigation.

Thirty-Day Sentence For Obstructing the Draft

New York, Oct. 22.—Thirty days each in the penitentiary was the sentence imposed today by Federal Judge Ervin upon Edward R. Cheyney, son of a professor in the University of Pennsylvania, and Lewis C. Fraina, convicted of a conspiracy to obstruct the selective draft law. The limit for the offense is two years, but Judge Ervin said he had taken the youth of the prisoners into account. They were arrested while participating in an alleged anti-draft meeting. Their counsel gave notice he would appeal and their bail was continued.

Two Million Persons at Work Today Selling Liberty Bonds

Washington, Oct. 22.—Two million men, women and children were working today throughout the nation, the Treasury department announced, in a great endeavor to bring the Liberty loan to a close next Saturday night with \$5,000,000,000 in subscriptions. "Probably slightly more than \$2,000,000,000 now has been subscribed," says the Treasury department's daily statement.

The men's sales forces alone, it is estimated, totals 600,000 men. The Boy Scouts, engaged in a vigorous five-day campaign, number 300,000. At least 100,000 others are women workers. The second million is composed of speakers, clergymen, writers and school children. It is an army of all ages and all nationalities.

Should Sell Two Bonds a Day.
If the activities of each bond soldier result of the sale of two \$50 bonds every day of the six remaining days of the campaign, the subscriptions can be run above \$4,000,000,000, or \$1,000,000,000 higher than the minimum named at the outset of the sale, and \$1,000,000,000 lower than the maximum quota desired.

Officials were counting on great results from the appeal to workmen made by President Gompers of the American Federation of Labor. "The world is engaged in a life and death struggle to determine whether imperialism and autocracy or freedom and democracy shall prevail," said Mr. Gompers. "The United States and its allies are contending for the latter. The man power and the wealth of our country are pledged to make that contention good."

Must Meet Needs With Money.
"Many of our men are in France. Others are being prepared to go over there, offering the supreme sacrifice, if necessary, in defense of the great principles for which the democracies of the world are fighting. It behooves every man and every woman to furnish the means by which all the needs of our fighting forces shall be supplied and the only way that these needs can be met is by money."

"The government of the United States has issued a new Liberty loan bond. It is by all means the safest investment which can be made. The wealth and the honor of the government of the people of the United States are behind it. In addition, there

TODAY'S BEAUTY HINTS
It is not necessary to shampoo your hair so frequently if it is entirely and properly cleansed each time by the use of a really good shampoo. The easiest to use and quickest drying shampoo that we can recommend to our readers is one that brings out all the natural beauty of the hair and may be enjoyed at very little expense, by dissolving a teaspoonful of cantharox, which can be obtained from any druggist, in a cup of hot water. This makes a full cup of a shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothing and cooling in its action, as well as beneficial to both scalp and hair. After rinsing out the lather so created, you will find the scalp is fresh, clean and free from dandruff, while the hair dries quickly and evenly, developing a bright luster and a soft fluffiness that makes it seem very heavy.—Advertisement.

BELL-ANS Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

BREAD AND POTATOES BULK GERMAN FOOD

German Food Committee Issues Censored Report of Food Conditions for Coming Year.

(By Associated Press.)
Copenhagen, Oct. 21.—A strongly censored report of the discussion of food conditions by the budget committee of the Prussian Diet, shows that except for the potato crop, which promises to be satisfactory, the food situation is by no means as rosy as the government has been trying to paint it. The grain situation is such that only hope, not certainty, could be expressed that the bread supply will last the entire year, and in any case the quality of the bread for which flour is now milled to 94 per cent of the grain, must be decreased. Conditions have not permitted improvement of the flour by less exhaustive milling.

Bread and potatoes will be the bulk of the ration, as the meat allowance will almost certainly be reduced. Milk and butter will be available even in scantier amounts than now, when infants' milk allowance has had to be reduced.

Advices from Budapest say that the prospects for the passage of the cabinet's franchise reform bill are slight owing to the adverse attitude of Count Andrassy, who has sent a memorial to the king and against the measure. The Wekerle cabinet, whose fate is bound up in that of the measure, is thereby placed in a critical position.

Socialist Party Expresses Sympathy With Assassins

Vienna, Oct. 21.—The Austrian socialist party's conference opened here today with a speech by Secretary Skaret, who emphasized the lasting effect that the Russian revolution would have on the working classes. A resolution was unanimously carried expressing sympathy with Dr. Fridrich Alder, the assassin of the late Austrian premier, Stuergh, who is now serving an 18-year sentence.

U. S. MUST SUPPLY ENGLAND'S SUGAR

British Commission Arrives to Make Arrangements With Food Administrator Hoover For Shipments.

An Atlantic Port, Oct. 22.—A British commission arrived here today to ascertain whether England may expect to depend on the United States for sugar.

The visitors, Sir Joseph White Todd and John R. Drake, representing the British food commission, will confer with Food Administrator Hoover in Washington. They were met at the pier by bankers and representatives of sugar firms. Sir Joseph said England had reduced its consumption of sugar more than 30 per cent, as compared with normal times, and that wholesalers are allotted only 50 per cent of their requirements. He added that 25 per cent of England's sugar imports has been wasted.

American Wholesaler Butter Price Lower

Washington, Oct. 22.—That the United States is better off by 10 cents a pound than England in the wholesale prices of butter is shown by a food administration statement giving the average wholesale price for September in this country as 40 cents per pound, against 53 cents regulated wholesale price in England. The average retail price in this country was 50 cents. The English retail price was not given.

The average wholesale price of cheese in the United States during September was almost 26 cents per pound, against 38 cents per pound in England. The average retail price in this country was 36 cents.

THOMPSON, BELDEN & CO.
The Fashion Center for Women

Your Subscription to the Liberty Loan is Necessary. Buy a Bond

FURS
Rich pelts that are decidedly smart and fashionable. Likewise warm and really comfortable these days when the first cold winds come down upon us.
Foxes, Hudson Seal, Marten, Mink, Mole Skin, Kolinsky.
All favored for winter. All Thompson-Belden furs are rightly named and fairly priced.
They are dependable.

New Coats Tailored Styles
For warmth, Good looks, Newness of style And reasonable Price
These coats are U-N-U-S-U-A-L For \$35. No extra charge For alterations.

Viyella Flannels
A quality that is positively non-shrinkable and has no equal for shirts, waists, dresses and pajamas; medium and dark styles, also plain shades, 32-inch, \$1.25 yard. Basement.

Flare Top Hosiery
Black cotton and lisle, 50c. Silk lisle, 75c a pair.
For women who require an extra width, flare top are best. They stay up, fit snug, do not bind.

A MIGHTY-ACHIEVEMENT
Removes Mountain Barriers—Conserves Earth's Treasures

MIGHTY indeed—for not alone has the C. M. & St. P. Ry., by its electrification across the Continental Divide (now being extended through the Cascade Range) leveled the mountains as a barrier to transportation—but has also released great stores of earth's treasured energy for other much needed purposes.

By utilizing the hitherto wasted power of mountain waterfalls to move the heavy steel trains across the mountains of the Northwest, there is conserved annually over a quarter of a million tons of coal, over a half million barrels of oil, and the thousands of cars necessary to transport this fuel are freed to serve other pressing needs of transportation.

In this world crisis, when every resource of the nation is taxed to its utmost, the C. M. & St. P. Ry. achievement takes on extreme importance.

When next you journey to the cities of the Pacific Northwest travel the smooth, smokeless, cinderless electric way—via the
