WORKS OF ART AT PUBLIC LIBRARY

Under the Auspices of Local Societies, the Work of Many Famous Artists Is Displayed.

At the informal opening of the newly decorated and enlarged art gallery on the third floor of the city library, held by the Friends of Art and the Fine Arts society Sunday afternoon, art lovers of Omaha discovered that the city has a gallery and a collection of paintings of which they may be proud.

"We have combined our resources so that by hanging the paintings belonging to the Fine Arts society and the Friends of Art with those already in the library we have an exhibition of some 400 pictures," said John Webster, secretary of the Friends of Art.

Forty-five paintings, many of them by famous artists, are excellently displayed and lighted. The new main gray background with which the walls have been decorated sets off the paintings to the best advantage. A portrait interior by Herman Richir, a Belgian artist, last heard from in his native country, is one of the features of the exhibit. The picture, entitled "Un Regard Dans Le Passe," is that of a young woman in a reverie at sunset, near the window of her boudoir, and is rendered with very delicate and colorful effects. This painting was purchased by the Friends of Art last spring when it was exhibited in the Auditorium. The artist was in Belgium and was willing to dispose of it at a figure within the means of the Omaha Society. "We would not take five times the amount for it now," said Mr. Webster. "It improves with acquaintance."

Sixteen Widely Known Women on Committee

Washington, Oct. 22.—Sixteen prominent women were named by Secretary Daniels tonight to form the woman's advisory committee on navy auxiliaries to the Red Cross war council, which will supervise the work of all the local auxiliaries through which the Red Cross has undertaken to conduct comfort and relief work for the navy. NO MORE FOOT MISERY

A NEW DISCOVERY STOPS SORENESS AND CORNS FALL OFF. Just a touch or two with Ice-mint and your corns and foot troubles are ended. It takes the soreness right out, then the corn or callous shrivels and lifts off. No matter what you have tried or how many times you have been disappointed, here is a real help for you at last. You will never have to cut a corn plaster or bother with bungling tape or ointments. Hard corns, soft corns or corns between the toes, just shrivel up and lift off so easy. It's wonderful. You feel no pain or soreness when applying Ice-mint or afterwards. It doesn't even irritate the skin. This new discovery, made from a Japanese product, is certainly magical, the way it draws out inflammation from a pair of swollen, burning, aching feet. Ice-mint imparts such a delightful cooling, soothing feeling to the feet that it just makes you stich with relief. It is the real Japanese secret for fine, healthy, little feet. It is greatly appreciated by women who wear high heel shoes. It absolutely prevents foot odors and keeps them sweet and comfortable. It costs little and will give you poor, tired, suffering, swollen feet the treat of their lives. Sold strictly recommended by good druggists everywhere.—Advertisement.

SOUTH SIDE AUTO HITS CHILD; DRIVER ARRESTED

A NEW VAMPIRE. Noah Webster says a "vampire" is "a fabulous ghostly being that sucks the blood of the living when they are sleeping," which from a practical-day experience to be a pretty accurate description of the gas meter.

Killing said a vampire was "a rag and a bone and a pair of big, murky, dark, dank and desperate eyes. Yet Gladys Rockwell, in William Fox's great human story, "The Honor System," is a fascinating vampire and none of these things. See this picture at the Besse tonight.—Adv.

Awful Winter Due, Says O. I.; Signs All Point to Blizzards

May Have to Splice Thermometers to See How Far Down Mercury Will Go, He Intimates.

The open season for hard winter predictions opened yesterday. "It's going to be worse than the winter of 'eighty—," said the Oldest Inhabitant. "The muskrats has built their houses clean out of the water and the hair on the range horses is a foot long already," he declared, shaking his head wisely.

As though to bear out O. I.'s contention the weather forecast is for a cold wave due here Monday.

"The feathers on the ducks is thicker this year than I ever seen 'em." O. I. plucked at his beard. "Don't tell me; I know! Ain't the crows all gone? Ain't the birds lunched up earlier than ever before? Ain't the squirrels put up more'n twice as many nuts as usual? Didn't we have a unusually early freeze?"

Oldest Inhabitant groaned dismally and peered off into the north where bunches of white clouds hung like cotton bobs strung on a trick wire in the sky.

Another sign of a hard winter in Omaha is the remarkable tenderness of wives, who lack furs, toward their husbands of late, the hints of coal shortage, and the general influx into hotels and apartment houses.

"If I just had the money I lost by not buying Omaha lots 30 years ago, I'd go to California," sighed the O. I. as he turned to go.

"Do you think the war has got anything to do with it?" he was asked. "Wal—damfino!" he answered.

You Can Tell the People Who Have Iron in Their Blood - Strong, Healthy, Vigorous Folks

after they had in some cases been doctoring for months without any benefit. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary suzated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. There is nothing like good old iron to put color in your cheeks and sound, healthy flesh on your bones. But you must take iron in a form that can be easily absorbed and assimilated, like suzated iron, if you want it to do you any good, otherwise it may prove worse than useless. NOTE.—Suzated Iron, recommended above by Dr. E. Sauer, is one of the newer organic compounds. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, rundown conditions. The manufacturers have such great confidence in Suzated Iron that they offer to forfeit \$100,000 in ten days' time if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your endurance and entirely get rid of every sign of dyspepsia, liver and other trouble in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without any benefit.
