

# WOMAN'S SECTION OF THE BEE

CONDUCTED BY ADELAIDE KENNERLY, EDITOR AND ELLA FLEISHMAN, ASS'T EDITOR

## Society

By MELLIFICIA—Oct. 25.

### Knitting Antidote for Dissension.

I have heard that knitting was good for nerves, that it was a sure cure for the "blues," but the latest virtue that has been ascribed to it is that it maintains peace at women's club meetings. This is very noticeable at the Nebraska Federation of Women's Clubs' convention, now in session. Nearly every woman is industriously plying her fingers during the programs, and behold, there is no arguing or dissension. Why? Because if one should stop to discuss a point and thereby lose her mental poise the result would be a misshapen sweater or muffler, which would face one accusingly.

A prominent club woman who is a devotee of knitting, says: "When you knit you cannot allow yourself to become provoked. Many women merely quarrel at a convention because they are nervous. Occupying the hands relieves stored-up energy, which always seeks an outlet. At conventions, heated discussions are often the only outlet."

### Birth Announcement.

A son, Otto George, jr., was born to Mr. and Mrs. Otto G. Gramlich on Wednesday at Miss Stewart's hospital. Mrs. Gramlich was Miss Nell Welch of this city.

### Dr. Henry Will Lecture.

Dr. E. C. Henry will lecture on the topic, "Surgical Emergencies at the Front" on Friday evening in the council chamber of the city hall.

### Miss Storz Entertains.

Miss Elsie Storz will entertain at luncheon at the Blackstone on Monday.

### Card Party.

Miss Edythe Petersen entertained at a card party at her home on Wednesday. The guests included: Mesdames—A. J. Petersen, Jack Ellsasser, S. Sullivan, Misses—Father Norden, Edythe Petersen, Irene Delahanty, Mesdames—Ernest Norden, Nutsinger, O. H. Koch.

### War Relief Bridge.

A new war relief club, which has been meeting every Monday at the homes of the members and making body binders, announces a benefit bridge party which will be given at the home of Mrs. J. S. Brady on Thursday, November 1. Prizes will be given and there will also be a o'clock tea. The proceeds of the affair will go to fill 100 Christmas packages for the boys in France. Tickets are \$1.

The members of this little club are: Mesdames—Samuel Burns, W. Z. Swobe, A. G. Meyer, Samuel Caldwell, Thomas L. Davis, Eva Wallace, Gerald Wharton, Mesdames—Willard Hoerford, D. C. Bradford, Alvin Johnson, Frank Wilson, T. P. Kennedy, Miss Beulah Sharpe.

### Balloon Students Entertained.

Mrs. George A. Joslyn entertained for fifteen of the balloon school students at her home on Wednesday evening. An organ recital was given and dancing and bowling occupied the rest of the evening. Among the young women who were present were: Misses—Marie Richardson, Hazel Updell, Mrs. Sanford Gifford.

### Meeting Postponed.

The Sacred Heart alumnae, who have previously held their meeting on October 20, have postponed it until November. The exact date will be announced later.

### For Nurses' Club.

The Nurses' Central club will give a benefit theater party Tuesday, October 30, at the Brandeis. The entire theater has been reserved and tickets for the performance may be had at the club rooms, 2420 Harney street. The proceeds will go to the club.

## PERSONALS

Mrs. Leon Strawhecker, who underwent an operation last Saturday at the Wise Memorial hospital, is improving.

Mrs. Roy Merick of Grand Island, who has been visiting her parents, Mr. and Mrs. James Wilson, will spend the week-end with her sister, Mrs. A. M. Carlyle, of Sac City, Ia.

Mr. Hubert K. Owen has been ordered to report at Fort Omaha to join the training school for balloon officers. He reported for duty at once.

Miss Helene Rubel of Minneapolis is the guest of Miss Erna Kirshbraun. Miss Rubel will later visit her aunt and grandmother, Mrs. Alexander Pollack, and Mrs. Charles Elguter.

### The Popular Carryall

A carry-all bag, to take along when one shops or markets, so that you may carry home the little packages, is a true economy. This saves waste in the store and an economy of time, for you don't have to wait for delivery.

Here is a good old-fashioned dessert for the peach season. Choose firm, ripe peaches, peel, and put them in a baking dish with plenty of sugar over them, set them over the fire, where they may simmer until the syrup is very rich. Mix together two tablespoons of sugar, a pinch of salt, one egg and beat well; then stir in one cup of sweet milk and enough flour, which has been sifted with baking powder in the proportion of one teaspoon to each cup of flour, to make a stiff batter. Melt a piece of butter, the size of an egg, and add. Pour the batter over the peaches and bake in the oven for about twenty minutes.

### Woman Fears Canned Goods Would Be Taken From Her

The extent to which stories by German agents have spread is related by the principal of an Omaha school. An eighth grade girl of foreign parentage was given a food conservation card to take home for her mother to sign. The mother had heard that the government was using that method in order to ascertain what amount of foodstuffs was on hand in each house-

## Dinner is Served

By GERTRUDE BERESFORD.

ONE is reconciled to the threat of the bustle when it takes the lovely line of drapery found in this dinner gown of pink and silver. Simplicity is the keynote of this frock, yet artful, indeed, is the draped skirt embroidered in silver motifs. The corsage, plain, as the proverbial pipe stem, gives the perfect outline to the figure. The neck is softened against the flesh with a flat fold of mousseline. A becoming decollete is obtained by the softly folded collar which falls to the shoulder points, where it meets the sleeve, which by its next-to-nothingness proves that beauty unadorned is yet adorned the most. A scarf of pale lavender net gives another note of dawn to the pink and silver tints of this gown, and justifies its name, "Aurora."

## How About That Third Breakfast Cup of Coffee?

In the matter of cutting down the daily food consumption to a reasonable minimum, why not begin with coffee? Although coffee is a true stimulant, it is essentially a drug and has in itself no food value. Its effects in the main are due to an alkaloid, caffeine, which, it is believed, is a heart stimulant.

In a sound, healthy individual, doses of caffeine equivalent to that obtained from one cup of strong coffee produce no noticeable effect except a slight nervousness. Doses equivalent to one and one-half cups produce marked unsteadiness in muscular and mental work. Doses sufficient to produce any real stimulative effect raise the blood pressure, sometimes dangerously, and stimulate the action of the kidneys in a manner considered by physicians to be harmful.—Popular Science Monthly for November.

## Soliloquy of Modern Eve

Like everything else, love and friendship have a price; are you willing to pay that price that you may be sure someone is thinking of you tonight

ADELAIDE KENNERLY.

Just to know that someone thinks of you tonight! Just to feel sure that someone wants you near them! Ah, yes! To know that someone thinks you worth while is balm to an aching heart.

But have you lived so that someone is sure to be thinking of you even though in a distant country?

Have you left an impression that is bound to be good and lasting so that the mere waters of human life cannot wash it away from the shores of memory?

Good friends are not happenos. They are not handed down to you just for the taking.

Flowers never grow without a seed to start them. A rose never blooms without encouragement.

And to give your confidence, friends must first have confidence in you.

Friendship springs from a mutual understanding of truthfulness, faith, and comprehension. It cannot thrive on deceit, treachery and broken faith.

If you lose your friends do not blame the friends but take inventory of yourself—and learn the cause.

It is a great consolation, to be sure, to know that someone thinks of you tonight—to know that someone would welcome you with a genuine warmth. But friendship and love are big points in the Game of Life and they must be fairly won.

Like everything else they have a price. That price is not gold, nor jewels, but true friendship in return. Are you willing to pay the price that you may be sure someone is thinking of you tonight?

hold and that one-third would be confiscated by the authorities.

The woman believed the story, but signed the card, and then proceeded to spend all that night in weeping over the belief that she would be deprived of the proceeds of her canning industry. The mistake was later explained to her.

### Cornmeal Muffins

All those who like corn meal muffins will please stand up. Unanimous! Today's bulletin from the National Emergency Food Garden commission, co-operating with this newspaper to conserve the nation's food supply, offers the following recipes for corn muffins:

3/4 cup cooked corn meal mush.  
3/4 cup sifted wheat flour.  
1/2 teaspoon salt.  
1 teaspoon baking powder.  
1 tablespoon sugar.  
1 egg.  
1 tablespoon shortening.  
Liquid to make a rather stiff batter (about 3/4 cup).  
All measurements are level full. Sift together the flour, salt, sugar and baking powder twice. Beat the egg until light and add to the cool corn meal mush. Next add the melted shortening, then the flour mixture, alternating with portions of the liquid, until a batter is formed somewhat stiffer than for ordinary flour muffins. Drop by the spoonfuls into greased muffin pans until half filled and bake 20 to 25 minutes in a fairly hot oven.

To preserve children's first teeth from decay, wash them with lukewarm water containing a little borax directly after each meal.

Safe Milk for Infants and Invalids. HORLICK'S THE ORIGINAL MALTED MILK. Rich milk, malted grain, in powder form. For infants, invalids and growing children. Pure nutrition, upbuilding the whole body. Invigorates nursing mothers and the aged. More nutritious than tea, coffee, etc. Instantly prepared. Requires no cooking. Substitutes Cost YOU Same Price.

## STOP, LOOK AND LISTEN TO

Women in Politics and Drivers of Autos Lose Their "Motherhood"

## WHAT MAN SAYS OF WOMEN

The following letter needs no comment. There could be but one reason for the author's effort.

"Mr. Editor: Kindly publish this in your newspaper as it pleases you.

"By Woman was Eden lost and man cursed!

"If you trust her, give up all hope of heaven!

"She cannot love because she is too selfish. She may have a fancy but that is flattery. Her smiles are deceit. Her vows are traced in the sand. She is a thread of candor, with a web of wiles.

"Her charity is hypocrisy. She is deception every way, hair, teeth, complexion, heart, tongue and all.

"Regarding matrimony, I would not have a United States suffragist in my presence for all the world. She is the most headstrong, stubborn and selfish woman in the world.

"It is the United States government's duty to drive her home and compel her to take care of the house and the children where she belongs.

"Any feminine entering politics, filling offices, driving automobiles, lose their motherhood. Any man who does not defy that evil loses his manhood. Woman suffrage is a crime against the Bible and against nature. Any woman who does not take care of the home, but otherwise enters politics, belongs to jail.

"The Bible demands women to be in submission to man.

"American men worship women as a god. I am not going that crazy yet. I worship the God in Heaven as my God.

"That woman—picture on the coin—is an unnatural idea.

"If a woman becomes mayor, governor or president of the United States I will flee from the country.

"DOWN WITH WOMAN SUFFRAGE—THAT GOD FORSAKEN EVIL.

"Signed, HANS P. PETERSON, 1616 Chicago Street, Omaha."

### How Important Are

### Wives in Business?

Dayton, O., Oct. 24.—"How important a factor is a man's wife in his success as a money-maker?"

John H. Patterson, president of the National Cash Register company, intends to know exactly—and he is looking for the answer in dollars and cents. He is experimenting along original lines with his entire sales force.

His plan is of interest not only to the men and women directly affected, but it promises to have far-reaching results. Already big business men are writing for particulars and it goes without saying that women interested in the advancement of the sex regard the Dayton experiment as of great significance for its wide recognition of woman's influence in a business way.

The experiment had its beginning last week, when more than 500 wives of sales agents and salesmen of the National Cash Register company were brought here from all over the United States and Canada for a business convention. It was exclusively a woman's affair, the husbands remaining home attending to their regular work.

Learning Business Secrets.

In a series of morning, afternoon and night sessions the wives were let into the secrets of the cash register business. They were told all about the company's policy, methods of selling and profits on sales. They were taken through the factory to learn how cash registers are produced. They were informed of the usefulness of the cash register and the problems with which salesmen have to deal. And they were instructed how to assist their husbands in becoming better salesmen.

Now that the wives know something about the business from which the family income is derived, it is predicted that they will not be satisfied if their husbands do not earn more money.

In speaking of the project, Mr. Patterson said:

"This is my pet convention and I believe it is the forerunner of a great change in the position of a wife with relation to her husband's business.

"I believe in woman suffrage. I believe in woman's rights. I believe that it is highly important not only to business, but to all the affairs of life, that women shall have a larger part in our daily activities.

"She is taking her rightful place in

life, and there is plenty of work for her to do.

"Our convention of the wives of the salesmen themselves was a great success—far beyond our expectations. We talked to these wives just as we would talk to their husbands. And we believe the results will be a vast increase in the selling efficiency of every man whose wife was here."

### Cornmeal Cookies

1 1/2 cups sifted wheat flour.  
1 1/2 cups fine corn meal.  
1 teaspoon salt.  
2 teaspoons baking powder.  
1 cup sugar.  
3 tablespoons butter.  
1 egg.  
1 teaspoon vanilla extract.  
Milk enough to mix (about 3/4 cup).  
Sift the salt and baking powder with the flour. Cream together the butter and sugar, add the well beaten egg, then the vanilla and finally the flour and milk. Use enough milk to make a dough of such consistency that it can be rolled on the board. Turn onto a floured board, roll thin, and cut with a biscuit cutter. Place in shallow tins lightly greased, and bake in a fairly hot oven until delicate brown (about ten minutes).

There is No Necessity or Room For Argument

with any one who comes into a store and makes the statement that a Charter Oak Stove or Range is wanted.

Charter Oak's are recommended to each succeeding generation by grand-mothers and mothers, and this fact creates a demand which cannot be diverted and which accounts for their ever increasing sale.

Only genuine merit can maintain, as the Charter Oak has,
