

## HOOVER PLEASSED WITH OMAHA MEET TO BOOST SAVING

Food Administrator Sends Telegram of Congratulation on Conservation Meeting at Boyd Theater.

Food Administrator Hoover has telegraphed to G. W. Wattles congratulations on the big conservation pledge card meeting held at the Boyd theater Thursday as follows: "It is with pleasing surprise that I have learned of the meeting held in Omaha by your splendid organization to further the work of enrollment campaign for food conservation. The importance of food substitution to insure a sufficient supply of fats, sugar and wheat to meet the needs of our army and our allies cannot be overestimated. There is a world shortage in these vital necessities that can be met only through the elimination of waste and the intelligent substitution of other articles of diet so far as substitution is possible. The willingness of your organization to engage in the educational campaign for food conservation is generally evidence that our citizens are prepared to meet the perplexing problems of war through the volunteer agencies of democracy. There should be no anxiety in the minds of our loyal soldiers at the front with reference to the ability of those at home to insure an adequate supply of food for their comfort and fighting efficiency. The same holds true with reference to our allies, who must be sustained by us until our soldiers are properly trained to meet the rigors of war. Unless we meet the food problem as becomes the citizens of a great democracy our failure may be responsible for the unnecessary sacrifice of our heroic soldiers, to whom we owe our loyal support. It is my earnest hope that through your perfected organization and other volunteer agencies the enrollment campaign in Nebraska may be a great success."

## Wives of Absent Soldiers Taken In Raids on Cabarets

Chicago, Oct. 26.—The problem of protecting the wives of men in the military service of the United States from the influence of the cabarets confronts federal authorities today. Seventy per cent of the women arrested in raids, according to Judge Uhlir of the morals court, are married and many are wives of soldiers who have gone to the front. Because of these conditions the government has been asked to assist in devising some way by which soldiers may be guaranteed that their wives will be protected from these influences while away.

## Promises Relief From Sugar Famine In Next 15 Days

New York, Oct. 26.—Relief from the acute sugar shortage in New York within the next 15 days is promised by B. A. Rolph, chairman of the sugar division of the federal food division. Mr. Rolph said the price of granulated sugar would be 8½ to 9 cents a pound. Coincident with Mr. Rolph's announcement, Henry Moskowitz, commissioner of markets, said that potatoes at 3 cents a pound retail would be offered for sale today by the New York City food aid committee. The retail prices yesterday were from 4 to 6 cents a pound.

## French Radicals Demand Alsace-Lorraine Restored

Paris, Thursday, Oct. 26.—The national convention of the national radicals and radical socialists, the strongest political organization in France, opened today with 1,321 delegates present. Louis J. Malvy, former minister of the interior, who was charged recently with having dealings with the enemy, was cheered loudly when he entered the convention hall. A resolution demanding the restoration of Alsace-Lorraine "without compromise and without a plebiscite" was adopted.

## CAMP CODY SOON TO HAVE TARGET RANGE

Miles of Trenches to Be Dug When Actual War Practice Begins; Mile Firing Line.

Camp Cody, Deming, N. M., Oct. 26.—A bulletin has been issued by Colonel E. H. Schultze, division engineer, outlining plans to be followed in building the targets on the range here, preparatory to beginning the school of fire. The target range will be located northwest of the camp and will be arranged for the simultaneous firing of about 250 men at ranges varying from 250 to 1,000 yards. There will also be machine gun and pistol targets. The range will be in almost constant use, so that the whole division may have ample practice. There will also be maneuvers in troop firing at simulated targets. The entire front of the firing line will be well over a mile. A system of trenches will be laid out in the reservation north of Deming. Such a system will involve firing, approach, and other trenches, with shelters, dugouts, machine gun positions and other features, all well protected and revetted. The work will involve many miles of trench digging, together with wire entanglements. The troops will work in turn on the trenches. Artillery practice will be held in the vicinity and the trenches tested for shrapnel and high explosives. Since Major H. T. Harries of Omaha has taken charge of the military police a vigorous campaign has begun, with the aid of Deming police, to rid the city and vicinity of the camp of objectionable women and bootleggers. All roads into the town are watered and vehicles searched for intoxicants. The Deming jail is filled.

## Cipriano Castro Is Requested to Leave Trinidad

Port of Spain, Trinidad, Oct. 26.—Cipriano Castro, former president of Venezuela, has been requested by the government to leave Trinidad. The general declared his residence here had no political significance and protested against being compelled to sail at this season of the year, but is preparing to depart. He attributes his expulsion to American intervention.

General Castro has been traveling from one land to another for years, finding many ports closed against him. Recent accounts of his travels said he was accompanied by American secret service agents. Last month the former dictator of Venezuela, after a short stay in New York, sailed for Trinidad.

## Clinical Congress Unable To Find Cause of Cancer

Chicago, Oct. 26.—The causation of cancer is yet unknown to medical science, according to a statement made before the 3,000 surgeons who for the past week have been in Chicago attending the eighth annual convention of the Clinical Congress of Surgeons, which yesterday merged with the American College of Surgeons and is now known as the Clinical Congress of the American College of Surgeons. Dr. William T. Mayo of Rochester, Minn., president-elect of the new body, in discussing the advances made in the treatment of cancer, asserted that while physicians cannot ascribe exactly the causes of that disease, it is known that hot foods taken into the stomach often result in cancerous growths in that organ. Clean food, coupled with food at normal temperatures might go a long way in removing one of the first causes of cancer, Dr. Mayo said, and subsequent speakers agreed to this. Sir Berkeley Moynihan of Leeds, England, member of the British army staff, who has made daily addresses to the physicians, declared that in no one line of surgery had such strides been made as in lung and pleura surgery. He advised surgeons contemplating war service to be prepared to go about the lung surgery resolutely and without misgivings as to severity. He said that the lung could be cleansed of slivers of shells just as one would cleanse a new sponge.

Persistent Advertising Is the Road to Success.

## French Artillery Vastly Superior To German Guns

(By Associated Press.)  
American Training Camp in France, Oct. 26.—Major General Sibert, returning from around Soissons, where he witnessed part of the French offensive on the Aisne, said that the French losses had been extremely small because of the effectiveness of the artillery preparation. He and the other American officers were enthusiastic over the importance of the French victory, especially as to the amount of material and number of prisoners taken. The American officers were impressed greatly with the preponderance of the French artillery over the Germans. The French forced a crossing on

two rivers, wading through water up to their shoulders. On the Aisne front the ground newly won was being consolidated and no important fighting occurred during the night. The Germans renewed their attacks in the Verdun sector and were again beaten back, suffering large losses.

## Captain Von Horn is Arrested and Interned

New York, Oct. 26.—Jacob von Horn, who was an officer on the German cruiser Geier, which steamed into Honolulu harbor before the United States entered the war to escape British and Japanese warships, and was interned there, was arrested last night and taken to Ellis Island for internment. Von Horn is believed to have come to the United States before this country declared war against Germany.

## OFFICERS PAY HIGH RENTALS AT DEMING

Army Men Disgusted With Greed of Landlords; Captain Magett Found "Guilty" by "Kangaroo" Court.

Camp Cody, Deming, N. M., Oct. 25.—(Special)—Since Major Arthur M. Nelson, adjutant of the Sixty-eighth brigade, the Minnesotans, with a sprinkling of Troop C, Iowa cavalry; machine gun company, Fourth Nebraska infantry, and Companies I, K, L and M, Second Iowa infantry, thrown in, has mentioned the subject in the "Reveille," the weekly paper of the Minnesota bunch that is waking up things hereabout, it is no

doubt official to print the following "lead editorial" that appeared in the last issue of the little, but spicy, quarto:

"The property owners of Deming are sharpening the ax preparatory to killing the goose which was to lay the golden egg. They are bringing this about by the terrific rentals charged officers for living rooms in which to house their families. At present officers are compelled to pay as high as \$50 a month for a single furnished room, and \$150 a month for three and four-room cottages. Highway robbery is respectable in comparison.

"This brings to mind the assertion made by an Iowa several days ago that Captain G. W. Dulany, jr., commanding F battery, from Des Moines, was paying \$175 a month for a residence for his family. A Deming paper notes the advent of the Dulany's in town and says that although they are accustomed to all the luxuries that wealth can acquire, they are

very much delighted with Deming." Captain John P. Magett, Hastings, Neb., banker, was the victim at the "kangaroo" court-martial, in which Lieutenant J. B. Cain of Falls City was "prosecutor" and "judge advocate" and Captain C. A. Beaver presided. Captain C. B. Fletcher, Schuyler, Neb., lawyer, defended the accused. On 37 counts Magett was found guilty and fined a box of cigars and made to take a cold shower bath.

## Express Companies to Aid Food Commission

Washington, Oct. 26.—Co-operation of express companies in expediting the transportation of perishable food-stuffs was promised the food administration today by express company representatives. Directions will be issued that preference be given such products whenever necessary.

## One-Minute Store Talk

"The 50% dividend I take today in these great clothes values will be a 100% dividend before the year is over," said a banker buying clothes here.

The more men know about values, the more they realize that Greater Nebraska is passing on to its patrons the dividends of foresight and judgment provided months ago, when we made tremendous contracts for merchandise at the old prices.
