famous Princess Pat regiment and a trench fighter in France of three years' experience, delivered an intensely interesting lecture, accompanied with moving pictures, at the Muny Auditorium last night.

The Auditorium was more than onecrowd. The pictures were very plain and the screen displayed many humorous incidents as well as pathetic scenes of the world war.

A pile of buttons two feet high, which had been cut from the trousers of German prisoners, to keep them from running away, caused an uproar of laughter which lasted several minutes. Sergeant Hanley explained that it was not an easy thing for a prisoner to run very fast if he had to keep both

hands busy holding up his trousers.

The working of the great guns which are now blasting a way through the Tentonic lines on the western front also created much interest.

Constant violations of all international laws of war have caused the allies to load thousands of German prisoners on every transport running the English channel and the Irish Hanley. The thought of losing so many Germans has caused the kaiser to hesitate in sinking them, he de-

"Over the Top" was clearly demonstrated in the pictures, when the almiles of Teuton trenches.

A nairplane battle in which three allied machines forced a German Taube to land also was vividly shown.

State Farmers' Body Will Five thousand feet of film are carried by Sergeant Hanley. The sergeant spoke in a clear, ringing voice, and ended his entertainment with an appeal to all Canadians and Britishers in Omaha to communicate with him and join the Union Jack.

A lieutenant of the Seventh infan-try, now organizing, also spoke.

A Spoonful of Salts Relieves Aching Kidneys

We eat too much meat, which clogs Kidneys, says noted authority.

If back hurts or Bladder bothers, stop all meat for a while.

When you wake up with backache and dull misery in the kidney region it generally means you have been cating too much meat, says a well-known authority. PYORRHEA COMES FROM BAD BLOOD

Opinion of Leading **Dentists**

A great deal of suffering is caused by pyorrhea, or receding gums. Because of impure blood, germs multiply rapidly and attack the gums. Pus pockets are formed, the gums themselves become very sore and painful, the breath offensive, and the teeth loosened. A disease of this sort should of course be treated by a dentist and you can at the same time do a great deal yourself by ridding the blood of its load of impurities.

Impure blood is usually the result of constipation and everybody knows that there's no remedy like old-fashioned salts for constipation.

A way has been found to take the bad taste out of salts and also to make them dissolve in cold water. Oldfashioned salts have been combined with fruit acids. The result is a preparation that is almost like a home made remedy such as you could make your-self if you had the facilities. It contains no caffeine and no heart stimu-

Old-fashioned salts in this new form is called Salinos because that's easier to say (Sally-Nos) than the long medical names of the salts.

Salinos is easy to take, dissolves readily in cold water and gives to it a pleasing flavor.

Get a package today from any good druggist and try a little in a full glass fore breakfast. You'll feel better within an hour and the end of the day won't find you dog-tired, with a sick headache and a sour stomach. Besides, its regular use will tend to clean up your blood, help the pyorrhea, and show a decided improvement in your general health. Ask your Dentist about Salinos. He knows.
