

DESTROYERS MOST FEARED BY U-BOATS

Diaries of Submarine Commanders Prove Effectiveness of Destroyers, Operating Against Subs.

Base of the American Flotilla in British Waters, Nov. 2.—Diaries taken from captured U-boat commanders furnish documentary evidence that the destroyer is the most effective of present weapons against the submarine. "Avoided destroyer" is often repeated entry. In fact, these logs show conclusively that the submarines are having a hard time of it. The result of destroyer activity during the last four weeks has been not only a decrease in casualties of merchant ships, but also a still more satisfactory increase in the number of submarines sunk.

The conveying of merchantmen has now reached a stage of considerable perfection, after many months' work in training both officers of merchant ships and the personnel of the patrol flotillas, and while systematic conveying was undertaken primarily as a defensive measure, it has now developed that conveying is at the same time the best offensive measure yet devised against the U-boats.

Torpedo's Wake Gives Direction. The offensive side of conveying may best be shown by an illustration. When a submarine tries to torpedo a convoyed ship—as submarines are now compelled to do owing to the infrequency of unconvoyed shipping—there is always a destroyer on the scene and the chances of its "getting" that particular submarine are correspondingly increased.

The wake of a torpedo is generally seen by the destroyer's lookouts and it gives a good line on the direction where the submarine is lying.

The destroyer immediately steers a course full speed in the line shown by the torpedo's wake and drops repeated depth charges along this course.

In a considerable proportion of cases this proves effective, for these depth charges cause serious commotion over a corresponding radius. The Associated Press correspondent was told of three cases during the last fortnight in which submarines were thus destroyed. In many instances, no doubt, submarines are destroyed without any visible indication above water of their loss. Still others are badly crippled, as in the case of the damaged U-boat which was recently interned in Spain.

Another submarine which will never return to Germany was sunk under peculiar circumstances a short time ago. This U-boat torpedoed a ship bound from the United States. It is extremely unwise and unsafe to fire a torpedo at such close range, but

the U-boat must take their targets as they get them these days.

The torpedoed ship was loaded with a cargo of heavy war material, and the explosion was so forcible that it blew a large piece of heavy material through the deck of the ship and dropped it on the submarine as the latter was submerging. The hull of the submarine was crushed like an egg shell and it sank with all on board.

No German Operas In New York This Season, War Result

New York, Nov. 2.—German operas will not be heard at the Metropolitan opera house this season, it was learned today. While no official announcement has been made, it is known that the management has rescinded its former decision to include Wagnerian operas in the program. It is said that as a result of the ban on German music, Mme. Gaski and Otto Goritz will not be among the singers appearing on the Metropolitan stage this season.

The directors of the opera have reached the conclusion, it is said, that to continue to produce German opera might enable Germany, by garbling news dispatches for home consumption, to convey the impression that the United States was not heart and soul in the war.

Judge Cline set the date for the trial after overruling the state's motion for a change of venue. The state opposed an immediate trial, asking time to enable a special venire to be drawn from which to select the jury.

Means Trial Starts Nov. 26; Change of Venue Refused

Concord, N. C., Nov. 2.—The trial of Gaston B. Means, for the murder of Mrs. Maude A. King, will begin here November 26 before Judge Cline. Governor Bickett will be asked to call a special term of court for the trial.

Judge Cline set the date for the trial after overruling the state's motion for a change of venue. The state opposed an immediate trial, asking time to enable a special venire to be drawn from which to select the jury.

Employes of Shipbuilding Plant Strike at Beaumont. Beaumont, Tex., Nov. 2.—Two hundred employes of the McBride & Law Shipbuilding plant went out on strike today, demanding higher wages. A representative of the firm stated that they were paying the government scale and could not agree to an increase without authority from the shipping board. Three hundred men are employed and, with 200 of them walking out, it was necessary to close down the plant.

Government Warning Denounces Food Imposters

Washington, Nov. 2.—The food administration branded as imposters men in various parts of the country who have attempted to buy home canned products put up by housewives, representing themselves as food administration agents. At the same time the food administration took occasion again to deny that the government contemplates commanding dealers to sell canned goods.

Deserter Sentenced to Ten Years in Leavenworth

Camp Custer, Battle Creek, Mich., Nov. 2.—The first court-martial sentence for desertion was imposed here today.

today. Frederick J. Hagin of Midland county, Michigan, was sentenced to 10 years at Leavenworth prison.

"Incomparable Sons" is German Tyrant's Latest

Amsterdam, Nov. 2.—A Berlin dispatch says that Emperor William has telegraphed to General von Below, commanding troops on the Italian front, congratulations for his successes against Italy, saying: "Our faithless former ally has experienced what German strength and German wrath can accomplish. With me the fatherland thanks its incomparable sons. Forward with God."

Two German Airplanes is French Toll For One Day

Paris, Nov. 2.—Ten German airplanes were brought down yesterday by the French or compelled to land in damaged condition, the war office announces.

The artillery battle continues on the Aisne front. German attacks at several points were repulsed.

"Our bombing squadrons dropped 5,500 pounds of projectiles on the town of Offenbourg in the grand duchy of Baden."

at Behlestadt, munitions depots at Ruffach and Wepereimthal, and the railway station at Thionville, the war office also reported.

"In reprisal for the bombardment of Dunkirk 17 of our airplanes dropped 5,500 pounds of projectiles on the town of Offenbourg in the grand duchy of Baden."

THIRTY-ONE YEARS IN OMAHA

THOMPSON, BELDEN & CO.

The Fashion Center for Women

The Same Honest Business Principles Have Been in Force Since 1886

RED CROWN GASOLINE

UNIFORM

Two things may prevent your motor from developing its maximum power at all times—
Using a gasoline that is not always uniform, and
Frequent changes from one gasoline to another.

You cannot keep your carburetor properly adjusted if you do either of these things. Standardize on your gasoline. Fill your tank with Red Crown wherever you are. Wherever you get it you'll find it the same—powerful, speedy, quick-starting and crowded with mileage.

At our Service Stations and all good garages. Look for the Red Crown Sign.
Put-Polarine in your crankcase.
It's the perfect winter lubricant.
