SOUTH SIDE POLES FAVOR NEW LEGION

Ask Foreign Commission to Visit Omaha and Speak on New Contingent to Be Formed.

South Side Poles have written to members of the French-Polish commission now in the United States, asking them to come to Omaha and speak on the formation of the Polish army contingent for service in Europe.

Polish people of South Omaha held a meeting to discuss plans for the organization of a Polish army. Many of them are anxious to fight under their native flag. There are more than 650 Polish families in South Omaha.

IGNACE PADEREWSKI.

and there are many young unmarried men, who are not eligible to join the United States army, but could fight with a Polish legion.

The plan is not to detract from enlistments in the regular army, but to form a new legion among patriotic Poles who are either too old or are not eligible for service in United States ranks.

The French government is financing the new army and it is understood the United States will help equip and train the soldiers.

The War department has given its approval to the plan of raising the Polish legion. Ignace Paderewski heads the movement.

"The government needs your services," said Mr. Wattles. "You are helping us to win the war. I know Uncle Sam can depend on his scouts." Each boy who obtains five or more signatures will be given a service band, and the troop which obtains the most will be given a loving cup by the government.

Robert Cowell Addresses Meeting of Noon Day Club

"If Germany succeeds in this great world conflict, I'll seriously doubt the existence of an all wise supreme being, and I say in all sincerity that I'd rather die than live under the conditions that must follow such an outcome," was the statement of Robert Cowell in an address on the "Nation's Peril," before the Noon Day club at its meeting at the Commercial club rooms yesterday. Mr. Cowell spoke for the man who is born on foreign soil. He said that he loved the Isle of Man where he was born and spent 12 years of his childhood, but that this love of soil, this love of the native land was not patriotism.

"Patriotism," he said, "is a love for a government, for its institutions and ambitions expressed in a readiness to live for them, to fight for them and to die for them if need be."

UNCOVER PLOT TO SPIRIT IN ENEMIES

Big Shipping Agency in Buenos Aires Extorts Fees to Bring Seamen to This Country as Americans.

New York, Nov. 2.—Government authorities believe they have uncovered a system which has enabled enemy aliens and others not citizens of the United States to come to this country on vessels bound from Argentina to New York by the arrest today of four members of the crew of a steamship that arrived in Brooklyn from Buenos Aires, October 23.

An assistant U. S. district attorney said he believed that a shipping agency in Buenos Aires is extorting big fees to ship alien seamen onto U. S. merchant boats as Americans. The fees, it is stated, range from \$40 to \$100.

One of the men arrested the police say, admits that he is a German although he had in his possession an honorable discharge from the U. S. army made out in the name of Ray Wirick.

First Mate Charles Fersel was arrested on complaint of an American member of the crew who claimed he was beaten and refused medical aid on the trip because he refused to pay more than \$10 to the shipping agency in Buenos Aires which placed him on the ship. Fersel was indicted by a federal grand jury and pleaded not guilty when arraigned.

Members of the crew declared there are hundreds of American seamen in Buenos Aires unable to obtain employment because of the big fees demanded by the shipping agencies.

Mr. Watter will address the convention on "The Future of Grain Growing in This Territory." He recently resigned his chair as president of the agricultural college to become managing editor of the Kansas City Weekly Star.

Frank M. Myers of Fort Dodge, Ia., secretary of the Iowa Grain Dealers' association, Charles T. Neal, in charge of the grain buying for the government in Omaha; J. L. Wallace, government supervisor of grain at Omaha, and many other prominent men in the field will address the convention.

The Servants of Health

Dr. G. D. Shipperd, Manager.

The servants of health, the various parts of the body, having each its own work to do, are long suffering. But ill treatment brings inevitable punishment.

Of all the servants of health, none are more important than the teeth, for upon them depends the proper mastication of food. Upon this in turn depends the entire welfare of the body, taking in directly or indirectly every other servant of health.

Neglect of the teeth can be called by no milder term than sheer folly. Think it over, if you have teeth which need attention.
