Carlot receipts of grain totaled 167 cars today; 67 of these were wheat, the bulk of them grading No. 2 and No. 3, and were diverted to the local mills. Twenty-one cars of corn were reported and 67 tars of oats, while rye receipts were four cars, and those of barley eight cars.

Continued light arrivals of corn were noticed today, and can be expected for the next month or so, while the farmers are gathering the new crop. The market on the whole was extremely narrow and only a few transactions were reported late in the session. Spot quotations were much lower, a few sales being made at a 2c to 5c decline. Local buyers were not over-anxious for any amount of this cereal, while the export inquiry was also very light. No. 2 yellow sold at \$2.03 and \$2.04, and the No. 2 mixed at \$1.90, while one car each of No. 1 and No. 2 mixed, near white, sold at \$1.98. A part car of No. 4 white brought \$2.00.

More resistance to pressure was displayed by eats than by corn. Some improvement in domestic demand seemed evident, but the call from the seaboard remained light. Provisions underwent a sharp setback owing to the weakness of hogs and corn. On the break, packers became buyers and railled the market to a moderate extent. The latest announcement of government plans for stabilising the ratio of corn had hog prices was made public after the provision market had closed.

LONDON COMMENT. ON RUSSIA MILD .

British Press Inclined to Belief That Kerensky's Statements Have Been Taken Too Seriously Here.

London, Nov. 3 .- Most of the morning papers print Premier Kerensky's interview with the Associated Press conspicuously, but the comment is not general. The Petrograd correspondent of the Daily Telegraph, who is now in London, writes:

"Premier Kerensky's statement seems to have been taken a little too seriously in some quarters. It even has been construed as a hint that Russia is toying with the idea of a separate peace. This theory should not be allowed to establish itself."

Russian Casualties Highest. The writer then tells of the immense sacrifices in men that Russia has made and recalls the revelations in the trial of General Soukhomlinoff, former minister of war, of how Russian heroes stood up with only sticks, stones and fists against the organized German troops. He believes Russian casualties have been higher than any other of the main belligerents.

The writer also emphasizes the pri-

vations of the civilian population and adds: "Already people are dying of hunger in some of the northern provinces and it is not pleasant to think what the situation in such districts may become early in the future. What Kerensky wants apparently is not a release from the bonds which unite us, but indulgence for Russia's weakness, and Russia certainly has deserved indulgence for its efforts and sufferings. All we can ask of it is to do its best. We must not be impa-

tient if that is less than we expected." Suspect Pro-German Activity. "We should hate to regard the statements as authentic. They have the ring of pro-German propaganda." The newspaper then says that Kerensky, "if he has made such a statement, should be reminded that France and Great Britain have been in the war as long as Russia, but are not yet war-weary and do not desire to shirk their responsibilties. Russia, it declares, also has received generous assistance from the allies and the

United States. The Graphic con-"Now is the time to prove its devotion to the ideals of the allies, not by lip service, but by good, hard blows on the weakened Austro-German lines in the east."
